Budget Message

By

GOVERNOR EARL WARREN

1951-1952 Budget

To the Senate and Assembly of the State Legislature of California:

In conformity with Section 34 of Article IV of the Constitution, I submit herewith the Budget for the State of California for the fiscal year ending June 30, 1952.

This Budget, in view of the national emergency, has been held to bare essentials. It calls for no additional taxes. It proposes a reduction in total expenditures despite substantial increases in fixed charges. The total expenditures for the 1951-52 Fiscal Year are estimated at \$1,016,883,002, which is \$75,828,248 less than the revised estimates * for the current, 1950-51, year.

No New Taxes

I am glad to present to you another Budget which is within our present means and which requires neither new revenue measures nor increases in tax rates.

Revenues have been estimated on a middle ground, conservative basis. Yields from the principal sources, taxes measured by sales and income, obviously vary with the volume of business activity, corporation and personal income, and wage rates and prices. Our estimates are on the assumption that there will be a continued expansion of the Nation's economy as the defense program proceeds, but that runaway inflation will be prevented.

* See reconciliation page A-48 with the total as submitted in the 1950-51 Budget.

Expenditures Curtailed Wherever Possible

As you know, a large part of our State Budget is not subject to executive or even legislative control. Outlays for the public school system and welfare programs are determined by continuing legislation. As school attendance and welfare case loads increase, expenditures increase automatically. Expenditures for highways are determined by the amount of special revenues for that purpose.

Much of the remainder of the Budget inevitably increases as the State's population continues to grow. Wage and price advances add to our costs, too, as in all enterprises.

Despite these difficulties we have cut budget requests wherever possible and have especially curtailed the outlays which would take manpower and materials needed for national defense. Particularly is this true of capital outlays, as will be seen from an examination of that section of the Budget.

Three Sections: State Operations, Capital Outlay and Local Assistance

The Budget again is presented in three sections, each largely independent of the others: State Operations, Capital Outlay, and Local Assistance.

STATE OPERATIONS

Few expansions of services are proposed under State Operations. Provision is made for heavier work loads where they were clearly demonstrated. A lump sum is recommended for augmenting the individual budgets for price increases which have occurred since July, 1950, with a moderate allowance for highly probable further advances. Similarly, a lump sum is included for salary increases.

As you have observed from the annual report of the Personnel Board the salaries of state employees have lagged behind those paid by other employers. The last general increase in state pay was in October, 1948. You have wisely adopted in the civil service law the policy of paying state employees at rates equivalent to those of comparable employment in private industry and other public jurisdictions. The Personnel Board has found from its studies that on a conservative basis a general increase of one step (approximately 5 percent) is required now to bring the pay in the

state service up to the present level of other employment. Accordingly provision is made in a special item in this Budget for the recommended one-step increase to be effective January 1, 1951. The Personnel Board report further points out the strong likelihood, if present trends continue, of the need for an additional one-step advance in the coming fiscal year, and allowance is made in this Budget for such an adjustment should conditions requiring it materialize.

Principal Items

You will find detailed explanations of the expenditures proposed for each department and institution. Let me direct your attention especially to some of the more important items:

Civil Defense: The new Office of Civil Defense will require \$1,738,953 in 1951-52 to continue for a full year the civil defense program authorized during the September special session. This is for the planning, coordinating and training work to be performed at the state level in line with the national plan for civil defense. There is also the need for a moderate augmentation of the amount, which was on a purely estimated basis, appropriated for the current fiscal year. Recent national legislation will provide financing in part of equipment and other outlays for civil defense operations in possible target areas. The amount which the State may be required to make available for any such extraordinary outlays cannot be determined until Congress makes appropriations and federal policies are clarified. If extraordinary expenditures, capital or otherwise, are required, I will communicate both the needs and my views on financing them to you.

At the September special session you made the \$75,000,000 so-called "Rainy Day Fund" available for emergency disaster relief until June 30, 1951. I recommend that you continue this emergency measure in force for an additional year.

Corrections: A moderate increase is required for the Department of Corrections to put into operation the much needed new inmate quarters at Soledad, Chino and Terminal Island—permitting considerable relief from the badly overcrowded conditions at San Quentin.

Education: Provision is made for heavier enrollments, possible because of added facilities, at the state colleges and at the School for the Deaf. A small increase is allowed also for added work load in the State Superintendent's office. Allowance is made too for expansion in vocational rehabilitation work.

University of California: The University of California will require an increase of approximately \$1,400,000 in spite of a drop in enrollment, for two main reasons: (1) most of the veterans have completed their university work, with a consequent drop in revenues from the United States Veterans Administration; (2) new graduate schools principally in Los Angeles, which were authorized in recent years, are coming into operation, requiring substantial additional outlays for faculty and other costs.

Highway Patrol: I am recommending a further step towards an adequate manning of our Highway Patrol. A study of our traffic patrol requirements indicates that the uniformed personnel of 1,364 should be increased by more than 900 men. This Budget recommends 100 additional patrolmen with the required complements of supervisory and clerical personnel. I would have recommended a larger number under normal conditions, but I believe this smaller increment represents the number of qualified men who can be recruited and trained during this coming year.

Mental Hygiene: In spite of shortages in facilities and personnel, good progress is being made in improving the care and treatment of the mentally ill. A further step in an orderly program of improvements in standards is proposed in this Budget. Our aim is to restore the greatest possible number of patients to normal lives in the shortest possible time. This is not only a matter of reducing human suffering; it is good sound economy.

Military Affairs: Our state militia is in a period of uncertainty. About half the California National Guard has been called to active federal service and we are in the process of recruiting the State Defense and Security Corps to serve the home front in its absence. The recruiting expenses for the Corps will continue during the coming Fiscal Year. The remaining half of the National Guard is still under state jurisdiction. It is more costly to maintain a militia which is half National Guard and half State Defense and Security Corps than if it were wholly one or the other. Per-

haps Washington will clarify the situation before you have completed your consideration of the Budget. Some reduction should be possible if the remainder of the National Guard is called out and we need provide only for the Defense and Security Corps.

CAPITAL OUTLAY

The postwar building program is nearing completion. By the end of next year more than \$400,000,000 in construction work will have been finished or under contract since 1946.

Even with this accomplishment we still have a heavy backlog of building requirements. The \$400,000,000 program barely met the lag in construction which occurred during the depression and World War II. It made little headway in meeting the new needs resulting from the tremendous increase in the State's population.

A careful survey shows that we should, were it not for the defense emergency, undertake urgently needed outlays next year amounting to over \$85,000,000. The greater part of this must give way to the mobilization for defense. I am recommending major construction outlays for 1951-52 of \$24,318,000 which represents the imperative projects which cannot possibly be deferred. I feel certain federal authorities will approve these projects even in this period, when defense requirements have priority over all but the most urgent essentials.

I wish to call your attention especially to two important items. First are more facilities for the mentally defective. We cannot longer continue adding to waiting lists and aggravating the tragedy of inadequate provision for the mentally defective children. Second is the provision for increased capacity in our Youth Authority schools. Here again a delay means continuing an intolerable situation, with delinquent youths who need proper care and rehabilitation being either held in jails or allowed to get into further trouble. You will find the other items in the recommendations also to be of very great urgency.

The survey indicates needs amounting to more than \$300,000,000 which should be met in the next five years. We must add to the capacities of our hospitals and correctional institutions. The present greatly increased grade school attendance will in a very few years mean similar increases in University and college enroll-

ments. These represent the largest requirements. Needs for other facilities expand also as the State grows.

While all but emergency projects must be deferred until more settled times, the State's fiscal affairs will not be on a firm basis until a definite means of financing capital outlay needs is provided. The State of California cannot ignore the requirements for keeping up its physical plant any more than can an industrial enterprise. We must have an orderly means of financing replacements of worn out structures and construction of additions demanded by increased population. I recommend the creation of a committee to make a careful study of this problem with the objective of a sound, long-term plan.

Local Assistance

Again the expenditures for Local Assistance comprise more than half the total Budget and are made up almost entirely of fixed charges over which neither the Legislature nor the Executive has control. State support of the public schools, the largest item of Local Assistance, will require more than \$220,000,000 under existing law for the budget year.

Provision is made in the Budget for continuing Child Care Centers through the current year and the 1951-52 Fiscal Year. I am sure the need to carry on this activity is now clearly apparent in view of our manpower shortages and the much greater need for employing women in defense work.

Substantial increases will be required for aid to the aged, to the blind, and to needy children, as you will see from the analysis. The crippled children program has also increased because of more complete state-wide participation at the county level.

Flood Damage

The State Engineer is making a survey of the damage to local public works caused by the recent heavy floods in Northern and Central California. Some funds are already available for state assistance in repairing the flood damage. Fortunately in 1946 we set aside a special reserve for flood control work. A part of this money, which is not immediately required for the longer term flood control projects, can be made available to assist the local units in

repairing the damage. I recommend that \$2,000,000 of this reserve be earmarked as an emergency fund for flood damage repair.

A Balanced Budget

As will be seen from Schedule I, after providing for the estimated expenditures for purposes now authorized, there will remain as of June 30, 1952, an unbudgeted surplus in the General Fund estimated at \$20,736,277.

I am again recommending your favorable action on a program of aid to the needy totally and permanently disabled in conformity with a recent amendment to the Federal Social Security Act which makes federal grants available for this purpose. The great majority of states have already taken steps to participate in this program. Certainly no group of needy persons requires our help more than those with such complete and permanent handicaps. This broadening of the Federal Social Security law affords both an opportunity for a more adequate program of aid to this group of needy persons and a means of assisting counties through federal and state sharing of the cost. A carefully prepared bill with strict eligibility requirements will be presented for your consideration. For the portion of the 1951-52 Fiscal Year during which it would be operative it is estimated the State's share of costs would be \$6,122,000.

There will be sufficient resources in the General Fund to finance the following recommendations which I have made in the message delivered to you Monday:

Place school apportionments on a current basis and increase support for transportation; assist counties to provide facilities for senile patients, for maintenance of clinics for alcoholics and for psychiatric hospitals; "smog" research; administrative expenses of Commissions on Economic and Political Equality, Organized Crime, Taxes, and Reorganization of Government, and a Planning Agency.

Any substantial additional expenditures for new services or for increased subventions will require additional taxes. I know you are as conscious as I am of the present heavy tax burden and of the impending further increases in federal taxes. True, our basic

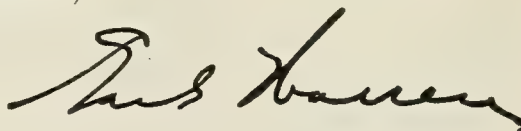

general state tax rates have not been increased for many years. Actually state taxes take a smaller portion of our people's income today than they did 10 years ago.* In 1940 the average Californian paid \$5.29 in state taxes for each \$100 of income. In 1950, state taxes took \$5.11 from each \$100 of income. Nevertheless we at the state level must consider the burden imposed at the federal and local levels. The time has long since passed when any one unit of government could go its own way with no regard for what other units were doing in respect to the same body of taxpayers.

A comprehensive re-examination of our state and local tax structures is imperative if we are to arrive at the soundest and most equitable means of meeting the needs of both the state and local governments. Such a study, together with the work of a Commission on Reorganization of the State Government to provide the most effective reorganization and improvements of administrative operations, offers the best assurance of giving our people the greatest possible returns for their tax dollars.

In this Budget, revenues have been estimated on a realistic basis, anticipating moderate further inflation. Drastic controls might shrink them below the estimates, and cause us to draw on the Revenue Deficiency Fund. If controls fail, however, and much greater inflation occurs, revenues would exceed our estimates, but we should not authorize permanent new expanded expenditures on the hope of temporarily inflated revenues. To do so is to invite financial disaster when we revert to normal levels of income.

It should be a matter of extreme urgency indeed, clearly vital to the state welfare, which would impel adding new state taxes at this time.

Respectfully submitted,

Earl Warren

Governor

* See table at page A-24.

Letter of Transmittal

HONORABLE EARL WARREN, *Governor of California*
State Capitol, Sacramento, California

DEAR GOVERNOR WARREN: Transmitted herewith are the summary tables and detailed statements for the Budget of the State of California for the Fiscal Year July 1, 1951, to June 30, 1952, compiled in accordance with your policies and instructions.

The revenue estimates are, in my opinion, considering the uncertainties of the day, sound and reliable and in line with forecasts by the best informed economists. Fixed charges have been carefully calculated. Proposed expenditures for State Operations and Capital Outlays have been held to minimum needs. The pattern used in previous Budgets has been continued. The importance of clear and concise explanations of functions and requirements has been stressed.

An improved method of presenting General Fund resources has been adopted under which all current resources of the General Fund are shown. Previously such items as cash in the hands of state agencies not yet turned in to the State Treasury, and advances to counties for welfare payments had not been included as current resources, although these amounts are clearly available to meet budgeted expenditures as they become payable.

As you know, the General Fund surplus will be much greater at the beginning of the 1951-52 Fiscal Year than was anticipated in the Budget presented a year ago, principally because of increased revenues brought about by the sharp rise in business activity immediately following the onset of the Korean war. A complete reconciliation is shown between the surplus estimated in last year's Budget and the estimate presented herein.

Again I wish to express appreciation for excellent cooperation from department heads and their assistants and conscientious and tireless work by the staff of the Division of Budgets and Accounts in preparing the Budget.

The Department of Finance stands ready to serve you and the Legislature in furnishing further information or otherwise assisting in presenting the Budget.

Respectfully yours,

Director of Finance

Schedule 8

STATE OF CALIFORNIA GENERAL FUND BALANCE SHEET AS OF JUNE 30, 1950

RESOURCES

CASH:		
In State Treasury	\$28,654,823	
Remittances from agencies in transit	1,700,450	
In hands of agencies	1,996,700	
Total Cash	\$32,351,973	
Less: Reserve for uncleared collections	898,413	
NET TOTAL CASH		\$31,453,560
Agency revolving funds		6,162,544
Due from other funds	\$6,033,884	
Less: Amounts not currently due	230,911	
Net due from other funds		5,802,973
Amounts in General Revenue Funds Available for transfer to the General Fund:		
Alcohol Beverage Control Fund	\$235,638	
Bank and Corporation Franchise Tax Fund	316,935	
Gift Tax Fund	4,929	
Personal Income Tax Fund	8,632	
Retail Sales Tax Fund	7,809,624	
State Lands Act Fund	176,139	
Total		8,551,897
Advances to counties for payment of Social Welfare benefits		14,918,772
TOTAL RESOURCES		\$66,889,746

OBLIGATIONS

ACTUAL AND ESTIMATED ENCUMBERANCES:		
Claims payable filed	\$8,078,660	
Estimated additional encumbrances	24,134,352	
TOTAL ENCUMBERANCES		32,213,012
Due to other funds		1,961,092
TOTAL OBLIGATIONS		\$34,174,104

SURPLUS

AVAILABLE SURPLUS, JUNE 30, 1950	\$32,715,642
--	--------------

The balance sheet has been prepared on the basis of the accounts as reflected on the books of the various agencies. Revenues have been accounted for as received by the agencies rather than as cleared into the State Treasury. The advances to counties for aid to the needy aged, blind and children are mainly those advances made in June, 1950, for payment in July, 1950.

Schedule 8-A

GENERAL FUND SUMMARY FOR THE 1950-51 FISCAL YEAR

RECONCILIATION OF THE SUMMARY AS SHOWN IN THE 1950-51 BUDGET WITH THE REVISED SUMMARY AS SHOWN IN THE 1951-52 BUDGET

	Estimates Per 1950 Budget	Revised Estimates Per 1951 Budget	Change From 1950 Budget
UNBUDGETED SURPLUS, JUNE 30, 1950.....	\$14,729,492	\$32,715,642	^a \$17,986,150
ESTIMATED REVENUES:			
Alcoholic Beverage Taxes.....	\$16,800,000	\$18,523,000	\$1,723,000
Bank and Corporation Franchise Tax and Corporation Income Taxes.....	76,735,000	87,345,000	10,610,000

ESTIMATED ACCUMULATED SURPLUS, JUNE 30, 1951.....	\$2,251,586	\$51,794,420	\$49,542,834

^a Change mainly due to accounting for cash in the hands of agencies rather than cash only in the State Treasury which amounted to \$2,798,737, and advances to the counties for social welfare payments in the amount of \$14,918,772.

^b Increased revenues due mainly to increased business activity since the beginning of the Korean war.

^c The 1951 Budget provides for \$4,764,681 for salary increases, \$2,404,424 for increases in commodity prices, and other changes.

^d The changes are due in part to change in method of accounting for school building construction on a cash disbursement basis to an allocation basis which will show an increase of \$2,108,236 from the 1950 Budget. Increase over estimates for school apportionments, \$4,875,037. Child care centers were not provided for in the 1950 Budget, \$4,698,873.

Estimated Revenues, 1951-52

Revenue receipts of the State Government during the next fiscal year are estimated to total \$969,680,898. Of this sum, \$641,033,620 will accrue to the General Fund, and \$328,647,278 will be credited to the various special funds. These figures compare as follows with actual collections in 1949-50 and revised estimates of revenue to be received during the current, 1950-51, fiscal period.

	<i>Actual 1949-50</i>	<i>Estimated 1950-51</i>	<i>Estimated 1951-52</i>
General Fund --	\$551,240,969	\$620,266,892	\$641,033,620
Special Funds --	293,013,952	312,490,609	328,647,278
Total -----	\$844,254,921	\$932,757,501	\$969,680,898

In addition, the State will receive \$206,021,673 from the Federal Government for the support of social welfare, public health, education, and other jointly financed programs. The comparative figure for the current year is \$191,316,965, while actual receipts during 1949-50 totaled \$168,053,786.

In this period of uncertainty it must be emphasized that international developments will have a profound effect upon the State's revenue. The estimates presented herewith are based upon the major assumption that the United States will not become involved in another world war during the period covered by this budget. If this assumption should prove false, the effect upon economic conditions, state revenues, and expenditures are beyond immediate conjecture.

The close relationship between economic conditions in this state and tax collections has been repeatedly emphasized. With the present tax structure so closely geared to general economic activity, changes in business volume are reflected almost immediately in revenue collections from most of the important tax sources. Basically, therefore, the State's income will be determined by the economic conditions in California during the calendar year 1951 and the early months of 1952, and these, in turn, will follow the general pattern of activity in the nation as a whole. For this reason, revenue estimates must be predicated upon the probable course of developments in the Nation and an appraisal of their effect upon California's economy.

Economic Trends in 1950

The year 1950 began generally as anticipated. The minor readjustment which occurred in 1949 had about run its course, and confidence had been restored to business and to the people. The greater number of workers employed, coupled with industrial capacity added since 1946, pushed the production of goods to a new postwar peak by June, 1950. Automobile production and building activity, in particular, were exceeding expectations, and both were headed for all-time highs.

The value of new construction was about 20 percent higher during the first half of 1950 than in the corresponding period of the preceding year, with most of this increase occurring in residential construction.

Expenditures for new plant and equipment by industry were lower in the first quarter than at any time during the previous three years, but by the second quarter such expenditures had increased 17 percent.

The price decline which started in 1948 had been arrested, and prices were moving slowly but generally upward. With personal income increasing, after a drop during 1949, people were buying more goods and services, using their higher incomes and expanding their credit obligations. Corporation profits, which declined from \$33.9 billion in 1948 to \$27.6 billion in 1949, rebounded to an annual rate of \$33.3 billion in the first half of 1950.

The Nation as a whole appeared to be entering a period of renewed prosperity; and even foreign countries were in better economic condition, with the gap between imports and exports narrowing. While the international situation was not improving, neither did it appear, at that time, unduly alarming. On June 25, 1950, the picture suddenly changed. The United States, through the United Nations, accepted the responsibility of protecting Korea from communist aggression. Events moved rapidly from this point.

The first reaction of the people was to purchase goods, principally automobiles and appliances, which they had deferred buying. The government began to push a program of rebuilding its defenses. At the same time industry was urged to increase its productive capacity in order to provide for the rearmament program without a severe curtailment in the supply of civilian goods. To contain the inflationary pressures, restrictions were placed upon mortgage and other types of credit. Higher personal income taxes were imposed on October 1, 1950, with the dual purpose of placing the rearmament program on a pay-as-you-go basis and siphoning off excess purchasing power. In this phase of national planning it was believed that the defense program could be spread over a relatively long period of time, thus reducing its impact on the Nation's economy, and that inflation could be prevented by these secondary controls without resorting to price and wage ceilings.

In the closing months of 1950, however, the international situation deteriorated and it now appears that the United States will be forced to rearm as rapidly as possible, short of general mobilization.

1951 Outlook

This rearmament program is the most important factor to be considered in appraising business trends during the current year. Congress, during 1950, appropriated approximately \$50 billion for defense and allied programs for the year ending June 30, 1951. Not all of this can be spent before June 30, however. Time is required to convert from the manufacture of civilian goods to production of things needed for national defense. Actual expenditures will depend upon the timing and extent of this conversion. Expenditures

for this purpose during the current year probably will not exceed \$30 billion, but they will increase rapidly during the closing months of this year and the first half of 1952.

To provide for defense needs, production of civilian goods must be cut. The Federal Government has already taken steps to accomplish this by curtailing demand through credit controls, and by allocating essential raw materials. So far, only a few of the basic metals have been allocated but the list will undoubtedly be expanded in coming months. Because military requirements are more specialized than civilian needs, the allocation of materials will cause especially severe reductions in the supply of certain types of civilian goods.

Some of the demands upon the economy can be met by the utilization of existing plant capacity. New plants will be erected later, but it is probable that most of those producing defense goods will be located in the interior, for strategic reasons. California should benefit initially as existing plants produce at maximum output, but will probably not share heavily in the plant expansion program.

Employment will probably rise slowly, if at all, while conversion is under way, and then more rapidly as defense production gets into full swing. Since unemployment is now low and inductions into the armed forces will be accelerated, it will be necessary to draw new workers—housewives, persons in retirement, and students—into the labor force. Shifting of workers from one area to another will be minimized since existing plant capacity will be used wherever possible. With a limited labor force available, a 10 to 12 percent increase in the work-week can be anticipated.

The mortgage restrictions imposed last September 18 will show their effect on residential building as the large number of contracts let before the controls were imposed are completed. A reduction of nearly one-third in the number of houses completed in California is to be expected during 1951. This drop in residential building will be only partially offset by an increase in the volume of industrial construction. Completion of the large postwar construction program of the major power companies and governmental agencies will also lend a degree of stability to the building industry.

Increased business activity, coupled with price changes, will raise individual incomes in 1951, but a part of the increase will be absorbed by heavier federal income taxes. Spendable income of Californians is estimated at \$17.8 billion, or 6.5 percent over the corresponding total for 1950. Not all of this will be spent for goods and services. Under present credit restrictions, existing debt will probably be retired more rapidly than new credit is extended. The amount of short-term credit outstanding at the end of 1950 in California is estimated at 10.4 percent of spendable income. This is expected to decline to a ratio of 8.7 percent by the end of 1951.

The amount of goods and services available for purchase must keep pace with the money supply, if severe inflationary pressures are to be avoided. Although some increase in physical output is anticipated, it now appears that some form of price control will become necessary this year to stay the wage-price spiral, since the voluntary price freeze seems to be having only indifferent success. Various formulas have been proposed,

but it is likely that none will prevent a moderate price increase. If price controls, either generally or in limited areas, are invoked, they will undoubtedly be accompanied by rationing.

Basic Assumptions

The forecasts of state revenues to be received during the 1951-52 Fiscal Year and to some extent those for the 1950-51 Fiscal Year have been based upon a definite set of assumptions covering such fundamental factors as business activity, income of the people of California, prices, and population growth. Underlying all of these, however, is the fundamental assumption that this Country will not become involved in another world war.

These assumptions have been formulated after an analysis of economic data and have been discussed with leading economists familiar with California conditions and trends. They are in general agreement with opinions expressed by national economists and economic research agencies regarding the outlook for the Country as a whole. Rapidly changing economic conditions have made forecasting unusually difficult, but great effort has been made to keep the estimates in line with the current outlook.

(1) *Business activity.* The greatest single factor determining business activity during 1951 will be the speed with which the defense program can be implemented. Although production for civilian goods will be curtailed, particularly in durables, personal expenditures are expected to continue at a relatively high level. Expansion of the Nation's productive facilities will reach record volume during 1951, according to a recent survey by federal agencies. These factors, combined with increasing expenditures for national defense, large outlays for public works by state and local governments, and impetus of even moderate further inflation should produce a higher level of business activity in 1951 than during the last year.

(2) *Income of California Residents.* Incomes received by Californians totaled approximately \$17 billion in 1949, according to estimates by the United States Department of Commerce. The total was slightly higher in the first half of 1950 than in the corresponding period of 1949, and a still greater increase occurred following the outbreak of war in Korea. Available preliminary statistics indicate that 1950 incomes will aggregate approximately \$18.25 billion.

Greater employment at higher wages and longer hours of work will produce a further increase in salary and wage payments in 1951. A sustained demand for farm products and the return to a sellers' market appear to assure higher incomes for those who are engaged in agriculture and trade. Dividends are likely to decline as a result of increased federal taxes, while rental incomes will be squeezed between extended rent control and rising maintenance costs. It is estimated these several factors will produce an aggregate income to the people of California totaling \$19.8 billion in 1951.

Higher federal taxes will absorb part of this increase, and government controls will produce a decline in the volume of business transacted on credit. Although savings will probably increase, net additions to liquid reserves are not likely to reach the volume attained during World War II. Under these assump-

tions, it is estimated the people of California will spend approximately \$17.1 billion during 1951, as compared with \$16.8 billion in 1950, and \$15.6 billion in 1949.

(3) *Price Levels.* Wholesale prices, after dropping during 1949, began to increase slowly during the first half of 1950. A more rapid rise occurred during the second half of the year, however, producing a 9 percent increase in the general wholesale price index between June and November. Retail prices had advanced only about 3 percent during the same period. Prices at both wholesale and retail should average higher than current levels during 1951, even if general price controls are imposed. For purposes of these estimates an average for 1951 of 5 percent above the September, 1950, level has been assumed.¹

(4) *Population.* According to Census Bureau enumeration, the population of California was 10,586,223 as of April 1, 1950. The comparable figure for July 1, 1950, is estimated to be 10,650,000. It has been assumed the net population growth will be approximately the same during the next two years as in 1948 and 1949. With the mobilization goals set at this time, more Californians will be inducted into the armed forces and sent overseas to build up our perimeter defenses, but it is expected this loss will be more than offset by increased net in-migration as a result of greater employment in defense industries located here. Under these assumptions, California's population is estimated to reach 10,940,000 by July 1, 1951, and 11,220,000 by July 1, 1952.²

General Fund Taxes

Under the economic pattern indicated above and the assumptions outlined in the following discussion of specific tax sources, General Fund revenue receipts are estimated to reach a total of \$641,000,000 in 1951-52. It must be emphasized that the most important factor influencing General Fund revenues is the amount of income received by the people of California. If the aggregate of individual incomes should vary as little as 1 percent above or below the \$19.8 billion estimated for 1951, General Fund revenues would change by more than \$5,500,000.

Transactions taxable under the California retail sales and use taxes reached an all-time peak in the third quarter of 1950 with a total of \$3,340,000,000, or 26 percent more than during the same quarter in 1949. This increase can be attributed largely to advance buying on the part of both consumers and industry.

Although expenditures by industry for plant and equipment are expected to increase during the current year, there will be a substantial drop in the purchase of consumers' durable goods and in residential building. It is unlikely, therefore, that the recent peak in

taxable retail sales will be exceeded during the next 18 months.

Normally, there is a direct, measurable relationship between aggregate personal expenditures³ and taxable retail sales in any given year. Revenue estimates of recent years have been predicated primarily upon this established correlation. A deviation from the long-term trend can be anticipated in 1951, however, as the Nation mobilizes its defense forces. Restricted production in such lines as automobiles, radios, television sets, household appliances, and other durables will reduce taxable transactions in these lines. Some offsetting expansion in sales of nondurables can be anticipated, and increased expenditures by industry will fill a part of the tax loss occasioned by reduced sales of consumers' durables. It seems probable that the sales pattern in 1951 will be similar to that recorded in 1942, except that most of the consumers' durable items have been assumed to decrease only 30 percent from 1950 levels, as compared with a much sharper decline in these lines during 1942.

Taxable sales during 1950 are estimated at \$12 billion, compared to \$10.8 billion in the preceding year. Under the assumptions outlined above, taxable transactions are estimated at \$11.9 billion for 1951 and \$5.8 billion during the first half of 1952. When these forecasts are converted to fiscal year collections, and adjusted to include permit fees, penalties, and audit assessments, the revenue from the sales tax is estimated at \$376,175,000 for 1951-52, compared to \$373,975,000 in 1950-51, and \$325,493,341 actually collected in 1949-50. Sales tax collections during the first quarter of 1949-50 included some assessments at the 2½ percent rate since the change in rates applied to taxable transactions made after June 30, 1949. If all collections during 1949-50 had been made at 3 percent, the revenue received during that fiscal year would have been approximately \$341,000,000.

Corporate earnings during 1949 decreased 20.7 percent from the previous year. As a result, tax receipts from this source last year showed a slight decline despite elimination of the 15 percent tax credit adopted as part of the 1943 tax reduction program. Information supplied by 279 corporations, accounting for nearly half the bank and corporation franchise tax base, indicates that earnings during 1950 were 25 percent larger than in 1949. On the basis of these data, it is estimated that self-assessed receipts under this tax during 1951 will total \$89,500,000. The sum of \$620,000 will be added by the supplementary corporation income tax.

Although corporate profits in the current year are likely to follow a varied pattern, with decreases in some lines and increases in others, it is believed the total earnings for all industries will show a 9 percent improvement over the current year. In this connection, it should be noted that receipts will not be affected by the increase in federal taxes, since the state levy applies to net corporate profits before payment of federal taxes.

Adjusted to fiscal year totals and for additional assessments resulting from the audit program, the bank and corporation franchise tax and corporation income

¹ Assumptions regarding the prices to be paid by the State in 1951-52 (made in July, 1950) anticipated some increase in specific items where such changes appeared imminent. Other items, including food, were held at prices which generally prevailed about the middle of July. It will be necessary to adjust purchase allowances to compensate for the change in price outlook.

² Estimates made in July, 1950, to be used in budget preparation, placed the total population of California at 10,575,000 as of July 1, 1950; 10,815,000 as of July 1, 1951; and 11,050,000 as of July 1, 1952. These estimates were based on preliminary releases of the Census Bureau which set the State's population at 10,472,348 on April 1, 1950.

³ Personal expenditures are computed on the basis of estimated aggregate individual income less personal income taxes, plus or minus the net change in liquid assets held by individuals, plus or minus the net change in consumer credit.

tax yields are estimated at \$99,152,000 for the 1951-52 Fiscal Year, compared to \$87,345,000 forecast for 1950-51 and \$74,805,644 collected in 1949-50. Actual collections during the past fiscal year are not strictly comparable with estimates for 1950-51 and 1951-52 due to elimination of the 15 percent credit formerly allowed. If this credit had not been in effect during part of 1949-50, revenues during that year would have amounted to approximately \$82,200,000.

The revenue yield under the personal income tax will reflect the increases in income payments estimated for 1950 and 1951. Since federal income taxes are not deductible in computing state taxable income, the forecast of heavier federal income taxes will not affect the revenue to the State from this source. Much of the growth in income payments will occur in the category of salaries and wages, which, for the most part, are subject to the lower income tax rates. Income received in the form of dividends, interest, and rent, which is usually taxable in the upper brackets, is expected to decline during 1951. Greater capital gains and profits from unincorporated businesses have been forecast for 1951 and will contribute to the increase in income tax revenue.

Conversion of these estimates to fiscal year totals, and allowance for assessments under the audit program indicate a personal income tax yield of \$71,500,000 in 1951-52, compared with \$65,900,000 in 1950-51 and \$60,504,196 collected in 1949-50. Again the latter amount collected is not comparable to estimated yields in 1950-51 and 1951-52, since exemptions were lowered on incomes earned after January 1, 1949, and the tax rates were increased 1 percent on taxable incomes between \$5,000 and \$30,000. If the current tax law had been in effect during the prior year, the 1949-50 yield would have been approximately \$63,000,000.

The record distribution of 22.5 million gallons of distilled spirits established in 1946, when dealers were restocking inventories, has not been exceeded during recent years, nor is it likely to be exceeded during 1951 or 1952. During 1948 and 1949 distributions were 16.4 and 16.1 million gallons, respectively. The 1950 volume has been estimated at 18.3 million gallons. This includes about 2 million gallons added by dealers to their normal inventories. Stocks in the hands of dealers are now large and probably will not increase materially. However, an increase in consumption has been estimated largely as a corollary of higher personal incomes and limited production of durable goods. Tax receipts of \$14,105,000 are estimated for 1951-52, compared with \$14,708,000 for the current year (including the effect of heavy buying by dealers) and \$12,755,214 in 1949-50.

Beer consumption has remained fairly stable after making allowance for population growth. A slight increase in revenue yield is forecast for 1951-52, continuing the trend evidenced during the past few years. Receipts from the tax on wine are expected to remain relatively constant. In total, revenue from excise taxes on beer and wine have been estimated at \$3,868,000 next fiscal year and \$3,815,000 for the current year, compared with \$3,620,829 for 1949-50.

Premiums collected by insurance companies during 1950, on which the tax will be paid in 1951-52, were approximately 8.9 percent higher than 1949 collections,

according to estimates received from 115 companies operating in California. On the basis of changes shown for each of the principal lines of insurance, tax receipts next year are estimated to total \$25,130,000. Taxes assessed during the current year have been fully collected and amount to \$23,043,811. Revenue from this source in 1949-50 totaled \$22,853,447.

Revenue yield from the inheritance tax depends upon the number and size of bequests and relationship between beneficiaries and decedents. No objective method has been found to estimate future receipts from this tax. Fluctuations in security prices and property values have a bearing on the appraisal of estates, and for this reason tax receipts can be expected to reflect the recent inflationary trend. There is, however, a varying lag between recording of the will and tax receipts by the State. The yield from this source has been estimated at \$21,500,000 for 1951-52, and \$20,500,000 for 1950-51, compared to actual receipts of \$18,705,791 in 1949-50. Gift tax receipts have been estimated at \$1,250,000 for 1951-52, compared to \$1,000,000 in the current year and \$1,210,696 in 1949-50.

Special Fund Revenues

The major share of special fund revenues is produced by taxes arising from the operation of motor vehicles. In 1949 there were 4,514,241 vehicles registered in this State, including automobiles, trucks, motorcycles and trailers. A total of 4,947,000 registrations was estimated for December 31, 1950. Year-end totals of 5,260,000 in 1951 and 5,520,000 in 1952 have been projected. These estimates reflect the assumption that motor vehicle production will be curtailed by one-third during 1951. Receipts from registration and weight fees are forecast at \$54,054,000 during 1951-52, and \$51,398,000 during 1950-51. Actual receipts during 1949-50 were \$47,651,550.

Vehicle license fees (in lieu tax), also closely related to number of vehicles registered, have been estimated at \$57,502,500 for 1951-52 and \$55,110,000 for 1950-51, as compared with \$48,032,729 collected in 1949-50. Of these amounts, \$2,738,125 will be transferred to the State General Fund in 1951-52, to meet interest and redemption charges on highway bonds. The amount to be transferred in 1950-51 is \$2,813,500, and the 1949-50 transfers were \$2,888,875. The age-distribution of registered vehicles has a great influence upon the revenue produced from this tax, and the large number of vehicles sold in 1950 accounts primarily for the increases anticipated during the current and ensuing fiscal years.

Other miscellaneous motor vehicle revenues, such as transfer fees, drivers' licenses, and miscellaneous charges have been forecast at \$5,559,500; \$5,807,000; and \$6,047,826 for the next, current, and past years, respectively.

During recent years, as the number of vehicles in operation increased average consumption of gasoline per vehicle declined. With the curtailed production of new vehicles, this trend should be arrested in 1951-52. Consumption of gasoline averaged 646 gallons per vehicle during 1949-50, and an average of 640 gallons has been assumed for 1950-51 and 1951-52. This assumption contemplates that military use of gasoline can be

supplied through increased production, and that gasoline rationing for the purpose of rubber conservation will not be necessary. Gasoline tax revenues are estimated at \$153,500,000 in 1951-52 and \$144,000,000 in 1950-51. Actual collections were \$133,513,155 in 1949-50.

Receipts from the tax on diesel powered vehicles are forecast at \$6,000,000 in 1951-52 and \$5,500,000 in 1950-51, as compared with collections of \$4,815,556 during the 1949-50 fiscal year.

Motor vehicle transportation tax and license fees will also be affected by the mobilization program and have been estimated at \$10,003,600 for 1951-52 and \$9,137,850 during 1950-51. Actual receipts for 1949-50 were \$8,377,871.

Liquor license fees are forecast at \$8,170,000 next year and \$8,120,000 in the present period, against \$8,031,547 collected during the year ending June 30, 1950. Horse racing license fees are estimated to be \$15,847,288 next year in comparison with \$16,241,565 in 1950-51 and \$14,836,382 during 1949-50. Of these amounts \$3,550,400 will accrue to the General Fund in 1951-52, \$3,859,233 in the current year as against \$247,158 transferred in 1949-50. Expiration of legislation appropriating about \$3,000,000 from this source for transfer to the Wildlife Restoration Fund accounts for the difference in receipts to the General Fund for 1949-50 and subsequent years.

Recent Revenue Trends

The present system from which the State derives the bulk of its revenue dates from the tax programs of 1933 and 1935. While several of the levies now used were in existence prior to that time, the State then adopted the retail sales and personal income taxes as major features in its tax structure. The bank and corporation franchise tax rates were increased, and the earnings of public utilities were made subject to this levy. Changes have been made in tax laws since 1935, but these have been either in the nature of perfecting

amendments⁴ or temporary rate changes. The major exception to the above was the revision in the highway revenue structure in 1947, when motor vehicle taxes and fees were raised and the allocation of receipts to units of local governments, the State General Fund, and state highways was altered. In 1943, temporary reductions were made in the sales and use taxes, and in the levies on corporate and personal incomes, reducing revenues from these sources. These reductions were terminated in 1949 when it became apparent that additional General Fund revenue would be needed.

State tax collections increased year after year, except during the recession of 1937 and 1938, even under the temporary rates in effect during World War II. The underlying causes of these gains were the population growth, higher incomes, and increased commodity prices. The latter two have been particularly important factors in the last few years.

From a total of \$232,400,000 in 1936-37, aggregate revenue receipts of the State will have increased more than fourfold in reaching the \$969,680,000 estimated for 1951-52. In spite of this tremendous growth, state revenues today are smaller in relation to the total income of California residents than they were before World War II. Between 1936 and 1941, state receipts averaged \$5.17 per \$100 of income received by the people of California. A high point of \$5.29 was reached in the two years 1939-40 and 1940-41. This ratio dropped to an average of \$3.86 during the war years, largely due to important tax reductions and high per capita incomes. With the estimates here presented, state revenues will amount to \$4.90 per \$100 of income during 1951-52, as compared with \$5.11 in the current year and \$4.96 in 1949-50.

Summary data on population, income payments, state revenue collections and per capita revenues and income, are shown in the following table.

⁴ The corporation income tax and use fuel tax enacted in 1937 and the gift tax inaugurated in 1939 were designed to supplement previously existing levies and prevent tax avoidance rather than to broaden the tax system.

SUMMARY OF STATE POPULATION, INCOME PAYMENTS TO INDIVIDUALS AND STATE REVENUES

Year	Estimated Population Dec. 31st (Thousands)	Estimated Income of Individuals (Millions)	Income Per Capita	Fiscal Year	State Revenues (Thousands)			Revenue Per Capita			Revenue Per \$100 of Individual Income

* Amounts shown represent civilian population, estimated income of civilians and per capita income of civilians.

Population data for the period 1936-1946 are based on United States Census Bureau estimates for July 1st of each year. Estimates for 1947, 1948, 1949, 1950, and 1951 were prepared by the State Department of Finance for purposes of budget preparation. These estimates were based on census releases of the 1950 enumeration.

Income of individuals, 1936-1949, are estimates by the Office of Business Economics, United States Department of Commerce. Estimates for 1950 and 1951 were prepared by the State Department of Finance.

Amounts of income per capita were obtained by comparing the data shown on income and the population of July 1st. The amounts differ slightly from corresponding per capita averages published by the United States Department of Commerce.

Revenues shown for 1949-50, 1950-51, and 1951-52 were prepared to reflect actual and estimated revenues in the hands of state agencies rather than collections as reported by the State Controller. Differences between these two records are minor.

Schedule 9

**COMPARATIVE STATEMENT OF REVENUES BY PRINCIPAL SOURCE, FUNCTION, ORGANIZATION UNIT
AND FUND, FOR THE FISCAL YEARS 1949-50, 1950-51 AND 1951-52**

Organization Unit and Source	Page Ref- er- ence	Actual 1949-1950			Estimated 1950-1951			Estimated 1951-1952

a Includes equipment for new offices shown as capital outlay in previous budget.
b Changes due primarily to the appropriated student fees in excess of budget estimates by \$328,121.
c Highway program in excess of the budget estimate.
d Contribution to State Employees' Retirement System in excess of budget estimate which includes amounts for salary increases.
e The increase in Capital Outlay Budget is due to projects which were proposed to be started in previous years being delayed until the 1950-51 year. The highway construction program was increased because increased revenues made additional funds available.
f Due to school appropriations in excess of estimate, and school building construction.
g Decrease in hospital construction.
h Due largely to increase in case load of needy children.
i Previous budgets have accounted for school building construction at the time the cash payments were withdrawn from the Treasury, the present method accounts for the expenditure at the time the allocations are made.
j Increased funds available for county agricultural fairs.
k Increased revenues provided additional funds for allocation to local agencies.

Position Titles

In the detailed departmental and agency budgets, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service have been listed by their departmental titles, as set forth on the official roster of employees maintained by the Personnel Board.

Positions Now Authorized

In general, the positions included under this heading are those which were established as of July 1, 1950, together with those for which funds were provided in the 1950-51 Fiscal Year Budget or otherwise authorized as of that date and authorized revisions thereof. Amounts shown for positions now authorized represent actual salary payments for 1949-50 and estimated salary payments during 1950-51 and 1951-52, assuming full year employment, unless the position is estimated to be established materially later than July 1, 1950. In such cases only the cost from date of establishment is shown.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down grading" are now included under this heading. Such transactions are indicated by showing both class titles on the same line, followed by the minimum salary of the lower class and the maximum of the higher class. For example: (a) administrative trainee-junior staff technician, \$231-325, or (b) junior-intermediate clerk, \$170-231.

Continuation during 1951-52 of positions authorized temporarily till June 30, 1951, are now included under "Positions Now Authorized" (rather than under "Proposed New Positions" as shown heretofore). These positions may be identified by an explanation in parentheses indicating the extent of the continuation, such as: (extended to Dec. 31, 1951) or (extended to permanent).

Proposed New Positions

Proposed positions for the budget year which have not yet been established or authorized have been listed under this heading. Proposed increases in time of part-time positions are also listed under this heading, if the increase amounts to one-half time or more; otherwise the position is shown under "Positions Now Authorized" on the increased time basis.

Proposed new positions include upward replacement of positions only to extent that they involve major organizational changes.

Estimated Salary Savings

Unless indicated to the contrary by experience and anticipated conditions, a lump sum deduction is made from each group total of salaries and wages in anticipation of savings which are certain to accrue because of temporarily vacant positions, and the lower entrance rates of salary at which replacement personnel are paid.

The amounts of such estimated savings may not correspond to the number of positions deducted because of adjustments to the latter for positions authorized to start after July 1. The amounts shown opposite such positions are for the estimated costs for the period of occupancy only and, therefore, there is no money savings to be anticipated.

Number of Positions

Filled positions in 1949-50 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions, temporary help, etc.

Authorized positions for 1950-51 and 1951-52 are counted to the nearest tenth of full time. Full-time positions authorized to start later than July 1st are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

Where more than one part-time position of the same class appears under a single function, the number of separate part-time positions is indicated opposite the word "Individuals." Such items and all other items enclosed in parentheses in the number of positions columns are excluded from position totals.

Salary Range

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service classifications, or fixed by the appointing authority and approved by the Director of Finance for each class of exempt position.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board on July 25, 1947, the intermediate steps in each salary range have been fixed at a uniform

percentage interval of 5 percent, except that no interval is less than \$10. This plan is used also for many salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section.

Thus, \$220-268 indicates a monthly salary range having steps of \$220-\$231-\$243-\$255-\$268. Salary ranges for instructional positions in the state colleges are set forth below.

Schedule of Usual Salary Ranges in the State Service

Range No.	Steps					Range No.	Steps				
9	\$140	\$150	\$160	\$170	—	30	\$415	\$436	\$458	\$481	\$505

EXTENT OF PROFESSIONAL PREPARATION

CLASS I Persons whose academic or professional preparation is deemed equivalent to four years beyond high school graduation or holders of recognized Bachelor's degrees.

CLASS II Persons whose academic or professional preparation is deemed equivalent to five years beyond high school graduation or holders of recognized Master's degrees.

CLASS III Persons whose academic or professional preparation is deemed equivalent to six years beyond high school graduation.

CLASS IV Persons whose academic or professional preparation is deemed equivalent to seven years beyond high school graduation or holders of recognized Doctor's degrees.

^a Limited to persons holding this class and rank prior to adoption of salary schedule—therefore maximum only is paid.

^b Budgetary limitations on appointment to each rank are 15% to 20% for Instructor, 25% to 35% Assistant Professor, 20% to 25% Associate Professor, and 25% to 35% for Professor, of total authorized teaching positions.

Automatic Salary Adjustments

Subject to availability of funds, Section 18856 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard."

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustment opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty and responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of a group of approximately one thousand laborers, workmen, and mechanics in the state service are established at the hourly wage rates negotiated with private contractors in the county in which they are employed. They receive all the collateral benefits, such as premium pay for night work and overtime received by employees in private industry and, in addition, they receive the added state benefits of vacation and sick leave with pay, plus 5 cents and 10 cents an hour increase after one and two years' employment with the State.

Inasmuch as the budgets were prepared in August and September, 1950, the salary ranges shown are, in general, those in effect on July 1, 1950, and salaries and wages expenditures for both 1950-51 and 1951-52 reflect rates of pay then in effect. Since that date the Personnel Board has established some new classes, and has revised the titles and salary ranges of others. Similar adjustments have been made in exempt classes. In order that the most current information on the salary ranges of state classes may be available, a list of all new classes, title changes and salary range changes adopted from the time the budgets were prepared until November 30, 1950, is as set forth below. Provision for the cost of these increases, which are financed during 1950-51 from the appropriation made by Item 279 of the Budget Act of 1950, are not included in the individual agency budgets. Therefore the cost of continuing these adjust-

ments during 1951-52 is included under the heading "Reserve for Contingencies—Special Salary Increases." This list of civil service and exempt classes is arranged alphabetically and may be used to correct the titles and salary ranges of the classes as set forth in the agency budgets. Classes not included in this list may be assumed to be correct as of November 30, 1950.

The amounts for 1951-52 represent the total estimated added expenditures for the budget year resulting from the 1950-51 salary increases.

List of Salary Range Adjustments, New Classifications, and Changes in Classification Titles Since July 1, 1950

(New classes are listed in italics. Changes in title and classes established in lieu of former classes are indicated by showing the new titles immediately under the title of the former classification. Member help classes at the Veterans Home are not shown. They received one-half the increases granted the corresponding civil service class.)

Administrative Aid, Division of Housing	
<i>Administrative Assistant, Grade 1 (exempt)</i> -----	\$325-395

GENERAL ANALYSIS

Number of positions ----- 43.3 47.3 47.2 -0.1

The decrease of \$59,919 in net appropriation is attributable to a decrease in the number of days in the legislative session. The 1949-50 Fiscal Year is a more comparable year with the 1951-52 Fiscal Year. Provision is made to purchase additional books to keep the present library in a current condition and to provide an additional set of California Reports and California Appellate Reports. The additional set is to facilitate the work of the Legislative Counsel.

The amount of estimated reimbursements to be received from the Code Commission is based on furnishing approximately the same amount of services as in the current year. Even though the time that could be made available during the budget year is greater than in the current year the code program will consist principally of preparing a list of statutes remaining in force and therefore would not require a maximum use of available time of the staff agency.

16					

GENERAL ANALYSIS

The decrease in the proposed budget reflects an estimate of the amount of work to be performed by the Legislative Counsel Bureau. The code program is nearing completion. However, the amount of "clean-up" work in the existing statutes remaining in force after completion of the program will involve an amount of work nearly equivalent to that performed during the last year.

JUDICIAL COUNCIL

The Judicial Council surveys the condition of business in the courts with the view of simplifying and improving the administration of justice. Suggestions are submitted to the courts for expediting business and helping to secure uniformity. The council also equalizes the work of judges by making assignments to courts with heavy dockets.

Governor's Office

OFFICE OF CIVIL DEFENSE

Pursuant to the Civil Defense Act of 1950 the Governor has assigned the duties thereunder to personnel in his office, known and referred to as the Office of Civil Defense. This office is responsible for coordinating the plan and program for the civil defense of the State.

Headquarters Office at Sacramento

GENERAL ANALYSIS

Number of positions----- 2 111 143 32

Workmen's compensation to disaster service workers and their dependents is included as a separate Budget Act item in the local assistance section of the budget.

The 1950 Third Extraordinary Session of the Legislature provided \$200,000 for assistance to the cities, counties and districts for expenditures for civil defense (see local assistance section of the budget).

The 1949-50 appropriation was for the Disaster Council which has been combined in the current and budget years with the Office of Civil Defense.

STATE EMPLOYEES' RETIREMENT SYSTEM

The Board of Administration, State Employees' Retirement System, administers the State Employees' Retirement System and the Legislators' Retirement System. This involves determination of membership, computation, collection and recording of member and employer contributions, service and compensation; the computation and payment of withdrawals of member contributions and death and retirement benefits; the investment of funds; and preparation of periodic and special valuations. Members of the State Employees' Retirement System consist of state employees and employees of approximately 300 local governments participating on a contractual basis. Members of the Legislators' Retirement System consist of legislators and elective state officials who elect membership.

The board also is charged with maintaining records for state officers and employees who request pay roll deductions for the purchase of United States savings bonds.

27					
28	GENERAL ANALYSIS				
29					
30	Number of positions	81.4	92.4	101.5	9.1
31					
32	This budget provides generally for continuation of the existing level of service in the administration of the Retirement Act with the exception of the request for three additional positions to provide improvement in the method of refunding contributions of withdrawing members.				
33					
34	This budget also provides for the reactivation of the U. S. Savings Bond Division for the purpose of reinstating the pay roll deduction plan for purchasing savings bonds.				
35					
36	Work load of the executive staff has been increasing over the past several years with the additional number of public agencies contracting for service. The request for an administrative assistant, grade 2, position is made to provide for this increased work load.				
37					
38	The growth of this agency is indicated by the data in the following table.				
39					
40					
41	Work Load:	1948-49 Actual	1949-50 Estimated	1950-51 Estimated	1951-52 Estimated
42	State Members	53,230	60,000	61,000	62,000
43	Contracting Agency Members	33,747	38,000	44,000	45,000
44					
45	Total Membership	86,977	98,000	105,000	107,000
46	Retired Members	4,060	5,000	6,200	7,000
47	Deaths	384	428	430	450
48					
49	The installation of the mechanized accounting system has been completed. The final complement of personnel required by this system will be affected somewhat by the centralization of the state pay roll system.

54					
55					
56					
57	ADMINISTRATION				
58					
59	Analysis				
60					
61	SALARIES AND WAGES: Decrease \$10,916. This decrease is due principally to: A reduction in temporary help allotments in the amount of \$26,408 which results primarily from the elimination of nonrecurring installation costs and the reduction in annual closing costs. This reduction is partially offset by the cost of four proposed new positions in the amount of \$11,340 discussed below, and the additional cost of five positions for a full year in 1951-52 as compared with only nine months in 1950-51. Two of the positions are authorized to June 30, 1952 only.				
62					
63	The administrative assistant, grade 2, position is required because of the increase in work load over the past few years during which time no additional administrative personnel were added. The current volume of work load has required a large amount of overtime by the executive staff. The need for this position is further emphasized by the numerous requests from contracting public agencies for assistance and guidance by a representative of the System. These agencies are paying a pro rata share of the cost of administering the System and feel that they are entitled to more assistance than they are now receiving.				
64					
65	The three clerical positions are requested to provide improvement in the procedure for refunding contributions of withdrawing members. The present system requires 90 to 120 days to repay the contributions. The proposed procedure, involving two payments, will refund the major portion of contributions in 20 or 30 days. The remainder would be refunded in another 30 to 60 days. This system will require the preparation and processing of two claims for each withdrawing member which will double the amount of work.

1							
2	ADMINISTRATION—Continued						
3							
4	OPERATING EXPENSES: Increase \$3,340. This increase is due to: (1) the additional cost of supplies and service contracts for						
5	the new machines in the amount of \$1,740; (2) improvement in the refund procedure \$660; (3) additional traveling required to						
6	furnish adequate service to agencies and members in the amount of \$1,500; (4) printing and mailing information booklets and						
7	laws to members at a cost of \$1,340; (5) price increases of \$465. These increases are partially offset by reductions due to: (1) the						
8	elimination of the cost of board members' election in the amount of \$1,825; and (2) the reduction of \$540 in long distance telephone						
9	charges.						
10							
11	EQUIPMENT: Amount requested \$4,975. This amount includes, (1) \$326 to replace worn out furniture, (2) \$1,084 for equipping new						
12	positions, and (3) \$3,565 for filing equipment required as a result of using a yearly account card as opposed to the previous three						
13	year hand-posted card.						
14							
15	REIMBURSEMENTS: Increase \$4,000. This increase is due to an estimated increase of 1,000 members through contracting public						
16	agencies.

33	U. S. SAVINGS BOND DIVISION						
34							
35	Analysis						
36							
37	This division would receive and record the funds deducted from salaries of state officers and employees for the purchase of U. S. Savings						
38	Bonds. It would purchase bonds from the United States Federal Reserve Bank and issue such bonds to the purchaser in accordance						
39	with State Board of Control rules and regulations and the provisions of Section 20122 of the Government Code.						
40	This function was first activated under authority of Chapter 2, Statutes of 1942, First Extraordinary Session, and was discontinued in						
41	1947 when the State Board of Control repealed its authorization of payroll deductions for the purchase of savings bonds. Provision						
42	is made in this budget for the reactivation of this division. The amount of \$19,377 is requested. This request is based on an estimated						
43	5,000 employees participating in this plan.						
44							
45	SALARIES AND WAGES: Amount requested \$11,412. This amount represents the cost of five proposed new clerical positions which						
46	will be required to process the necessary transactions involving an estimated work load of 5,000 purchasers.						
47							
48	OPERATING EXPENSES: Amount requested \$2,860. The principal item included in this amount is \$1,500 for printing. The initial						
49	expenditures for printing will include the cost of providing a new bond deduction schedule for state-wide distribution among all						
50	agencies.						
51							
52	EQUIPMENT: Amount requested \$5,105. This request includes provision for: (1) A bookkeeping machine at a cost of \$1,732; (2) a						
53	safe in the amount of \$660; (3) safe files at a cost of \$675; and (4) furniture and equipment for the new positions amounting to						
54	\$2,038.

12	GENERAL ANALYSIS				
13					
14	The principal item of expenditure is \$25,000 which is the same amount that has been paid each year since 1948-1949 for a contract with				
15	the Council of State Governments.				
16	The Council of State Governments is a research and service agency serving the over-all legislative, administrative, and judicial agencies				
17	of State Government such as state legislatures, the Governors' Conference, the Conference of State Chief Justices, the National Asso-				
18	ciations of Attorneys General, Secretaries of State, budget officers, purchasing officials, etc.

PERSONNEL BOARD

Administers the State Civil Service Act and prescribes and enforces rules thereunder. Examines and certifies qualified applicants for appointment to the state civil service. Creates, classifies, and adjusts classes of positions and adopts suitable pay rates. Maintains records on approximately 50,000 state employees. Assists state agencies in the training of employees. Performs services for state agencies excepted from civil service and for political subdivisions of the State on a reimbursable basis. Approximately one-half of gross expenditures returned to the General Fund as revenue by pro rata charges to special fund agencies.

GENERAL ANALYSIS

Number of positions	328.8	329	329	-
Provision is made for the elimination of nine and one-half positions due to decreases in work load, and improvements and modifications in procedures. These positions are not to be filled as they become vacant. Savings, as a result, will accrue in the 1950-51 Fiscal Year instead of the 1951-52 Fiscal Year. Provision is also made for the addition of two new positions for the activation of a safety education program under the administration division and a program for the training of supervisors as part of the training division. The following data indicates a general decline in work load.				
Work Load:	1947-48	1948-49	1949-50	CHANGE 1949-50 FROM 1948-49
Civil service employees	43,236	47,324	49,797	2,473
Applications received	137,725	135,361	121,271	-14,090
Appointments to positions	44,457	40,479	28,575	-11,904
Examinations held	1,041	1,104	1,018	-86
Examination competitors	73,960	68,859	75,535	6,676
Eligible lists	1,277	1,246	844	-402
Eligibles	38,584	31,450	20,906	-10,544
Separations	22,352	25,093	22,121	-2,972

BOARD

Analysis
This division includes the members of the State Personnel Board and the hearing officer with their clerical staff. The board adopts rules, creates classes, establishes pay ranges, hears appeals from disciplinary actions, and formulates general policies. Principal changes in the expenditure program are:

OPERATING EXPENSES: A decrease of \$1,104 due to: (1) a reduction in "hearing services by the Division of Administrative Procedure" in the amount of \$1,500 which is the result of using their own hearing reporter, a position which had been authorized but left vacant while using the above service; (2) less increases due to provision for refinishing office furniture at a cost of \$250 in lieu of replacement; and (3) price increases in the amount of \$146.

EQUIPMENT: The amount of \$501 includes replacement of one 13-year-old electric typewriter at a cost of \$351 and \$150 for miscellaneous small items of equipment.

SALARIES AND WAGES				SALARY RANGE

40							
41	ADMINISTRATION						
42							
43	Analysis						
44							
45	This division includes the executive staff and general housekeeping functions of the agency.						
46							
47	SALARIES AND WAGES: The increase of \$5,772 is due to the proposed new position of safety coordinator which is requested for						
48	the purpose of operating a safety educational program among the state agencies as authorized by Section 19261 of the Government						
49	Code. Such programs in other governmental jurisdictions and in private industry have resulted in material reductions of accidents.						
50	The number of injuries, disabilities, and deaths involving state employees has increased materially during the past five years.						
51							
52	OPERATING EXPENSES: The increase of \$1,005 is due primarily to the requirements of the proposed new safety training program						
53	in the amount of \$1,326, less a reduction in printing in the amount of \$362, resulting from the biennial report which will be pub-						
54	lished in the 1950-51 Fiscal Year and not in the 1951-52 Fiscal Year. Other additional costs result from price increases.						
55							
56	EQUIPMENT: The amount of \$424 includes replacement of one typewriter at a cost of \$150, additional furniture in the amount of						
57	\$199 for the proposed new position of safety coordinator; and \$75 for miscellaneous equipment.						
58

51	CLASSIFICATION						
52							
53	Analysis						
54							
55	This division classifies positions in accordance with duties performed and maintains a roster of all state employees.						
56							
57	SALARIES AND WAGES: The increase of \$576 is due primarily to the anticipation of less vacant positions which is partially						
58	offset by a reduction in temporary help.						
59							
60	OPERATING EXPENSES: The increase of \$40 is due to price increases.						
61							
62	EQUIPMENT: The amount of \$306 includes replacement of old furniture acquired from the Bureau of Liquidation and War Surplus						
63	amounting to \$156. The remainder of the request consists of additional miscellaneous equipment in the amount of \$150.						
64

27	OFFICE SERVICES						
28							
29	Analysis						
30							
31	This division performs clerical work; processes applications; arranges, administers, scores, and processes examinations; establishes						
32	eligible lists and maintains statistical data.						
33							
34	SALARIES AND WAGES: The decrease of \$76 is due principally to a reduction in temporary help.						
35							
36	OPERATING EXPENSES: The increase of \$71 is due to price and equipment rental increases.						
37							
38	EQUIPMENT: The amount of \$12,919 includes: (1) the amount of \$5,734 for 61 files to replace transfer cases being used for active						
39	materials in central files; (2) the amount of \$2,618 to replace 14 typewriters and one adding machine which are old and worn out;						
40	(3) the amount of \$1,403 to replace old furniture; (4) the amount of \$1,260 for four transcribing machines to replace acoustical						
41	type equipment which is in poor condition and more than 14 years old; (5) the amount of \$282 for replacing three old SRA and						
42	war surplus files. This request also includes the following additional items: (1) one calculating machine for preparation of statis-						
43	tical data at a cost of \$337; (2) filing equipment for expansion amounting to \$785; and (3) miscellaneous items in the amount						
44	of \$500.

PERSONNEL BOARD—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1							
2	TRAINING						
3							
4	Analysis						
5							
6	This division coordinates training activities for the various state agencies.						
7							
8	SALARIES AND WAGES: The increase of \$8,118 is due principally to the proposed new position of director of supervisory training						
9	at a cost of \$5,772 plus the additional cost of one junior clerk position which is being transferred from the Examining and						
10	Recruiting Division.						
11	The director of supervisory training position is requested for the purpose of directing the training of supervisors in the state civil service						
12	through a series of conferences to be held in several locations throughout the State. The need for training supervisors is one point						
13	on which all management authorities agree. The thought is unanimously expressed that the most needed and most productive						
14	training in any organization—public or private—is one designed to make better supervisors.						
15							
16	OPERATING EXPENSES: The increase of \$519 is due primarily to the requirement of the new program of supervisory training in						
17	the amount of \$487 plus small price increases.						
18							
19	EQUIPMENT: The amount of \$388 includes additional furniture at a cost of \$78 for the proposed new position of director of super-						
20	visory training, films, and other training materials amounting to \$200, and miscellaneous items amounting to \$110.						
21

59							
60	COOPERATIVE PERSONNEL SERVICES						
61							
62	Analysis						
63							
64	This division provides personnel services, upon request, to political subdivisions of the State on a reimbursable contractual basis.						
65	The operations of this agency are governed by the requests of local agencies for services which are performed on a contractual basis						
66	by which the cost of such services is repaid to the State. The total cost is to be reimbursed and therefore no increase is required						
67	in the net appropriation for this function.						
68

40		1949-50	1950-51	1951-52	
41	ADMINISTRATION				
42					
43	Analysis				
44					
45	SALARIES AND WAGES: Decrease \$1,079. This decrease results primarily from the reduction in temporary help provision for				
46	election clerks.				
47					
48	OPERATING EXPENSES: Decrease \$125. This decrease is due to: (1) reduction in traveling in the amount of \$500; (2) reduction				
49	in photocopying-recordak equipment rental in the amount of \$350; and (3) elimination of nonrecurring microfilming expense at				
50	a cost of \$775. These reductions are partially offset by increases in: (1) printing in the amount of \$600 due to increased material				
51	required for the 1952 primary election; (2) price increase \$200; (3) automobile operation based on increased mileage at a cost of \$100.				
52					
53	EQUIPMENT: Amount requested \$4,941. This request includes: (1) replacement of four typewriters at a cost of \$460; (2) purchase				
54	of two microfilm machines in the amount of \$1,468, in lieu of equipment previously rented; (3) replacement of one heavy automobile				
55	for the Secretary of State at a cost of \$2,308; (4) files and miscellaneous equipment in the amount of \$305; and (5) legal books in the				
56	amount of \$400.				
57					
58	REIMBURSEMENTS: No change. It is estimated that charges to other agencies for photostat services will remain at \$7,500, the level				
59	experienced during 1949-50.				
60

38							
39	COLLECTION AGENCY DIVISION						
40	Analysis						
41							
42	This division licenses and supervises collection agencies in accordance with the provisions of the Collection Agencies Act, Act 1460 of the						
43	General Laws of California.						
44							
45	SALARIES AND WAGES : Increase \$86. This increase results from contemplated full employment in 1951-52.						
46							
47	OPERATING EXPENSES : Increase \$792. This increase is due primarily to additional printing expense in the amount of \$700 for the						
48	biennial publication of laws and regulations pertaining to collection agencies.						
49							
50	EQUIPMENT : Total amount is \$1,325 and includes the provision for replacing one light automobile at a cost of \$1,225 and \$100 for						
51	miscellaneous items.

DEPARTMENT OF AGRICULTURE

Administers and enforces the provisions of the Agricultural Code and related statutes. These laws call for regulatory and service activities dealing with the protection of plantings and livestock from infectious diseases, pest animals, weeds and injurious insects, and with aids to insure the marketing of quality agricultural products. In this broad field of activity the department cooperates extensively with the United States Department of Agriculture on the one hand and with county agricultural services on the other. The General Fund finances activities which are of general public benefit and the Department of Agriculture Fund finances other activities for which the beneficiaries are charged.

65							
66	DESTRUCTION AND CONTROL OF BEET LEAFHOPPERS						
67	AND HOST PLANTS						
68							
69	Analysis						
70							
71	Climatic conditions favorable to both the leafhopper and to its primary range host plant, the Russian thistle, resulted in conditions						
72	during the current year responsible for abnormal losses by tomato growers, requiring emergency appropriations of \$250,000. This						
73	emergency control program is being continued into the budget year and is responsible for a \$19,000 over-all increase over the current						
74	year primarily for materials and contracts.						
75							
76	SALARIES AND WAGES

1							
2	MEXICAN BEAN BEETLE SUPPRESSION						
3							
4	Analysis						
5							
6	Decrease of \$800 is due to completion of control operations in older areas balanced against new but smaller areas of infestation. Contin-						
7	uation of program is recommended at the present level or about \$55,000 less than 1949-50.

23	BUREAU OF PLANT QUARANTINE						
24							
25	Analysis						
26							
27	This bureau enforces state and federal plant quarantine laws, rules, and regulations; maintains maritime inspection stations at San						
28	Francisco, San Pedro, and San Diego; and 18 border agricultural inspection stations on the principal interstate highways. No sig-						
29	nificant change in expenditures or work programs is contemplated. The principal factor contributing to the increase is provision for						
30	maintenance and repair of border stations, an item of expense previously included in Other Current Expenses.						
31

27	BUREAU OF PLANT PATHOLOGY						
30	Analysis						
32	The Bureau of Plant Pathology is concerned with the detection, control, suppression, eradication, and prevention of the introduction and spread of plant diseases. The plant virus diseases in particular have added greatly in recent years to the need for constant vigilance and action for the protection of our agricultural and horticultural industries. The program for this function in the budget year is planned on substantially the same basis as for the current year.

52	BUREAU OF RODENT AND WEED CONTROL AND SEED INSPECTION						
53							
54	Analysis						
55							
56	This program is concerned with the eradication and control of noxious weeds and poisonous plants where found to be detrimental to						
57	agriculture or livestock; the control of field rodents to reduce the destruction of crops and the control of rodents which are known						
58	to harbor disease transmissible to humans; also seed inspection work for the enforcement of the California Seed Law and in						
59	cooperation with the Federal Government for the enforcement of the Federal Seed Act. One new position of intermediate typist-						
60	clerk is recommended to relieve the seed analysts in Los Angeles laboratory of routine tasks so that the number of analyses may						
61	be increased to meet increased work load.						
62

53	PREDATORY ANIMAL CONTROL						
54							
55	Analysis						
56							
57	This program is concerned with the control of wild predatory animals such as coyotes, bobcats, mountain lions and bear for the pro-						
58	tection of sheep, cattle, poultry, and certain types of crops. It is a three-way activity in cooperation with the Federal Government,						
59	various counties and the State. The 1951-52 budget is predicated upon a continuation of the existing level of service.

16	BUREAU OF LIVESTOCK DISEASE CONTROL						
17							
18	Analysis						
19							
20	This function is concerned with the control of infectious and contagious diseases of livestock and poultry (with the exception of						
21	Brucellosis), the operation of the state-wide bovine tuberculosis program and the operation of diagnostic laboratories at						
22	Sacramento, San Gabriel, Petaluma, Turlock, and during the current year, about January 1, 1951, a new laboratory at Fresno.						
23	The increase of \$25,821 is due primarily to inclusion of the costs for the new laboratory at Fresno for a full 12 months period.						
24

38							
39	BOVINE BRUCELLOSIS						
40							
41	Analysis						
42							
43	This program provides for the mandatory vaccination of female dairy calves and the voluntary vaccination of male dairy calves and						
44	calves of the beef breeds. Since the program started on January 2, 1948 to June 30, 1950, a total of 552,536 calves have been vac-						
45	cinated under this program.						
46	The increase is attributable to the cost of vaccinating an increased number of calves and to the opening of a branch office in Riverside						
47	to more efficiently handle the volume in Southern California. The number and trend of vaccinations since the beginning of the pro-						
48	gram may be seen in the following tabulation:						
49							
50							
51	Year					No. of calves	
52	1947-48					vaccinated	
53	1948-49					113,013 (6 mo. only)	
54	1949-50					191,496	
55	1950-51					248,027	
56	1951-52					275,000 estimated	
57						300,000 estimated	
58	Since the vaccination of female dairy calves is mandatory the increase is due mainly to additional beef type calves being vaccinated						
59	under the optional provisions of the applicable sections of the Agricultural Code.						
60

52	GENERAL MARKETING SERVICE						
53							
54	Analysis						
55							
56	This service consists of the following: (1) assistance in the solution of marketing problems of agricultural groups which are not organ-						
57	ized under formal marketing laws; (2) assistance to new industries in formulating and obtaining marketing programs under the						
58	general marketing laws, and (3) administration of the marketing programs formulated under general marketing laws. The General						
59	Fund is reimbursed for all expenditures for the latter two types of services from deposits received and assessments collected.						
60	One new position of intermediate stenographer-clerk is recommended at a cost of \$2,400 in lieu of a comparable amount in tem-						
61	porary help.

41							
42							
43	BUREAU OF MARKET NEWS						
44							
45	Analysis						
46							
47	The Bureau of Market News operates as the Federal-State Market News Service in California. Daily reports are published on the						
48	marketing of agricultural commodities in local, interstate and foreign markets, containing data on prices, market conditions,						
49	demand, supply, truck and carlot movements, truck unloads, cold storage holdings and other related information. Commodity						
50	groups included in this service are fresh fruits and vegetables; livestock and dressed meats; dairy and poultry products; hay,						
51	grain, and feed; dried fruits, bulk wine, honey, dried edible beans, and other miscellaneous products.						
52	One new radio-telegraph operator position is recommended to handle the increased work load in the San Francisco station as a						
53	result of the new commodities and offices added by legislative action during past several years.						
54	Included in operating expenses and equipment is provision for mechanization of the Market News Service radio network to increase						
55	the traffic carrying capacity of the system without adding further personnel. Also such improvement is necessary since qualified						
56	manual key operators are increasingly difficult to find.						
57

2	BUREAU OF AGRICULTURAL STATISTICS						
3							
4	Analysis						
5							
6	This bureau generally known as the California Crop and Livestock Reporting Service is a cooperative agency of the State and Federal						
7	Departments of Agriculture. Its functions are to develop, maintain, publish, and disseminate systematic statistical and related						
8	information about agriculture of the State.						
9	The amounts recommended are predicated upon a continuation of the present level of service.

2	BUREAU OF MILK CONTROL						
3							
4	Analysis						
5							
6	This bureau administers and enforces the laws relating to the establishment of the price of milk which distributors pay to producers						
7	and the minimum wholesale and minimum retail prices. There are 33 separate marketing areas in the State where producer and						
8	resale prices are established. The bureau also licenses and bonds market milk distributors, establishes minimum refrigeration rental						
9	schedules, and enforces the unfair trade practice provisions as they relate to the dairy industry.						
10	The program is projected at substantially the same level as the current year.						
11

23	CANNING TOMATO INSPECTION						
24							
25	Analysis						
26							
27	This service involves the compulsory inspection of canning tomatoes received by processors and delivered by growers. This activity is gov-						
28	erned by the tonnage of tomatoes marketed by growers to canneries and since the annual crops for both the current and budget years						
29	are estimated to be 1,000,000 tons, expenditures for these two years are budgeted at the same level.

25	BUREAU OF SHIPPING POINT INSPECTION						
26	Analysis						
27	This bureau, in cooperation with the United States Department of Agriculture, makes inspections and issues federal-state certificates to						
28	shippers and producers in respect to pack size, quality, and grade of fruits and vegetables. This service is furnished on requests of						
29	shippers and income and expenditures are governed by the volume of fruit and vegetable shipments offered for inspection. Economies						
30	effected in this bureau have resulted in a decrease in the cost of operations even though the volume of inspections are substantially at						
31	the same level.						
32	SALARIES AND WAGES

a Deficiency appropriation from Fair and Exposition Fund to be recommended to the Legislature.

DEPARTMENT OF CORRECTIONS

The department has been established to integrate and correlate the correctional activities of the State. It is responsible for the administrative control and operation of all state institutions for adult felons. The department also inspects prisons and jails and makes recommendations on plans and specifications of facilities costing \$1,500 or more.

GENERAL ANALYSIS

Number of positions ----- 42.1 45.5 51 55

In general the increase in support expenditures is due to additional positions and the transfer of Board Conferences from the Board of Corrections budget effective 1951-52 Fiscal Year.

Transportation of prisoners reduction reflects savings due to opening the diagnostic clinic at the Institution for Men, Chino, and the acquisition of a second departmental bus.

^a These expenditures reported in Board of Corrections budget prior to 1951-52 Fiscal Year.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	ADMINISTRATION						
2							
3							
4	The administration staff supervises and coordinates the following functions: (1) Accounting, budgets, and business management,						
5	(2) personnel and in-service training of employees, (3) maintenance and upkeep of plant, and construction, (4) feeding and						
6	nutrition, (5) custody and treatment, (6) prison industries.						
7							
8	Analysis						
9							
10	SALARIES AND WAGES: Increase of \$13,317 is accounted for as follows:						
11	Proposed New Positions:						
12	1 Senior sociologist						\$4,512
13	Increased work load in classification section due to population increases.						
14	1 Intermediate stenographer-clerk						2,400
15	Clerical pool, increase in classification staff.						
16	1 Intermediate typist-clerk						2,280
17	Central inmate files.						
18	1 Intermediate file clerk						2,280
19	General office files.						
20	1 Junior typist-clerk						2,040
21	Personnel section.						
22	Increased work load in various sections due to population and personnel increases in the institutions.						
23	1 Intermediate typist-clerk (expires June 30, 1952)						2,040
24	To cull old material from present inmate files to provide space for additional inmates' records.						
25							
26	OPERATING EXPENSES: Increase of \$40 due to work load increase and price changes.						
27							
28	EQUIPMENT: Total of \$4,641 represents an increase of \$670. Equipment is included for additional positions and increased work load.						
29

Department of Corrections

MEDICAL FACILITY

This institution cares for and treats inmates that are mentally ill, including psychopaths and sex offenders, and those suffering from chronic diseases.

The permanent site will be at Vacaville in Solano County.

Temporarily located at Terminal Island in the Los Angeles Harbor

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3	General Fund				
4	SUPPORT				
5	Budget Act appropriation.....	\$14,040	\$712,544	\$913,931	
6	Allocations from Emergency Fund.....	11,851	-	-	
7	Allocations from Salary Increase Fund.....	2,490	12,096	-	
8	Total Available.....	\$28,381	\$724,640	\$913,931	
9	Unexpended balance, estimated savings.....	-4,764	-35,674	-	
10	TOTAL EXPENDITURES FOR SUPPORT.....	\$23,617	\$688,966	\$913,931	\$224,965 (32.7%)
11	GENERAL ANALYSIS				
12	Number of positions.....	2	132	174.5	42.5
13	POPULATION AND UNIT COSTS				
14	Average inmate population.....	2	575	965	390 (67.8%)
15	Cost per inmate.....	-	\$1,282	\$1,032	-\$250 (-19.5%)
16	In general, the increase is due to increased population and expanded plant. Reimbursements for the maintenance of a small number of federal prisoners and Department of Public Health wards offset part of the increase.				
17	SALARIES AND WAGES: Increase of \$126,050 includes the following proposed new positions:				
18	1 Intermediate account clerk.....				\$2,280
19	Increased work load in business and accounting office due to increased population.				
20	1 Instructor in baking.....				3,372
21	To provide supervision and training for inmate bakers.				
22	2 Correctional sergeant.....				6,432
23	Together with existing position to provide 16-hour, 7-day per week coverage on rear sally port gate to new dormitories plus relief.				
24	5 Medical technical assistant.....				15,300
25	To provide 8-hour, 7-day coverage for the pharmacy, for the X-ray and surgery departments, and for the occupational therapy, physiotherapy, and hydrotherapy departments, plus two for relief of above posts.				
26	39 Correctional officer.....				113,724
27	To provide coverage on a post assignment basis for additional facilities required for increased population.				
28	0.5 Locksmith (six months only).....				1,686
29	Required to overhaul all of the institution locks.				
30	1 Arts and crafts teacher.....				3,216
31	To provide training for convalescent and confined inmates.				
32	1 Intermediate typist-clerk.....				2,280
33	1 Intermediate file clerk.....				2,280
34	Increased work load in classification and parole office due to increased population.				
35	Institution fire fighter (7 intermittent).....				2,100
36	To provide initial fire protection crew.				
37	1 Instructor in machine shop practices.....				3,372
38	To do required maintenance work and provide inmate training.				
39	OPERATING EXPENSES: Increase of \$142,895 generally due to increased population.				
40	EQUIPMENT: Total of \$3,050 is the same as for the 1950-51 Fiscal Year.

INSTITUTION FOR MEN, CHINO

A minimum custody facility for adult offenders who are expected to profit from agricultural and vocational training. An extensive ranch is operated on a 2,600-acre tract of land. A diagnostic clinic and reception center will begin operations in July 1952 to process new offenders from Southern California.

Located near Chino, San Bernardino County

39					
40	GENERAL ANALYSIS				
41					
42	Number of positions -----	292	286.1	374.1	88
43					
44	POPULATION AND UNIT COSTS				
45	Institution Operations:				
46	Average inmate population -----	1,344	1,500	1,825	325
47					(21.7%)
48	Cost per inmate ^a -----	\$1,131	\$1,074	\$1,081	\$7
49					(0.7%)
50	Forestry Camp Operations:				
51	Average inmate population -----	134	180	180	-
52	Cost per inmate (excluding inmate pay) -----	\$884	\$738	\$767	\$29
53					(3.9%)
54	In general the increase is due to the increased population and the expanded plant resulting from the addition of the new diagnostic clinic				
55	which is to commence operations in July 1952.				
56					
57	SALARIES AND WAGES: Increase of \$293,998 is accounted for as follows:				
58	76 proposed new positions, \$238,350:				
59	3 Assistant supervising institution cook -----				\$9,180
60	To provide 12-hour, 7-day cook coverage at the diagnostic clinic.				
61	3 Correctional lieutenant -----				11,160
62	6 Correctional sergeant -----				19,296
63	53 Correctional officer -----				154,548
64	To provide full custodial coverage on a post assignment basis for the expanded facilities, largely the				
65	result of the new diagnostic clinic.				
66	1 Intermediate file clerk -----				2,280
67	To maintain existing level of service in classification and parole office for increased population.				
68	1 Physician and surgeon -----				5,496
69	1 Senior dentist -----				6,672
70	To handle medical and dental work for the diagnostic clinic.				
71	1 Assistant athletic coach and instructor of physical education -----				3,372
72	To supervise athletic and recreational activities at the new diagnostic clinic.				
73	Overtime (transportation)—road camp -----				750
74	Overtime (transportation)—forestry camps -----				2,250
75	Overtime (fire fighting)—forestry camps -----				2,250
76	To provide payment of overtime for necessary transportation and fire fighting at three forestry camps				
77	and one road camp.				
78					
79	^a Excluding cost of operating diagnostic clinic.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES—Continued				
5	1 Associate prison warden				\$6,360
6	To provide administrative supervision for the diagnostic clinic.				
7	1 Supervising clerk, grade 1				3,216
8	1 Senior clerk				2,640
9	3 Intermediate typist-clerk				6,840
10	To provide stenographic and clerical service at the diagnostic clinic after transfer of existing positions from Lancaster and San Quentin. This will provide identical staffs for eventual equal work load at the diagnostic clinics at both Chino and San Quentin.				
11	1 Educational interne (part time—two individuals)				2,040
12	To provide the part time service of senior and graduate college students at the diagnostic clinic.				
13					
14					
15	Transfers from San Quentin prison and the Vocational Institution, Lancaster account for 15 positions, \$63,763 of the increase.				
16					
17	OPERATING EXPENSES: Increase of \$136,870 is generally due to expanded plant and increased population.				
18					
19	EQUIPMENT: Total of \$44,014 represents an increase of \$21,596. Included are replacement of two trucks (\$2,500), additional feeding equipment (\$6,117), and replacement of laundry and dry cleaning equipment (\$9,327).

b These positions are being transferred from Lancaster, Diagnostic Clinic in the 1951-52 Fiscal Year.

Department of Corrections

STATE PRISON AT FOLSOM

A maximum security prison for inmates who are dangerous escape risks, recidivists, habitual criminals, or who are serving long sentences. Inmates are trained in agriculture, food processing, and various industries. A wide variety of educational courses are available.

Located near Folsom, Sacramento County

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
2					
3					
4					
5	General Fund

11	Unexpended balance, estimated savings	71,132	35,766	-	
12	TOTAL EXPENDITURES FOR SUPPORT	\$2,056,853	\$2,128,631	\$2,055,146	-\$73,485 (-3.5%)

13	GENERAL ANALYSIS				
14					
15	Number of positions	337.4	337.8	341.9	4.1
16	POPULATION AND UNIT COSTS				
17	Average inmate population	2,750	2,800	2,350	-450 (-16.1%)
18	Cost per inmate a	\$738	\$749	\$850	\$101 (13.5%)
19	In general the decrease is due to the reduction in population.				

20	SALARIES AND WAGES: Increase of \$16,312 is accounted for as follows:				
21	Proposed New Positions:				
22	1 Correctional sergeant (bus driver)				\$3,216
23	1 Correctional officer (bus guard)				2,916
24	To operate additional departmental bus.				
25	1 Automotive mechanic				3,372
26	Required to operate the garage on a 7-day per week basis necessitated by additional departmental bus and other increased work load.				
27	2 Correctional officer				5,832
28	To provide 8-hour coverage for contraband search on trucking gate plus relief.				
29	0.1 Optometrist (increase in time)				900
30	To increase service from 3 to 6 days per month.				
31	Temporary help (military leave relief)				3,000
32	Relief for correctional officers on military leave.				

OPERATING EXPENSES: Decrease of \$107,935 due primarily to population decrease.

EQUIPMENT: Total of \$74,297 represents an increase of \$20,833. Included are an additional departmental bus (\$19,000), an additional fire truck (\$14,000), additional radio equipment (\$2,700), and replacement of kitchen equipment (\$9,100).

Department of Corrections

STATE PRISON AT SAN QUENTIN

A prison for inmates requiring medium and maximum custody. During 1950-51 approximately 350 medical and psychiatric prisoners will be transferred to the temporary medical facility at Terminal Island. Until June 30, 1951, this institution will serve as Department of Corrections' central receiving unit for adult male offenders from the entire State. Effective July 1, 1951, only Northern California offenders will be received at this prison. Offenders from Southern California will be received at the new diagnostic clinic at the Institution for Men, Chino. The federal forestry camp program is not expected to continue after the 1950 calendar year.

Academic and vocational training are available. An extensive industrial plant is also in operation.

Located near San Rafael, Marin County

27	GENERAL ANALYSIS				
28					
29	Number of positions-----	583.8	557.3	555.8	—1.5

In general the decrease is due to decreased population, the transfer of six positions to the new diagnostic clinic at the Institution for Men, Chino, and the discontinuance of the federal forestry camp program. This decrease is partially offset by increased equipment and the loss of reimbursements from the U. S. Forestry Service.

SALARIES AND WAGES: The decrease of \$1,227 is accounted for as follows:

40	Proposed New Positions:				
41	0.5 Anesthetist (intermittent)-----				\$2,748
42	To provide a qualified person to administer anesthetics at the hospital.				
43	6 Medical technical assistant-----				18,360
44	Five to provide 24-hour coverage plus relief in three 50-bed wards in the hospital. One to assist in process-				
45	ing the sick line.				
46	2 Intermediate stenographer-clerk -----				4,800
47	To do stenographic work for the medical and dental professional staff and prepare progress reports.				
48	Temporary help (military leave)-----				3,000
49	To provide necessary relief while custodial personnel are on military leave.				
50	1 Sheet metal foreman-----				3,720
51	To provide instruction and technical supervision in the sheet metal shop. Now run by inmates.				
52	Overtime (transportation)—road camps-----				1,500
53	Overtime (transportation)—state forestry camps-----				2,250
54	Overtime (firefighting)—state forestry camps-----				2,250
55	To provide payment for overtime for necessary transportation and firefighting at three state forestry				
56	camp and two road camps.				
57	1 Associate prison warden-----				6,360
58	To provide administrative supervision for the diagnostic clinic.				

The cost of proposed new positions is offset by the transfer of six positions to the new diagnostic clinic at the Institution for Men, Chino, and the discontinuance of the federal forestry camp program.

OPERATING EXPENSES: The decrease of \$187,915 is generally due to population decrease, partially offset by a \$15 per capita increase in gate money to parolees and discharged inmates.

EQUIPMENT: The total of \$87,408 represents an increase of \$38,426. Included is the replacement of medical and dental equipment (\$50,000), replacement of three automobiles (\$3,855) and the replacement of feeding equipment (\$6,600).

INMATE PAY-WORK PROJECTS: The decrease of \$19,140 is due to the discontinuance of the federal forestry camp program.

40	GENERAL ANALYSIS				
41					
42	Number of positions -----	150	155	300	145
43					
44	POPULATION AND UNIT COSTS				
45	Institution Operations:				
46	Average Inmate Population -----	687	700	1,600	900
47					(128.6%)
48	Cost per Inmate -----	\$1,122	\$1,177	\$992	185
49					(15.7%)
50	Forestry Camp Operations:				
51	Average Inmate Population -----	61	120	120	-
52	Cost per Inmate (excluding inmate pay and emergency fire				
53	fighting) -----	\$977	\$726	\$773	\$47
54					(6.7%)
55	In general, the increase is due to increased population of 128% and expanded facilities. Occupation of the new institution is scheduled to commence July, 1951.				
56					
57	SALARIES AND WAGES: Increase of \$436,346 is accounted for as follows:				
58	161 Proposed new positions \$498,186:				
59	1 Senior account clerk -----				\$2,772
60	1 Intermediate stenographer-clerk -----				2,400
61	1 Bookkeeping machine operator -----				2,400
62	Work load increase in business and accounting office due to expanded facilities and increased population.				
63	1 Assistant institution automobile mechanic -----				2,640
64	To assist the present automobile mechanic in the operation of the garage and service station at the new institution.				
65	2 Supervising institution cook -----				7,080
66	2 Assistant supervising institution cook -----				6,120
67	To provide 16-hour, 7-day kitchen coverage at the new institution.				
68	1 Instructor in baking -----				3,372
69	To supervise and train inmates in baking for institution and camps.				
70	1 Butcher -----				3,060
71	To supervise meat cutting and slaughtering for institution and camps.

42					(—1.7%)
43					

In general the decrease in total expenditures is due to the discontinuance of the diagnostic clinic effective September 30, 1951. All diagnostic clinic positions, with the exception of one high school teacher who is being transferred to educational and vocational training, are being transferred to the new Chino diagnostic clinic effective September 30, 1951.

SALARIES AND WAGES: Decrease is due to the discontinuance of the diagnostic clinic at Lancaster effective September 30, 1951.

OPERATING EXPENSES: Decrease of \$1,865 is due generally to the discontinuance of the diagnostic clinic effective September 30, 1951, and price changes.

EQUIPMENT: Total of \$6,987 represents a decrease of \$15,296.

Department of Corrections
INSTITUTION FOR WOMEN, TEHACHAPI

Receives and houses all female felons committed to prison. Academic and limited vocational training is available.
Located near Tehachapi, Kern County

L I N E	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3	General Fund				
4	SUPPORT				
5	Budget Act appropriation-----	\$420,787	\$403,232	\$409,445	
6	Allocations from Emergency Fund-----	-	14,091	-	
7	Allocations from Salary Increase Fund-----	11,538	2,052	-	
8	Totals Available-----	\$432,325	\$419,375	\$409,445	
9	Unexpended balance, estimated savings-----	-57,647	-14,521	-	
10	TOTAL EXPENDITURES FOR SUPPORT-----	\$374,678	\$404,854	\$409,445	\$4,591 (1.1%)

GENERAL ANALYSIS					
11	Number of positions-----	53.4	64.5	65.5	1
12	POPULATION AND UNIT COSTS				
13	Average inmate population-----	321	340	355	15 (4.4%)
14	Cost per inmate-----	\$1,167	\$1,191	\$1,153	-\$38 (-3.2%)

In general the increase in total expenditures is due to a population increase and price changes.

SALARIES AND WAGES: An increase of \$3,672 is accounted for as follows:

Proposed New Positions:

1 supervisor of custody and training----- \$3,720

To supervise and train the custodial staff. Position is similar to correctional lieutenant in men's institutions.

OPERATING EXPENSES: An increase of \$6,340 is generally due to a population increase and price changes.

EQUIPMENT: Total of \$5,427 represents a decrease of \$4,156. Included are replacement sewing machines, \$1,211.

Department of Corrections

ADULT AUTHORITY

This is the paroling agency for adult male prisoners of the State. As such, it issues and revokes paroles, fixes and refixes terms of imprisonment, classifies and determines punishment of prisoners. The Bureau of Paroles supervises all adult male parolees within the State.

Main Office at Sacramento

GENERAL ANALYSIS

10	Number of positions-----	101.3	106	113.5	7.5
11	In general the budget for the 1951-52 Fiscal Year contains the existing program with the following exceptions: (a) increase the board members from three to five; (b) return the parole officer ratio to the level of service that existed prior to the 1950-51 Fiscal Year. Other increases are the result of the above and the increase in parole population.				
12	PAROLEE RATIOS AND UNIT COSTS				
13	Number of parolees supervised as of June 30-----	3,450	3,690	3,815	125 (3.4%)
14	Number of parole officers as of June 30-----	57	59	63	4 (6.8%)
15	Ratio of parolees to parole officers as of June 30-----	60	62	60	-2 (-3.2%)
16	Average number of parolees supervised-----	3,341	3,578	3,770	192 (5.4%)
17	Cost per parolee-----	\$133	\$131	\$129	-\$2 (-1.5%)
18	In general the increase is due to the increase in parole population.

ADMINISTRATION

Analysis

This division fixes terms of imprisonment, issues paroles, etc. In addition it supervises the activities of the Bureau of Parole.

SALARIES AND WAGES: Increase of \$18,716 is accounted for by the following proposed new positions:

2 Board members (effective August 1, 1951) ^a----- \$18,333
It is proposed to increase the present three member board to a five member board in order to meet the ever-increasing work requirements of board members. The increased demands upon the time of board members makes it necessary to increase the size of the board in order more readily to provide working quorums.

OPERATING EXPENSES: Increase of \$1,760 is generally due to additional board members.

EQUIPMENT: Total of \$4,424 represents an increase of \$3,185. Included is additional office furniture and two additional automobiles.

SALARIES AND WAGES

Board:				SALARY RANGE

GENERAL ANALYSIS

20	Number of positions -----	6	7	8	1
21					
22	PAROLEE RATIOS				
23	Average number of parolees supervised 168 191 217	168	191	217	26 (13.6%)
24					0.7
25	Average number of parole officers ----- 3 3 3.7	3	3	3.7	(23.3%)
26					—4
27	Average ratio per parole officer ----- 56 64 60	56	64	60	(—6.3%)

In general, the increase is due to the increase in the parole population.

SALARIES AND WAGES: Increase of \$2,712 is accounted for as follows:

Proposed New Positions:

33	1 Women's parole officer (effective November 1, 1951) -----	\$2,360
34	To provide 1 to 60 ratio per parole officer for increased population.	

OPERATING EXPENSES: Increase of \$1,445 is generally due to increased parole population and additional parole officer.

EQUIPMENT: Total of \$2,032 represents an increase of \$958. An automobile and other equipment is included for the new position.

Department of Corrections

YOUTH AUTHORITY

The Youth Authority has the responsibility for classification, segregation, and parole of all young offenders committed to it. It exercises over-all supervision of the various correctional facilities for young offenders including custody and rehabilitation. It also administers the parole program.

Consultant services are provided to judges, probation officers, juvenile halls, and law enforcement juvenile bureaus. Regular inspections of county operated camps are made and standards set for payment of subsidies. Advisory services are rendered to community agencies interested in youth welfare and delinquency prevention.

24					
25	AUTHORITY				
26					
27	The authority, as such, consists of three members appointed by the Governor, subject to confirmation by the Senate. One member is				
28	appointed as director and also serves as chairman of the authority. The three-member authority is charged by law with the				
29	responsibility for the classification, segregation, and parole of persons committed to the authority. These functions cannot be dele-				
30	gated by it to, nor exercised nor performed by, any individual member. All other powers, duties, and functions granted to or imposed				
31	upon the authority by any provision of law are exercised and performed by the Director of the Youth Authority staff.				
32					
33	Analysis				
34					
35	SALARIES AND WAGES: No increase.				
36					
37	OPERATING EXPENSES: No increase.				
38					
39	EQUIPMENT: Total of \$50 represents an increase of \$26 for the purchase of small items.

65	DIVISION OF ADMINISTRATION				
66					
67	This division provides central control and unified management of the business operations of the several divisions and facilities. It is				
68	responsible for fiscal, accounting, and personnel control. The office of the clerk of the authority is also part of this division and acts				
69	as a clearing center for contacts with the courts, maintains central case files, and records minutes of all authority meetings.				
70	At the present time the accounting office maintains records for Los Guilucos, Fricot, forestry camps, trust funds, boarding homes				
71	and payments to counties. When the northern clinic is opened the records will be maintained in this office, however the records of				
72	Los Guilucos will be moved to the institution.				
73					
74	Analysis				
75					
76	SALARIES AND WAGES: Decrease of \$237 caused by increased salary savings.				
77					
78					
79	Proposed New Positions:				
80	1 Intermediate typist-clerk-----				\$2,280
81	To handle increased work load in Youth Authority clerk's office, caused by increased population, cases				
82	on parole, transfers, and board orders.				
83					
84

Department of Corrections—Youth Authority

FORESTRY CAMPS FOR BOYS

correctional facilities for boys in the 17 to 21 age group. On-the-job training in fire prevention and suppression, and maintenance work are carried on under the direction of the Division of Forestry. The Youth Authority carries on a program of education, recreation and religious training.

Pine Grove Camp is located 10 miles north of Jackson, Amador County.

Whitmore Camp is located 38 miles east of Redding, Shasta County.

Ben Lomond Camp is located 10 miles northeast of Santa Cruz, Santa Clara County.

Coarsegold Camp is located 35 miles east of Fresno, Fresno County.

30	GENERAL ANALYSIS				
31					
32	Number of positions	74	77.6	77.6	—
33					
34	POPULATION AND UNIT COSTS				
35	Average Inmate Population:				
36	Pine Grove Camp	64	75	75	—
37	Whitmore Camp	63	63	63	—
38	Coarsegold Camp	86	87	87	—
39	Ben Lomond Camp	60	60	60	—
40					
41	Totals, All Camps	273	285	285	—
42	Average Cost per Inmate (Excluding Inmate Pay)	\$1,626	\$1,702	\$1,778	\$76
43					(4.5%)
44	The increase is generally due to proposed new positions and equipment.				
45					
46	SALARIES AND WAGES: Increase of \$15,745 is partially accounted for as follows:				
47	Proposed New Positions (The following are total cost for four camps. Amount for each camp shown in individual camp budgets):				
48	Chaplain—Protestant (intermittent)				\$67
49	Chaplain—Catholic (intermittent)				67
50	To provide chaplain services on Christmas day at each of the four camps.				
51	Cook (overtime)				4,460
52	To provide for kitchen coverage of 12 hours per day.				
53	Overtime (escapes)				1,540
54	Payment for overtime accumulated in searching for escapees.				
55	Temporary help (in-service training)				2,425
56	7-day training period for new custodial personnel and 3 days training per year for all custodial personnel.				
57					
58	OPERATING EXPENSES: Increase of \$4,055 generally due to price changes.				
59					
60	EQUIPMENT: Total of \$10,982 represents an increase of \$3,062. Included is the replacement of kitchen equipment at Whitmore Camp				
61	and an automobile replacement at Pine Grove Camp.				
62					
63	a An advance from the Division of Forestry appropriation for the payment of camp operations pending receipt of reimbursements. The				
64	advance is not included in over-all budget totals. The Division of Forestry budget includes all expenditures for this activity.

FRICOT RANCH SCHOOL FOR BOYS

A minimum security correctional school for boys in the 8 to 15 age group. The school program embraces academic and pre-vocational instruction, and limited agricultural and work projects.

Located 11 miles east of San Andreas, Calaveras County.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
2					
3					
4	General Fund				
5					
6	SUPPORT				
7	Budget Act appropriation	\$196,273	\$230,160	\$240,445	
8	Allocations from Salary Increase Fund	7,860	1,177	-	
9	Totals Available	\$204,133	\$231,337	\$240,445	
10	Unexpended balance, estimated savings	-15,060	-17,097	-	
11	TOTAL EXPENDITURES FOR SUPPORT	\$189,073	\$214,240	\$240,445	\$26,205 (12.2%)
12					
13					
14	GENERAL ANALYSIS				
15					
16					
17	Number of positions	38.9	42.4	45.4	3
18	POPULATION AND UNIT COSTS				
19	Average pupil population	91	120	145	25 (20.8%)
20	Average cost per pupil	\$2,078	\$1,785	\$1,658	-\$127 (7.1%)
21	In general, the per capita cost decrease is due to increased population. In November 1950 the school's capacity will be increased by the completion of three 50-boy dormitories which will replace one existing 100-boy dormitory and provide a net increase in capacity of 50.				
22	SALARIES AND WAGES: Increase of \$10,658 is partially accounted for as follows:				
23	Proposed New Positions:				
24	2 Assistant head boys' group supervisors				\$6,744
25	To provide 7-day, 16-hour (activity hours) supervisorial custodial coverage, with the head boys' group supervisor working a shift.				
26	1 Intermediate clerk				2,280
27	To maintain present level of clerical service for increased population.				
28	1 Building maintenance man				2,772
29	Maintenance of enlarged plant and grounds.				
30	Business manager, grade 1 (replacing one chief engineer, grade 1)				436
31	Supervisor of academic instruction (replacing one high school teacher)				374
32	To provide over-all business and maintenance management and supervision for the academic program by a "teaching principal."				
33	Sabbatical leave (six weeks)				420
34	Relief position for teacher on sabbatical leave.				
35	Temporary help (in-service training)				700
36	Seven-day training period for new custodial personnel and 3 days training per year for all custodial personnel.				
37	OPERATING EXPENSES: Increase of \$14,300 generally due to increased plant and population, and estimated price changes.				
38	EQUIPMENT: Total of \$5,388 represents an increase of \$1,807. Additional equipment includes an automobile and other equipment for new positions and increased population.

14	TOTAL EXPENDITURES FOR SUPPORT	\$628,483	\$644,236	\$656,078	\$11,842 (1.8%)
15					
16	GENERAL ANALYSIS				
17					
18					
19					
20	<i>Number of positions</i>	137.7	137	138	1
21					
22	POPULATION AND UNIT COSTS				
23	Average pupil population	308	315	315	—
24	Cost per pupil	\$2,041	\$2,045	\$2,083	\$38 (1.9%)
25					
26	In general, the per capita cost increase is due to the new position and the increase in equipment.				
27					
28	SALARIES AND WAGES: Increase of \$5,578 is accounted for as follows:				
29	Proposed New Positions:				
30	1 Assistant head boys' group supervisor				\$3,372
31	To provide around-the-clock supervisory custodial coverage with the head boys' group supervisor working a shift.				
32	Temporary help (in-service training)				2,260
33	7-day training period for new custodial personnel and 3 days training per year for other custodial personnel.				
34					
35	OPERATING EXPENSES: Increase of \$515 is generally due to price changes.				
36					
37	EQUIPMENT: Total of \$17,650 represents an increase of \$7,854. Replacement of feeding equipment (\$8,250), furniture (\$3,060), and				
38	educational equipment (\$1,860) are the major items.

21					
22	POPULATION AND UNIT COSTS				
23	Average pupil population	127	135	135	-
24	Cost per pupil	\$2,004	\$2,081	\$2,089	\$8
25					(0.4%)
26	Per capita cost increase, in general, is due to proposed new positions and price changes. New construction is scheduled for completion in				
27	July, 1952.				

28					
29	SALARIES AND WAGES: Increase of \$6,336 is accounted for as follows:				
30	Proposed New Positions:				
31	1 Intermediate account clerk				\$2,280
32	To act as property clerk and to handle increased accounting work load resulting from new construction.				
33	1 Assistant head boys' group supervisor				3,372
34	To provide 7-day, 16-hour (activity hours) supervisory custodial coverage with the head boys' group supervisor working a shift.				
35	Temporary help (in-service training)				1,095
36	Seven-day training period for new custodial personnel and three days' training per year for all custodial personnel.				

37					
38	OPERATING EXPENSES: Increase of \$70 due to price changes.				
39					
40	EQUIPMENT: Total of \$3,714 represents a decrease of \$4,138. Two additional hot water tanks (\$590), two replacement boilers				
41	(\$1,050), and a replacement air compressor (\$395) are included.

15	GENERAL ANALYSIS				
16					
17					
18					
19					
20	Number of positions	260.6	260.5	260.5	—
21					
22	POPULATION AND UNIT COSTS				
23	Average Pupil Population:				
24	At school	495	515	515	—
25	At diagnostic clinic a	123	125	125	—
26					
27	Total	618	640	640	—
28	Average institutional cost per pupil b	\$2,000	\$1,935	\$1,944	\$9 (0.5%)

The per capita cost increase is primarily due to an increase in equipment and price changes.

SALARIES AND WAGES: Increase of \$28 is accounted for, generally, by annual salary adjustments, offset for the most part by estimated salary savings. No new positions are proposed.

OPERATING EXPENSES: Increase of \$785 is due in general to price changes.

EQUIPMENT: Total of \$21,395 represents an increase of \$8,275. Replacement of a laundry tumbler (\$5,750), furniture (\$3,250) and an automobile (\$1,250) are the major items.

LOS GUILUCOS SCHOOL FOR GIRLS

correctional school for girls in the 8 to 15 age group. The program consists of academic training, domestic arts, and rounded recreation program.

Located near Santa Rosa, Sonoma County

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
2					
3					
4					
5	SUPPORT				
6	Budget Act appropriation-----	\$228,900	\$239,264	\$290,430	
7	Allocations from Emergency Fund-----	3,045	3,575	-	
8	Allocations from Salary Increase Fund-----	9,919	756	-	
9					
10	Total Available-----	\$241,864	\$243,595	\$290,430	
11	Unexpended balance, estimated savings-----	-8,738	-3,056	-	
12					
13	TOTAL EXPENDITURES FOR SUPPORT-----	\$233,126	\$240,539	\$290,430	\$49,891
14					(20.7%)
15					
16	GENERAL ANALYSIS				
17					
18					
19	Number of positions-----	48.7	48.2	70.1	21.9
20					
21	POPULATION AND UNIT COSTS				
22	Average Pupil Population-----	121	115	140	25
23					(21.7%)
24	Cost Per Pupil-----	\$1,927	\$2,092	\$2,075	-\$17
25					(0.8%)
26	In general, the increases reflect the completion of the new units in January, 1952, including staffing requirements for gradual population increase.				
27					
28					
29	SALARIES AND WAGES: Increase of \$35,113 is partially accounted for as follows:				
30	Proposed New Positions:				
31	1 Intermediate stenographer-clerk (effective January 1, 1952)-----				\$1,200
32	To maintain present level of clerical service for increased population.				
33	1 Assistant head girls' group supervisor-----				3,372
34	To provide 7-day, 16-hour (activity hours) supervisory custodial coverage, with the head girls' group supervisor working a shift.				
35	10 Girls' group supervisor (effective January 1, 1952)-----				14,580
36	Together with existing positions to provide 24-hour coverage in two old dormitories, two new dormitories, and in detention and restriction units. Double coverage provided in the afternoon and evening hours in the new dormitories, detention (and restriction) units.				
37	1 Watchman-----				2,280
38	0.5 Watchman (one-half time)-----				1,140
39	To provide 7-day, 12-hour night coverage.				
40	0.2 Senior physician and surgeon (increase to one-half time, effective January 1, 1952)-----				1,002
41	To maintain present level of medical service for increased population.				
42	5 Graduate nurse (effective January 1, 1952)-----				7,290
43	0.5 Graduate nurse (one-half time, effective January 1, 1952)-----				729
44	To provide 24-hour coverage, plus double coverage for sick call, in the hospital and receiving unit.				
45	1 Music teacher (effective February 1, 1952)-----				1,340
46	2 Home economics teacher (one each, January 1 and March 1, 1952)-----				2,810
47	To maintain present level of teaching service for increased population.				
48	1 Intermediate stenographer-clerk (effective January 1, 1952)-----				1,200
49	To handle school records, reports, and correspondence for increased work load.				
50	0.1 Chaplain—Catholic (intermittent)-----				195
51	0.1 Chaplain—Protestant (intermittent)-----				195
52	To maintain present level of chaplain service for increased population.				
53	Temporary help (in-service training)-----				1,280
54	7-day training period for new custodial personnel and 3 days training per year for all custodial personnel.				
55	(0.1) Institution firefighter (2 intermittent)-----				240
56	To provide adequate fire protection for new buildings.				
57	Temporary help (emergencies)-----				830
58	To provide personnel required during periods of heavy maintenance and for vacation relief.				
59	OPERATING EXPENSES: Increase of \$18,995 is generally due to enlarged plant, increased population and price changes. \$1,640 included for laundry contract increase as result of survey.				
60					
61	EQUIPMENT: Total of \$5,320 represents a decrease of \$2,742. Included is additional equipment for proposed new positions.

DEPARTMENT OF EDUCATION

General Activities

Performs administrative, supervisorial, and advisory functions for the Public School System under the general direction of the State Board of Education. Also responsible for the administration of nine state colleges, the California Maritime Academy, four special schools for physically handicapped children, three workshops for the blind, and the state-federal program of vocational rehabilitation. These activities are carried on through the Divisions of Departmental Administration, School Administration, Instruction, State Colleges and Teacher Education, Special Schools and Services, and Library.

GENERAL ANALYSIS

23	Number of positions	292.3	319.8	349.9	30.1
----	---------------------	-------	-------	-------	------

25 In keeping with the constant growth of the Public School System in California over the last few years, the work of the Department of
26 Education continues to increase in both quantity and scope. Necessary additions should be made during the budget year in the
27 fields of elementary, secondary, and adult education, as well as for textbook adoptions and guidance and counseling methods. Admin-
28 istrative assistance is being provided in the Division of Instruction. In the field of the state colleges a proper analysis and control
29 of over-all curricula is sought, and a resurvey of higher education needs is planned in cooperation with the University of California.
30 The remaining major addition in scope of work seeks to strengthen field rehabilitation services for the newly-blinded to cover such
31 persons not now served because of limitations in staff.

32 Continuation of Child Care Centers is provided for the remainder of the current year, with extension of the present level of activities
33 into 1951-52.

34 In addition to the above changes, technical and clerical positions have been provided to meet the growing demands of the schools and
35 colleges. A blanket liability insurance coverage is provided for all members of the Department of Education. Other operating
36 expenses are confined largely to increases for new personnel only, and equipment consists mainly of replacement items, furniture
37 for new positions, and additional automobiles to reduce private car mileage costs.

DIVISION OF DEPARTMENTAL ADMINISTRATION

Administrative Unit

48 Includes the office of the Superintendent of Public Instruction and other general administrative officers, fiscal, personnel, legal, and
49 public relations activities.

Analysis

53 No increase in the over-all housekeeping and general administrative functions is contemplated in the budget year. The increase of
54 \$21,609, or 6.2 percent over 1950-51, consists almost entirely of general equipment replacements, addition of 12 new automobiles
55 for new personnel and reduction of private car mileage charges, and the pooling of all book purchases for all bureaus of the depart-
56 ment into this organizational unit. Liability insurance premiums for blanket coverage of all administrative personnel is also included
57 in this unit.

2	DIVISION OF SCHOOL ADMINISTRATION						
3							
4	Administrative Unit						
5							
6	Consists of the office of the associate superintendent of public instruction in charge of the following public school administration func-						
7	tions: school planning, school district organization, advisory services in the field of school finance, public school attendance, school						
8	lunch program, free textbook program, surplus property administration, approval of educational institutions offering veterans train-						
9	ing, and supervision of child care centers.						
10							
11	Analysis						
12							
13	An increase of \$8,528, or 37.6 percent over 1950-51, is occasioned principally by the necessity to issue a school attendance manual. In						
14	addition, this unit is being furnished completely for the first time, resulting in a heavy one-year equipment cost.						
15

21						\$60,719	
22	Administrative Services—School Accounts and Records						
23							
24	Apportions the State School Fund, verifies financial reports of school districts, and analyzes financial data for departmental and public						
25	school use.						
26							
27	Analysis						
28							
29	An increase of \$13,887, or 28.1% over 1950-51 is composed of two factors: One is the necessity of adding three clerical positions at						
30	\$8,000 to correct and analyze all public school cost statistics for the State Controller's annual report as required by Chapter 1521,						
31	Statutes of 1949; the second is the necessary equipping of this unit with sufficient labor-saving accounting machines to permit						
32	accurate apportionment of the State School Fund within the requirements prescribed by present legislation.						
33							
34	SALARIES AND WAGES				SALARY RANGE

2	DIVISION OF INSTRUCTION—Continued						
3							
4	Elementary Education						
5							
6	Provides consultative and advisory services in the field of instruction to the public elementary schools.						
7							
8	Analysis						
9							
10	In keeping with the expanding enrollments of the elementary grades and the problems ensuing from this growth, one additional con-						
11	sultant in elementary education is provided. Additional travel allowance and furniture have also been allowed for this position. Six						
12	hundred dollars in temporary clerical help is added to assist in compilation of two curriculum volumes on courses of study in kinder-						
13	garten and elementary schools. This accounts for the entire increase of \$7,474, or 12.2 percent over 1950-51.						
14

28							
29	Vocational Education						
30							
31	Provides consultative services in the vocational fields of industrial arts and business education, which cannot be supported under the						
32	regular state-federal budget for vocational education. All equipment for the federal vocational education budget except that for						
33	teacher training must be purchased here, and prior to 1950-51, all rental charges for the federal program were shown in this						
34	function.						
35							
36	Analysis						
37							
38	An increase of \$10,933, or 38.9 percent over 1950-51, is accounted for principally by the addition of one consultant in the field of guid-						
39	ance and counseling, and corresponding increases in clerical assistance, travel, and furniture for the new position. With all work in						
40	this field at present confined to vocational counseling, some assistance must be provided for children not planning to enter voca-						
41	tional fields.

1							
2	DIVISION OF STATE COLLEGES AND TEACHER						
3	EDUCATION—Continued						
4							
5	Credentials						
6							
7	Evaluates transcripts and issues teacher credentials for certificated employees of the Public School System.						
8							
9	Analysis						
10							
11	Growth of this unit's work load continues to correspond with the rapid increases in school enrollment in recent years, resulting in an						
12	increase over 1950-51 of \$11,350, or 7.4 percent. Two assistant credential technicians are added to meet the increased load of evalua-						
13	tion of records of new or temporary teachers, and two clerical assistants are required to handle correspondence and credential issu-						
14	ance demands. Additional costs of printed forms will be more than offset by decreased costs of filing equipment. Revenues from cre-						
15	dential fees are estimated at \$200,000 for the budget year, in contrast to expenditures of \$153,541.						
16

66							
67	DIVISION OF SPECIAL SCHOOLS AND SERVICES						
68							
69	Administrative Unit						
70							
71	Provides administrative control over the state special schools for blind, deaf, and cerebral-palsied children; coordinates the opera-						
72	tions of the three workshops for the adult blind; and administers the state-federal program of vocational rehabilitation.						
73							
74	Analysis						
75							
76	No change in the level of activities of this unit is budgeted for the 1951-52 Fiscal Year. The only expenditure change is caused by the						
77	inclusion of liability insurance premium costs for all employees of the special schools and workshops.						
78							
79	SALARIES AND WAGES

56	Acquaints newly blinded persons of opportunities available to them, trains the blind in the making of handicraft articles, and arranges the						
57	sale of such articles on a consignment basis.						
58							
59	Analysis						
60							
61	The entire operating staff of this unit is being increased to bring this program up to the minimum level required to serve all blind persons						
62	to be covered by this service. The eventual goal of this expansion includes 11 new positions, but limited employment opportunities						
63	prevent the addition of more than six positions in the budget year. The increase of \$23,101, or 48.2 percent over 1950-51, consists						
64	entirely of these six new field workers and their travel expenses and equipment.

SUPERVISION OF CHILD CARE CENTER PROGRAM ^a

Includes state-level supervision, advisory services on child care, and auditing of the records of child care centers. Also has responsibility for apportionment of state funds appropriated for support of these centers.

Analysis

State support for child care centers was extended by Chapter 2, Statutes of 1950, until February 15, 1951. It is proposed that activities be continued at the same level for the remainder of the fiscal year by deficiency appropriation. Aside from minor adjustments for price increases, no change in the level of activity is budgeted for 1951-52.

SALARIES AND WAGES

				SALARY RANGE			
Supervisor of special financial services to schools	1	1	1	\$395-481	\$5,772	\$5,772	
Consultant in child care centers	1.5	2	2	341-415	9,271	9,740	
Assistant supervisor of special financial services to schools	1	—	—	341-415	—	—

Department of Education

VOCATIONAL EDUCATION

The state program for vocational education is based upon a cooperative plan between the Federal Government and the State Department of Education, under the general direction of the Commission for Vocational Education. Acceptance of the federal vocational education acts requires certain matching amounts of state funds to augment federal grants-in-aid in this field. These funds are expended for state level supervision and teacher training, with any remaining balances distributed to 300 public secondary schools as partial reimbursement for their participation in the program. The program is administered through the Bureaus of Agricultural Education, Business and Distributive Education, Homemaking Education, Trades and Industries Education, and Occupational Information and Guidance, under the Division of Instruction in the Department of Education.

63	GENERAL ANALYSIS				
64					
65	Number of positions-----	80.4	93	92	—1
66					
67	In general, the level of activities of all vocational education functions will remain constant with the current year. Decreasing reimburse-				
68	ments from the Veterans Administration will result in an increase in General Fund costs, partially offset by completion of initial				
69	revisions of instructional materials for apprentices. Other increases are confined to teacher training activities where increased enroll-				
70	ments and teacher shortages make minor increases necessary.				
71					
72	^a Does not include reimbursements to school districts maintaining approved vocational instruction. See Local Assistance Budget.				
73	^b Neither federal aid revenues, nor the expenditures therefrom, are included in the over-all budget totals. See Schedule 11 for summary				
74	of federal aid revenues and expenditures.				
75	^c These state appropriations, together with all federal grants, are deposited in the Vocational Education Fund, from which expenditures				
76	are made.				
77	^d Included in Budget Act appropriation in lieu of the continuing appropriations by these sections of the Education Code.				
78					

Department of Education

VOCATIONAL EDUCATION—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	SUPERVISION AND TEACHER TRAINING						
2							
3							
4	This function includes the general continuing activities of state level supervision of vocational education programs in the public school						
5	Adequate supervision and teacher training programs are required under the federal acts, and 50 percent of the costs of this function						
6	are normally met from federal funds.						
7							
8	Analysis						
9							
10	Although expenditures will increase \$37,127, or 5.6 percent over 1950-51, this increase will be absorbed within the total Vocational Education						
11	Fund budget, with no change in the General Fund appropriation for this purpose. Maintenance payments to agricultural						
12	education cadet teachers are being transferred from operating expenses to salaries and wages as required by federal regulation						
13	and an additional \$12,500 is provided to train a total of 60 teachers to meet existing shortages in this field. Auto rental charges are						
14	increased \$11,230 to reimburse the General Fund for automobiles purchased for the use of this function. Remaining increases are						
15	attributable to expanded operating costs caused by enrollment increases in public school vocational classes.						
16

26	Net Totals, Supervision and Teacher Training				\$581,731	\$657,164	\$694,291
27	RELATED INSTRUCTION—APPRENTICESHIP TRAINING						
28	This function was originally established in 1945 for teacher training and the development of instructional materials to assist veterans						
29	in the fields of Business Education and Trades and Industries Education. In 1948 an additional function of Agricultural on-farm						
30	training was established, completely reimbursed (over the life of the program) by payments from the Veterans Administration						
31	for tuition charges.						
32	Analysis						
33	An over-all increase over 1950-51 of \$11,027, or 35.1% in this function is caused by a \$31,740 increase in net on-farm program costs						
34	due to smaller reimbursement rates from the Veterans Administration, partially offset by a decrease of \$20,976 in apprenticeship						
35	training program costs resulting from completion of a basic revision program during the current year. Business Education expenses						
36	remain at the existing level, with minor adjustments resulting in a slight increase of \$428.						
37	Additional cost to the General Fund of the on-farm training program results from a decrease of over \$26,000 in Veterans Administra-						
38	tion reimbursements over the current year. Surplus collected in prior years will offset this reduction in rates.						
39	Apprenticeship training program expenses were augmented during the current year to provide staff and printing funds sufficient to						
40	revise certain instructional materials manuals to reflect current trades practices. Return of this program to a normal production						
41	level results in a reduction of one special supervisor at \$5,040, decrease in clerical and editorial assistance of \$5,280, and a reduction						
42	in printing costs of \$8,400.

GENERAL ANALYSIS

Number of positions ----- 184.6 194.5 194.5

In general, expenditures and activities are proposed to be raised to the same level as originally budgeted in 1950-51, augmented by approximately \$88,000 for price increases in case service costs. As it has been necessary to curtail agency operations for both 1949-50 and 1950-51 due to decreased federal grants, this budget recognizes a continuation of this decreased level, and establishes a program to be financed at a ratio of two federal dollars to each state dollar. With this over-all limitation, state funds will be freed from their present matching provisions for case services only, thereby providing additional amounts which would normally revert when federal grants are curtailed. Thus by budgeting state funds for general operations, and by augmenting the General Fund appropriation by \$25,000 to increase federal grants by \$50,000, an over-all increase in expenditures of \$143,254 will be provided. This will permit a realization of a level of operations budgeted for 1950-51 plus necessary cost increases in case service expenditures.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
	49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			

ADMINISTRATION

Includes administrative staff of central office and administrative expenses of all branch offices.

Analysis

An increase of \$9,053, or 8 percent over 1950-51, represents a full year's cost of positions filled for only part of the current year. Administrative activity is otherwise merely an extension of the 1950-51 program.

^a Neither these federal grants nor the expenditures therefrom are included in the over-all budget totals. See Schedule 11 for summary of federal aid revenues and expenditures.

^b Included in Budget Act appropriation in lieu of the continuing appropriations by these sections of the Education Code.

VOCATIONAL GUIDANCE AND PLACEMENT

Includes all field rehabilitation staff and expenses except actual case costs.

Analysis

An increase of \$44,298, or 5.2%, over 1950-51 includes \$4,000 for additional medical consultants to provide better coverage for the Los Angeles office, and \$15,000 for psychological examinations formerly provided under Case Service—Miscellaneous. Additional amounts are also provided in operating expenses to permit field personnel to utilize augmented case service funds to best advantage of clients served. Medical personnel previously paid through the Department of Public Health was transferred to direct payment on July 1, 1950.

Department of Education

DIVISION OF LIBRARIES

Provides library facilities for state officials, legislators, employees and institutions. Maintains state-wide library services for the blind, including loans of talking book machines. Assists in establishing public libraries in those parts of the State without such service. Lends books not available locally and does reference work requiring materials not in smaller libraries. Collects library statistics, acts as a clearing house for library information and supervises, inspects, and advises county libraries.

GENERAL ANALYSIS

Number of positions 84 84.9 87.9 3

A constant expansion in the demand for library services will result in an increase over 1950-51 of \$23,280, consisting of four new positions to meet work load requirements, and necessary replacement of heavy equipment for the crafts section.

SALARIES AND WAGES:

Proposed New Positions:

1 Senior librarian	\$3,372
1 Intermediate typist-clerk	2,280
1 Intermediate clerk	2,280
1 Junior typist-clerk	2,040
	\$9,972

The senior librarian is required to permit proper cataloging of incoming material which is falling behind due to increased number of accessions each year. The intermediate typist is also required for increased work in the order section, and to meet the added chargeout service caused by expansion of Sacramento State College. The intermediate clerk (male) is added to handle an increased quantity of heavy items in the book stacks, talking book machines for the blind, and bound periodicals. The junior typist has been added to meet a heavy demand for increased inter-library loans.

OPERATING EXPENSES: Increase of \$5,780 is caused by an initial purchase of Library of Congress catalog cards costing \$4,200, to establish a subject index of government documents. Additional costs result from price increases in supplies and printing.

EQUIPMENT: A total of \$65,389 is recommended, an increase of \$3,226 over 1950-51. The principal items, aside from \$56,600 for books, are: photostat machine (replacement), power paper cutter (replacement), book ends, book trucks, furniture.

^a Student enrollments for colleges represent full-time equivalent students, which are computed on the basis of 15 semester units of instruction representing one student equivalent.

Department of Education

STATE COLLEGES, TECHNICAL COLLEGES, SPECIAL SCHOOLS AND WORKSHOPS—Continued

STATE COLLEGES

The primary function of state colleges is the training of teachers. State colleges may also offer courses appropriate for a general or liberal arts education; offer vocational training in such fields as business, industry, public service, homemaking, and social service; and offer the pre-professional courses needed by students who plan to transfer to universities for advanced professional study. The 1949 Legislature authorized the colleges to grant the master's degree. At present, such degrees are being limited to individuals who meet the State's requirement for one of the various teachers' credentials.

Analysis

Major factors which contribute to the total expenditure increase of the state college budgets, or are common to all schools, are:

1. Increased enrollments, which despite the seriousness of the world situation, continue to expand from the current year total of 22,305 students to an estimated 23,875 full-time-equivalent students in the budget year, an all-time high. The largest increases are at Long Beach and San Jose, where controlled enrollment situations permit large increases while other colleges are declining or leveling off.
2. Although not affecting the over-all expenditure picture for colleges, the decline in veteran enrollment will cause an acute shift in financing from federal payments for tuition to State General Fund support amounting to \$734,430, or 39.7% under 1950-51.
3. Student-teacher ratios, allowed with only minor changes from 1950-51 ratios, will provide 101.4 new teaching positions in the budget year as a result of rising enrollments. These ratios are as follows:

	1950-51	1951-52
Chico State College.....	18-1	18-1
Fresno State College.....	19-1	18-1
Humboldt State College.....	17-1	17-1
Long Beach State College.....	15-1	16-1
Los Angeles State College.....	16-1	16-1
Sacramento State College.....	15-1	16-1
San Diego State College.....	19-1	19-1
San Francisco State College.....	19-1	19-1
San Jose State College.....	19-1	19-1

A downward adjustment has been made at Fresno State College in order to maintain an effective teacher work load comparable to other large colleges. An offsetting upward adjustment has been made at Long Beach and Sacramento State Colleges, where increasing enrollments will permit an adequate curriculum with fewer teachers per student.

4. Adoption of a Department of Finance survey of administrative positions at the State Colleges results in recognition of many shortages in administrative coverage (particularly in the instructional field) which were never recognized during the recent growth in both size and scope of these schools. Although most of the positions established by this survey have been financed from existing instructional positions, 21.9 additional positions have been included for the budget year at a cost of \$122,310.
5. In accordance with allowances for master teaching granted to Los Angeles State College and San Jose State College in 1950-51, an amount equivalent to \$5 per unit of practice teaching is budgeted for each college in 1951-52. Expenditures for this purpose, representing payments to local school districts for contractual services, will total \$137,750 in the budget year.
6. New facilities provided by the Postwar Building Program, will be occupied at practically all colleges during the budget year. Increases in enrollment at Los Angeles State College and Sacramento State College will require additional rental space. New maintenance positions and building operation costs related to this expansion of facilities results in an increase of \$178,063 in 1951-52.
7. Clerical and technical staffing has necessarily followed professional positions at all schools, but individual needs at each school make over-all allowances for such positions subject to change by such factors as building arrangements and organizational variations between colleges.

In addition to the above factors, individual operating and equipment needs at each college create varying staffing and cost patterns which are covered in more detailed analyses in the separate college budgets.

TECHNICAL COLLEGES

Three technical schools are administered by the Department of Education: California Polytechnic College, which offers occupational training in agriculture, engineering and industry, plus limited courses in liberal arts; California Maritime Academy, which trains officers for the Merchant Marine and Naval Reserve; and the Fresno State College Department of Agriculture, patterned after the agricultural instructional program at California Polytechnic College, but dealing with problems principally affecting the central valleys. Because of their vocational nature, instructional costs and equipment allowances of these schools are greater than at the liberal arts type state colleges.

Analysis

Minor changes at these colleges will be experienced in the budget year as the result of the serious world situation. Enrollments at Fresno State College Department of Agriculture are budgeted to level off at the current year peak, while a reduction of 251 students is planned for California Polytechnic College. As a reflection of shipping needs, enrollment at the Maritime Academy will increase to an average of 150 students, the maximum number capable of being housed with existing facilities. The net result of the above changes is an increase of \$44,729, or 1.7% over 1950-51, caused by rising costs of farm and plant maintenance programs as well as enrollment.

Department of Education

STATE COLLEGES, TECHNICAL COLLEGES, SPECIAL SCHOOLS AND WORKSHOPS—Continued

SPECIAL SCHOOLS FOR PHYSICALLY HANDICAPPED CHILDREN

Special schools for the education of blind, deaf, and cerebral palsied children have been established to provide residential care and treatment needed in the proper training of these handicapped children. In addition to the education and vocational training given at all schools, additional medical care is provided for cerebral palsied children. Also outpatient clinics are operated in conjunction with both the Northern and Southern California cerebral palsy schools.

Analysis

The principal impetus to the programs of the special schools in the budget year will be provided through the postwar building program. Opening of new facilities at the School for the Deaf at Berkeley will permit an increased residential enrollment of 114 children, and 20 additional day students. Contemplated opening of the new School for the Deaf at Riverside in 1952-53 has necessitated the advance employment of a superintendent, for recruitment and planning purposes. The Northern California Cerebral Palsied School is budgeted to move to new quarters on the San Francisco State College campus about November of 1951. In addition to these changes caused by new facilities, more comprehensive staffing patterns for teachers and counselors have been recognized at the blind and deaf schools, and more adequate coverage has been included for medical treatment.

WORKSHOPS FOR THE ADULT BLIND

Three workshops, located at Oakland, Los Angeles, and San Diego, supply sheltered factory employment to blind and partially sighted persons who are not able to obtain or retain jobs in private industry. Activities in the workshops are many and varied, and include such items as manufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, leather goods, and fabrication and assembly of many products on a subcontract basis.

This program provides some training and work experience for persons who are placed in gainful employment outside the workshops, and there is coordination with the Bureau of Vocational Rehabilitation of the Department of Education for this purpose. The workshop program is not to be considered, however, as one of the sequential steps for the placement of blind persons in private industry.

The educational and training activities of the workshops are a direct charge against support. The manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund into which the proceeds of sales of products are deposited. The shop at Oakland furnishes residential facilities for approximately 110 blind persons and, until the end of the 1950-51 Fiscal Year, will operate sales offices at San Jose and Sacramento for the sale of homemade products of the blind in those areas.

Analysis

The only major adjustment in the programs of these workshops is the provision for opportunity work centers under the State General Fund budget for each shop. These centers will provide separate working areas for employees not capable of high levels of production, either through lack of training or through physical or mental disability. These centers will be set up at each workshop, the two sales offices now maintained by the Training Center for the Adult Blind will be discontinued, and the San Jose store converted into an additional opportunity work center for 20 persons in that area. This will permit more sheltered employment for 50 persons in Oakland, 30 persons in Los Angeles, and 15 persons in San Diego.

Approximately 550 blind and handicapped individuals will be employed during the 1951-52 Fiscal Year by the workshops for the blind. The 1949 Legislature appointed a Joint Interim Committee on the State Program for the Adult Blind. The Department of Education, as well as other state departments, has been working in cooperation with this committee in developing a long-range and well-rounded program of opportunity for the adult blind of the State.

Department of Education

CHICO STATE COLLEGE

A four-year liberal arts college specializing in teacher training curricula. This school serves the northeastern section of the State, and provides some courses of a terminal nature to meet the junior college needs of the Chico area.

Located at Chico

50					
51	An over-all decline in enrollments reflecting the growing seriousness of world conditions is expressed at this college by a decrease to				
52	1,300 full-time equivalent students, or a drop of 50 students. Cost increases in the budget year will, however, more than offset the				
53	savings in reduced faculty personnel, and will result in an increase of \$82,772, or 10.4% over 1950-51, as follows:				
54					
55	SALARIES AND WAGES: An increase of \$52,140 results from the addition of 4.8 administrative positions to conform to a uni-				
56	form staffing pattern for administrative positions at the state colleges; 4.5 maintenance positions to operate a new classroom				
57	building and new athletic fields of 35 acres; and 4.5 clerical positions to staff science laboratory stock rooms, and provide steno-				
58	graphic assistance to new administrative personnel.				
59					
60	OPERATING EXPENSES: An increase of \$21,280 is accounted for primarily by payments to local school districts for master				
61	teaching (\$11,700), added utility costs for new buildings and facilities (\$5,000), ground improvements for sprinklers (\$1,500),				
62	and tree surgery (\$1,500), and self-reimbursing increases in summer session operations. Other minor operating costs added due				
63	to price increases will be offset by decreases in teaching supplies for budgeted drop in enrollment.				
64					
65	EQUIPMENT: A total cost of \$58,252, an increase of \$9,352 over 1950-51, is composed principally of instructional equipment neces-				
66	sary to equip classrooms and laboratories in keeping with modern curricular needs (\$34,700), library books and service equip-				
67	ment (\$13,400), maintenance equipment for new facilities (\$6,000), and recording equipment to permit better handling of academi-				
68	records and registration materials.

General and Professional Departments

This unit of Fresno State College corresponds with the other liberal arts type state colleges, as compared with the function of the Department of Agriculture which more nearly resembles the instructional methods of California Polytechnic College. It is anticipated that the serious world situation will cause a decrease of 50 students by 1951-52 in the liberal arts unit, thereby reducing enrollment to 2,625 full time equivalent students. Savings in instructional positions resulting from this decrease will be more than offset, however, by the additional cost of operating the first three buildings to be completed on the new campus site, to be occupied by January, 1952. A general increase of \$53,944, or 3.5% over 1950-51, is caused by the following factors:

SALARIES AND WAGES: The increase of \$29,085, or 2.2 percent over 1950-51, results primarily from 8 new positions necessary to maintain buildings on the new campus, 6 clerical and technical positions to provide assistance for instructional positions, and 1.2 part time positions to strengthen the health office with physician and nurse coverage. This increase is partially offset by the reduction of 3.5 teaching positions due to declining enrollment.

OPERATING EXPENSES: The increase of \$21,572 is accounted for by provision for payments to local school districts for master teaching (\$12,990), increased maintenance and utility costs to operate additional facilities (\$3,000), and expenses of moving present offices and equipment to the new campus (\$3,300).

EQUIPMENT: The total of \$77,523, an increase of \$1,220 over 1950-51, consists primarily of instructional equipment required for proper operation of classrooms and laboratories (\$41,600), and books and other library equipment (\$21,800). Maintenance equipment totalling \$11,200 is also required to replace desks, chairs, and shop machinery, and an additional \$2,500 is provided to facilitate the handling of academic records and registration materials.

Department of Agriculture

Expenditures for this agricultural unit are budgeted at the same level of activity and program as the current year, with the exception of a slight increase for the development of crops and herds resulting in an increased operating cost of \$8,000. In addition, two building maintenance positions are added to keep the temporary wooden farm buildings in operable condition; one half-time dairyman is allowed for supervision and care of the new dairy herd purchased this year; and \$2,400 of student assistant help is provided for proper coverage of existing and contemplated farm operations. A total of \$6,140 for equipment is required, evenly divided between instructional items and maintenance equipment.

Department of Education

HUMBOLDT STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. The school serves the northwestern section of the State offering both the usual state college courses and terminal education curricula sufficient to meet the junior college needs of the Eureka area.

Located at Arcata

35					
36	GENERAL ANALYSIS				
37					
38	Number of positions -----	85.7	85.5	88.3	2.8
39					
40	ENROLLMENT AND UNIT COSTS				
41	Regular Session:				
42	Enrollment (full time equivalent students) -----	699	625	600	-25
43					(-4.2%)
44	Cost per student -----	\$656	\$775	\$859	\$84
45					(10.8%)
46	Summer Session:				
47	Enrollment (individuals) -----	458	430	435	5
48					(1.2%)
49	Cost per student -----	\$29	\$38	\$43	\$5
50					(13.2%)
51	In accordance with the general budgeted reduction of college registration, this school is reduced to 600 full time equivalent students				
52	or 25 under the current year. Additional facilities will be available for shops and laboratories, necessitating more maintenance				
53	personnel. Savings in teaching positions due to enrollment decline will be offset by price increases in normal operating supplies				
54	and equipment. The above factors result in an increase over 1950-51 of \$33,147, or 6.6 percent, as follows:				
55					
56	SALARIES AND WAGES: An increase of \$10,176 results from the addition of 3.2 administrative positions in conformance with over				
57	all state college staffing patterns, 5.5 new clerical positions for instructional coverage and assistance to the added administrative				
58	personnel, and 2.5 maintenance positions for new facilities. Cost of these positions is largely offset by reduction in teachers to meet				
59	a student-teacher ratio of 17-1.				
60					
61	OPERATING EXPENSES: An increase of \$10,582 is accounted for principally by added costs of maintaining new facilities (\$7,500)				
62	and needed library operations (\$2,100). Payments to local school districts for master teaching are also provided (\$1,200). Other				
63	price increases are offset by comparable reductions in instructional supplies in accordance with the enrollment drop.				
64					
65	EQUIPMENT: A total of \$55,851, or \$12,389 over 1950-51 is provided to equip new or inadequate instructional facilities (\$27,000)				
66	provide needed library books (\$16,500), improve maintenance equipment for the growing campus (\$4,300), and equip a new health				
67	unit and a system for recording academic records (\$8,000).

LONG BEACH STATE COLLEGE

two-year upper division liberal arts college with a primary function of teacher training. This school was established in the fall of 1949 in temporary quarters near the City of Long Beach, and was temporarily designated the Los Angeles-Orange County State College. On June 7, 1950, the Director of Education officially named the school the Long Beach State College, and accepted a gift of 316 acres of land from the City of Long Beach for a permanent campus site.

Located at Long Beach

50					(30.7%)
51	Cost per student -----	-	\$35	\$36	\$1
52					(2.9%)
53					
54	Due to the limitations of this school's present rented quarters, a maximum enrollment of 600 full-time-equivalent students has been reached				
55	in 1950-51. It is therefore necessary to move the college to its new campus site in the budget year, and provide sufficient temporary				
56	buildings to house 1,500 students. Additional operating expenditures and personnel to meet this enrollment will result in an increase				
57	over the current year of \$351,309, or 101.8 percent, as follows:				
58					
59	SALARIES AND WAGES: An increase of \$320,484 provides 55.6 new teaching positions at a student-teacher ratio of 16-1. Additional				
60	clerical assistance of 18 new positions, and 5.5 new administrative positions are allowed in keeping with over-all state college staffing				
61	patterns. A new maintenance staff of 7 positions is also provided, as such services are at present furnished under rental provisions.				
62					
63	OPERATING EXPENSES: An increase of \$30,828 is accounted for by a provision for payments to local school districts of \$13,500 for				
64	master teaching, and by teaching service increases of \$16,200 directly related to rising enrollments. Additional minor increases in				
65	general operating expenses are offset by savings in rental costs at the new site.				
66					
67	Expansion of enrollment at this college is directly related to a capital outlay project in a different section of this budget to erect suffi-				
68	cient temporary buildings at the new campus to house 1,500 students. These buildings would provide classroom and office space for				
69	several years until permanent campus buildings could be erected, and would later serve as corporation yard structures on a perma-				
70	nent basis.

Department of Education

LOS ANGELES STATE COLLEGE OF APPLIED ARTS AND SCIENCES

A two-year upper division college with two primary functions: One is the training of public school teachers; the other, cooperative education for service in local business and industry. The school is temporarily located on the campus of the Los Angeles City College, under rental agreement with the Los Angeles City School District.

Located at Los Angeles

19	Summer session -----	8,534	12,000	7,200	
20	Allocation from Emergency Fund -----	121,115	-	-	
21	Allocation from Salary Increase Fund -----	19,622	-	-	
22	Unexpended balance, estimated savings -----	-68,683	-172,220	-	
23	TOTAL EXPENDITURES -----	\$720,711	\$1,258,416	\$1,401,157	
24	GENERAL ANALYSIS				
25	Number of positions -----	160	210	229	19
26	ENROLLMENT AND UNIT COSTS				
27	Regular Session:				
28	Enrollment (full-time equivalent students) -----	1,784	2,530	2,800	270
29	Cost per student -----	\$379	\$474	\$475	(10.7%)
30	Summer Session:				
31	Enrollment (individuals) -----	1,450	2,011	2,400	\$1
32	Cost per student -----	\$30	\$30	\$30	(0.2%)
33	Additional enrollment of 270 full-time equivalent students in the budget year is directly responsible for an increase of \$142,741, or 11.3 percent over 1950-51 as follows:				
34	SALARIES AND WAGES: An increase of \$81,892, or 8.4 percent provides 17 new teaching positions at a student-teacher ratio of 16-1. An additional 1.5 administrative and 6 clerical positions are also allowed in keeping with over-all state college staffing patterns.				
35	OPERATING EXPENSES: An increase of \$60,949, or 20.1 percent is accounted for primarily by provision for payments to local school districts of \$20,000 for master teaching, and by \$22,500 increased rental costs for plant facilities at the Los Angeles City College. Increases in teaching and library operating costs are also necessary to meet the needs of expanding enrollment.				
36	No change in location is contemplated for the budget year, as additional facilities will be made available at the City College campus under rental agreements with the Los Angeles City School District.

36	Cost per student -----	\$29	\$31	\$36	(7.03%)
37					\$5
38					(16.1%)
39	As permanent facilities at the college's new campus will not be available for occupancy during the budget year, additional quarters will be rented to accommodate an increase of 185 full-time equivalent students. These factors will result in an increase over the current year of \$116,158, or 17.8 percent, as follows:				
40	SALARIES AND WAGES: An increase of \$84,793, or 16.1 percent provides 10.6 new teaching positions at a student-teacher ratio of 16-1. An addition of eight clerical positions are also proposed in conformance with over-all state college staffing patterns.				
41	OPERATING EXPENSES: An increase of \$31,115 is necessary to provide additional classroom space (\$11,000) for increased enrollment, provision for payments to local school districts (\$9,000) for master teaching, and added instructional and library supplies and services (\$7,000) in proportion to expanded enrollment.

Department of Education
SAN DIEGO STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. Located in an area particularly affected by defense industries and military expansion, this school is much more susceptible to fluctuations in enrollment than the other state colleges.

48					(27.1%)
49	Cost per student -----	\$31	\$35	\$33	—\$2
50					(5.7%)
51	In line with a sharp decrease in enrollment already experienced in the current year, this college is budgeted with an additional enrollment drop of 150 full-time equivalent students for 1951-52, or 3,600 students. Completion of some units of the building program plus rising prices, combine to offset the savings in instructional positions effected by decreasing enrollment, resulting in a net increase of \$10,008, or 0.5 percent over 1950-51, as follows:				
52					
53					
54					
55					
56	SALARIES AND WAGES: The decrease of \$12,758 results from the reduction of 8 teaching positions to conform to a student-teacher ratio of 19-1, and a curtailment of summer session salaries which are self-reimbursing in nature. These cut-backs are partially offset by the necessity for 9 new maintenance positions to care for newly-opened facilities, 6 clerical positions for assistance to instructional and supervisory functions, and 2.2 administrative positions to meet over-all state college staffing patterns for this function.				
57					
58					
59					
60					
61					
62	OPERATING EXPENSES: The increase of \$12,388 is accounted for by provision for payments to local school districts (\$10,200) for master teaching, additional maintenance (\$1,500) and utility (\$6,500) costs to maintain new buildings, and adjustments in telephone and postage charges (\$3,000). These increases are partially offset by reduced allowances for teaching supplies and library services because of declining enrollments, and curtailment of summer session costs.				
63					
64					
65					
66					
67	EQUIPMENT: The total of \$99,329, or \$10,378 over 1950-51, consists almost entirely of instructional equipment required for proper operation of classrooms and laboratories (\$65,000), and books and other library equipment (\$25,000). Maintenance equipment for new buildings and additional personnel will cost \$6,500, while an additional \$2,500 is provided to facilitate the handling of academic records and registration materials.

Department of Education
SAN FRANCISCO STATE COLLEGE

A four-year liberal arts college specializing in teacher training. In connection with its curricula for training nursery school teachers and for other preschool studies the college has operated a child care center, in addition to its regular elementary demonstration school.

66	Cost per student-----	\$25	\$27	\$32	\$5
67					(18.5%)
68					
69	The first units of this college's new campus are scheduled for completion in the 1950-51 and 1951-52 years, thus permitting a slight				
70	increase in enrollment of 90 full-time equivalent students in 1951-52. Added costs caused by the necessary operation of two campuses				
71	will be present at this school until the building program already appropriated or planned for the new campus can be completed. Due				
72	largely to the above factors of two-campus operation and added enrollment, expenditures will be increased \$216,719, or 10.2 percent				
73	over 1950-51, as follows:				
74					
75	SALARIES AND WAGES: The increase of \$137,732, or 7.6 percent, results primarily from 17.7 new teaching positions granted on a				
76	student-teacher ratio of 19-1, six technical and clerical positions allowed for expanding enrollments of the current and budget years,				
77	and eight positions necessary to operate two campuses simultaneously. An additional 1.7 administrative positions are provided in				
78	accordance with over-all state college administrative organizational patterns, and one graduate nurse is included for the new student				
79	health center at the new campus.				
80					
81	^a Authority for operation of child care centers expires February 15, 1951. Legislation to be proposed to extend authority and provide defi-				
82	ciency appropriation to June 30, 1951.

LINE	EXPENDITURES				ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1								
2	GENERAL ANALYSIS—Continued							
3								
4	OPERATING EXPENSES: The increase of \$52,409 is accounted for by provision for payments to local school districts (\$29,110) for							
5	master teaching services, necessary increases in teaching supplies and library services (\$4,000) for augmented enrollment, added							
6	maintenance and utility costs (\$11,000) due to operation of two campuses, and a self-reimbursing increase in summer session costs.							
7								
8	EQUIPMENT: The total of \$107,782, or an increase of \$26,578 over 1950-51 is made up almost entirely of class teaching items needed							
9	to properly equip classrooms and laboratory facilities (\$60,500), books and other library items (\$29,000), and equipment for addi-							
10	tional teaching personnel and maintenance needs (\$11,000). Administrative equipment has also been augmented by \$6,000 to facili-							
11	tate the handling of academic records and registration materials, and to supply equipment for new personnel.

Department of Education
SAN JOSE STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. The school is operated in conjunction with the San Jose Junior College on the State College campus. Demonstration teaching is conducted in the public schools, as opposed to the standard practice at other state colleges of operating an elementary demonstration school for this purpose.

Located at San Jose

37	Cost per student -----	\$27	\$34	\$33	\$1
38					(-2.9%)
39	Stabilization of this college's enrollment at 6,000 full-time-equivalent students will result in an increase of 400 students in the budget year. Additional physical education facilities will also be available, as well as temporary quarters in several residences adjoining the campus area. Augmented personnel and operating expenses to meet these situations will result in an increase over 1950-51 of \$151,448, or 5.7 percent, as follows:				
40	SALARIES AND WAGES: An increase of \$77,106 is caused by the addition of 6 maintenance positions for new facilities, 3 additional library employees and 6.5 clerical assistants for increased enrollment, 2 equipment technicians and 3.7 administrative personnel to conform to over-all state college staffing patterns, and 0.5 teacher on a student-teacher allowance of 19-1.				
41	OPERATING EXPENSES: An increase of \$50,817 is accounted for by provision for payments to local school districts of \$30,000 for master teaching, and by increases of \$10,200 in teaching supplies and library services directly related to increased enrollment. New facilities will cause an increase of \$4,000 for utilities, and an additional \$2,400 is provided for summer session costs which are offset by added student fee revenues.				
42	EQUIPMENT: A total of \$125,379, or \$23,525 over 1950-51 consists almost entirely of additional items needed for added personnel (\$4,000), to properly equip classrooms and laboratories for increased enrollment and minimum curricular needs (\$75,000), and to maintain adequate library facilities (\$37,000). Maintenance equipment has been augmented by \$4,000 to properly service new facilities, and \$2,000 of recording and printing items have been provided to facilitate the handling of academic records.

Department of Education

CALIFORNIA STATE POLYTECHNIC COLLEGE

A technical college providing occupational training in agriculture, engineering and industry, and in selected liberal arts fields. The college grants a Bachelor of Science degree in agricultural, engineering, and liberal arts; and has been accredited for granting a general secondary credential, a special secondary credential in vocational agriculture, a special secondary credential in physical education, and the special secondary limited credential in agriculture. In addition a program for graduate study leading to a Master of Arts degree is provided. Two-year vocational and three-year technical curricula are offered in all agricultural majors. Two and three-year technical curricula are offered in all engineering majors. The college maintains two branches in Southern California—the Voorhis Campus located at San Dimas, and the nearby Kellogg Campus located at Pomona. The Voorhis Campus offers programs in agricultural inspection, citrus fruit production, and ornamental horticulture. The Kellogg Campus, consisting of 812 acres acquired by gift deed November 1, 1949, is for expansion of the instructional facilities at this branch.

A slight decrease in instructional activities due to declining enrollment of 251 students under 1950-51 will be offset in the budget year by rising prices and increasing maintenance costs, resulting in a net increase of \$10,040, or 0.5%. Additional library expenses and provision for payments for master teaching are in conformance with other state college allotments. Two new clerical positions are also included to provide stenographic and typing assistance to administrative positions. The budgeted drop in enrollment results from the growing seriousness of world conditions, and reflects itself at this college more sharply than at other state colleges because only men are enrolled at present. Declining enrollment and decreasing numbers of veteran students will cause a drop of \$69,905 in student fees available for support. In conjunction with the \$10,040 increase in expenditures, this decrease in revenues results in an over-all additional cost to the Fair and Exposition Fund of \$79,945, or 4.7% over 1950-51.

CALIFORNIA MARITIME ACADEMY

The California Maritime Academy trains young men to become licensed officers in the Merchant Marine. In addition, graduates are appointed ensigns in the U. S. Maritime Service and also are issued appointments as ensigns in the U. S. Naval Reserve. Three-year courses are offered leading to a Bachelor of Nautical Science Degree in navigation and seamanship and in marine and electrical engineering. Prior to graduation, candidates for the degree take the U. S. Coast Guard examinations for licenses as third mates or third assistant engineers. The academic course is supplemented by training at sea approximately three months each year on the Training Ship Golden Bear, which is on loan to the State from the U. S. Maritime Commission.

The State receives for the Academy an annual subsidy (currently \$25,000) for general overhead and 75 cents per diem for subsistence for qualified Naval Reserve students from the Federal Government. The Maritime Commission pays directly for the annual overhaul and drydocking of the training ship.

GENERAL ANALYSIS

21					
22					
23					
24					
25	Number of positions	61	64.6	64.6	
26					
27	ENROLLMENT AND UNIT COSTS				
28	Average enrollment	113	130	150	20 (15.4%)
29					
30	Cost per student	\$2,633	\$2,364	\$2,133	—\$231 (—10%)
31					
32	The academy's average enrollment will expand from 130 students in 1950-51 to 150 in 1951-52. This will represent a peak enrollment of				
33	166 students with 122 quartered in shore dormitory facilities and 44 quartered on board the ship.				
34					
35	SALARIES AND WAGES: No new positions are requested for the budget year. A medical technical assistant was added during 1950-51				
36	to replace a similar position withdrawn by the Navy due to mobilization.				
37					
38	OPERATING EXPENSES: A net increase in Operating Expenses of \$10,769 in the budget year is broken down into the following				
39	major changes: a decrease in printing expense (school catalogs) \$1,150; an increase in feeding expense, \$6,939, due to increased				
40	enrollment; and an increase in fuel oil for the ship of \$3,000 to provide for an 11,000-mile cruise.				
41					
42	EQUIPMENT: A total of \$4,480 is recommended which is a decrease of \$2,263 from 1950-51. Except for \$915 worth of kitchen equip-				
43	ment requested for expanded enrollment, this amount represents various small items required for instruction and maintenance of				
44	the academy.

Department of Education

CALIFORNIA SCHOOL FOR THE BLIND, BERKELEY

The California School for the Blind is a residential school for general education of blind, partially blind, and deaf-blind children through the elementary and secondary school levels. The education of the blind requires special equipment, particularly library and writing facilities, models for tactual study, and apparatus for corrective physical education. The school does successful vocational rehabilitation work. Guidance service is rendered to graduates and ex-pupils by the school's field service. The deaf-blind unit is the only one in the western part of the United States where these doubly handicapped children may be educated.

37					
38	The opening of the Helen Keller Unit, October, 1950, for deaf-blind students completed the expansion program at this school. The only				
39	major change in program is the transfer of the hospital unit from the California School for the Deaf to the School for the Blind and				
40	the transfer of the power plant and grounds maintenance operations from the School for the Blind to the School for the Deaf.				
41	Reimbursement for students in the hospital from the School for the Deaf is calculated quarterly, based on percent of patient day's				
42	usage. The reimbursement for power plant and grounds maintenance operations is calculated on estimated useage of three-fourths				
43	School for the Deaf and one-fourth School for the Blind. Additional help has been added at the hospital to allow a 24-hour coverage.

Department of Education

CALIFORNIA SCHOOL FOR THE DEAF, BERKELEY

The California School for the Deaf is a residential school admitting mentally normal deaf children 5½ to 21 years of age. Pupils are given elementary and high school education, training in speech development and lip reading, opportunity to learn the fundamentals of a trade and careful moral and character education.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51

28					
29					
30					
31	GENERAL ANALYSIS				
32					
33	Number of positions-----	128.7	134.8	186.2	51.4
34					
35	ENROLLMENT AND UNIT COSTS				
36	Average Student Enrollment:				
37	Resident-----	338	338	452	114 (33.7%)
38					
39	Nonresident-----	20	20	40	20 (100%)
40					
41	Cost per student-----	\$1,475	\$1,678	\$1,559	—\$119 (—7.1%)
42					
43	Students attending Gallaudet College-----	24	18	17	—1 (—5.6%)
44					
45	Cost per Gallaudet student-----	\$282	\$438	\$438	-
46					
47	The completion of additional facilities during the next fiscal year will allow an enrollment increase of 134 students or 452 residential				
48	students and 40 nonresidential students. These facilities could not be completed as planned in 1950-51 and the portion of the				
49	appropriation intended for expansion will therefore revert.				
50					
51	SALARIES AND WAGES: A total increase of \$124,582 in salaries includes 53 new positions costing \$121,828 for staffing the				
52	increased capacity and enrollment in 1951-52. New positions include 15 teachers, 19 counselors, 8 janitors, 2 cooks, and additional				
53	kitchen help in keeping with the increased enrollment. The balance of the increase is due to the transferring of the operation of				
54	the power plant and maintenance of grounds to the School for the Deaf and transferring the operation of the hospital to the School				
55	for the Blind.				
56					
57	OPERATING EXPENSES: An increase of \$49,334 is due primarily to increased feeding cost of \$25,665, laundry \$4,000, and light,				
58	heat, and power \$4,550, to cover the increased enrollment and price increases.				
59					
60	EQUIPMENT: The request of \$17,161 includes the replacement of the dining room tables and chairs at a total estimated cost of \$9,310.				
61	Other major items are additional equipment for kitchen, \$575, due to increased enrollment; additional teaching equipment, \$3,577;				
62	replacement of earphones and microphones, \$576.

CALIFORNIA SCHOOL FOR THE DEAF, RIVERSIDE

The California School for the Deaf at Riverside is to be a residential school with an ultimate capacity of 500 students. Only mentally normal deaf children 5½ to 21 years of age will be admitted. Pupils will be given an elementary and high school education with training in speech development and lip reading and opportunity to learn the fundamentals of a trade.

18	This new school for the deaf is estimated to be completed June, 1952, and students to be enrolled beginning September, 1952. The services of a superintendent were contracted effective February, 1951, and while serving with the Division of Special Schools and Services prior to completion of the school will plan, organize, and recruit for the opening of the school. A secretary has been included to provide stenographic services to the superintendent.

SCHOOL FOR CEREBRAL PALSID CHILDREN, NORTHERN CALIFORNIA

A residential school for the education and treatment of children afflicted with cerebral palsy, temporarily located at Redwood City until 1951-52. Students are enrolled from 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment by the State Department of Public Health, and for special education in the local district schools. A diagnostic treatment center is maintained through cooperation with the University of California School of Medicine, which provides diagnoses and clinical treatment for all children with cerebral palsy who are referred to the center.

17	Major program changes for the budget year are: the contemplated move to new quarters at San Francisco State College housing 28 residential students and 12 day students, the reduction of four hospital attendants due to decrease in number of residential students at new quarters, and the addition of one junior clerk to act as receptionist in the new building. Additional funds are provided for moving expenses, and restoration of presently-occupied leased facilities in 1951-52. Estimated completion date of the new facilities is November 1, 1951, at which time the above-budgeted changes will take effect.

Department of Education

SCHOOL FOR CEREBRAL PALSIED CHILDREN, SOUTHERN CALIFORNIA

A residential school for the education and treatment of children afflicted with cerebral palsy, temporarily located at Altadena. Students are enrolled 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment by the State Department of Public Health, and for special education in the local district schools. A diagnostic treatment center is maintained under contract with the Childrens Hospital and the Orthopedic Hospital in Los Angeles, which provides diagnosis and clinical treatment for all children with cerebral palsy who are referred to the center.

Department of Education

TRAINING CENTER FOR ADULT BLIND, OAKLAND

The Training Center for Adult Blind at Oakland provides sheltered factory employment to blind and partially blind persons who are not able to obtain or retain jobs in private industry. Residential facilities are available for 110 blind persons. The educational and vocational activities are a direct charge against the support budget. Manufacturing activities are financed from working capital supplied by the Workshops for the Blind Manufacturing Fund shown in the Appendix.

INDUSTRIAL WORKSHOP FOR THE BLIND, LOS ANGELES

The Industrial Workshop at Los Angeles supplies sheltered factory employment to blind and partially blind persons who are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The educational and training activities are a direct charge against the support budget. Manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund.

33					
34	POPULATION AND UNIT COSTS				
35	Average number of workers in factory	150	230	306	76
36	Average number of workers in Opportunity Work Center	—	—	30	30
37	Cost per factory worker	\$1,163	\$860	\$631	—\$229
38					(—26.6%)
39	Cost per Opportunity Work Center worker	—	—	\$167	\$167
40					
41	An Opportunity Work Center is being added in the budget year at a cost of \$5,020. This will allow the training program to be operated				
42	outside of the manufacturing operations.				
43	The position of workshop foreman is to be transferred from the support budget to the manufacturing fund.				
44	The operating cost of feeding supplies is being transferred to the entertainment fund and a part time position of kitchen helper is				
45	proposed in lieu thereof.

Department of Education

STATE BLIND SHOP, SAN DIEGO

Provides sheltered factory employment to blind and partially blind persons who are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The educational and training activities are a direct charge against the support budget. Manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund as shown in the Appendix.

TEACHERS' RETIREMENT SYSTEM

Administers, through the State Teachers' Retirement Board, the Teachers' Retirement Act. Computes, collects, records, invests, and refunds contributions, and computes and pays retirement benefits. Members of the system consist of certificated employees of the Public School System and employees of state departments holding valid teaching credentials.

14					(5.6%)
15					
16					
17	GENERAL ANALYSIS				
18					
19	Number of positions-----	27.4	27.9	29.9	2
20					
21	The Teachers' Retirement System will continue on the same level of service in 1951-52 as in the present year. Increased expenditures will				
22	result from an increasing work load of active and retired accounts. Anticipated active and retired accounts by July 1, 1952, will be				
23	134,200 as compared with 111,024 active and retired accounts on July 1, 1950.				
24					
25	SALARIES AND WAGES: Increase of \$210 is accounted for as follows:				
26	A decrease of \$5,000 in temporary help which was required in 1950-51 for the actuarial valuation study, is offset by adding two				
27	junior clerks at \$4,080 and merit salary increases of \$1,382.				
28					
29	OPERATING EXPENSES: An increase of \$2,214 is due to expanded costs of supplies, printing, and postage directly attributable to				
30	expanded work load. Additional rent has been included in anticipation of securing other quarters when the present lease expires on				
31	February 1, 1951.				
32					
33	EQUIPMENT: A total of \$7,343 is recommended, an increase of \$4,747 from 1950-51. Increased equipment requests are based on the				
34	anticipated move into more adequate quarters where it will be possible to make long delayed expansion of the files. In addition to files,				
35	other equipment includes desks, chairs, automatic calculators, and typewriters.				
36

^b Excludes expenditures and enrollment, if any, for the following activities and functions: (1) Summer Sessions and Extension Divisions; (2) Organized Research Activities—such as the Scripps Institute of Oceanography at La Jolla, the Citrus Experiment Station at Riverside, Lick Observatory at Mt. Hamilton, the Institute of Experimental Biology, etc. (however, unit costs include expenditures for research and investigation carried on by academic personnel under departmental auspices. These are particularly significant in the College of Agriculture at Davis, Berkeley, and Los Angeles, and in the Medical Center at San Francisco); (3) School of Medicine at Los Angeles; College of Arts, Letters and Science at Riverside, and College of Letters and Science at Davis, which are new activities not yet enrolling students; (4) Auxiliary Enterprises, such as dormitories and dining halls (however, unit costs include expenditures for student health service); and (5) Organized activities—educational departments such as the University Creamery at Davis, and the Optometry Clinic at Berkeley, which are supported out of their own income (however, unit costs include expenditures for the University Hospital at San Francisco in excess of its income).

HASTINGS COLLEGE OF LAW

The Hastings College of Law was founded in 1878 by S. C. Hastings with the grant of \$100,000 to the State through the Regents of the University of California. By stipulation in the original agreement the State must pay the sum of 7 percent interest on the grant or repay the \$100,000 in full to a Hastings heir. According to the act creating the college, it is affiliated with the University of the State "and is the law department thereof."

The college offers facilities for the acquisition of learning in all branches of the law, and to this end it has established a complete curriculum of studies, and matriculates students who are granted the degree of "Bachelor of Laws."

Located at San Francisco

BOARD OF CONTROL

The board makes rules and regulations (a) governing the presentation and audit of claims, (b) relating to the amount and methods of traveling on official business of the State, and (c) relating to the making of Merit Awards. Other functions include considering, auditing, and recommending to the Legislature, claims against the State for which no appropriation has been made.

GENERAL ANALYSIS

Number of positions----- 1 1 2 1

The increase in this budget for the 1951-52 Fiscal Year results from increased work load as shown in the following table:

	ACTUAL 1948-49	ACTUAL 1949-50	ESTIMATED 1950-51	ESTIMATED 1951-52
Number of board meetings	24	22	26	30
Legislative claims filed	479	544	668	818
Petition for discharge from accountability	174	267	277	286
Claims for refunds	1,287	1,031	1,121	1,315

Significant changes in the expenditures categories follow:

SALARIES AND WAGES: Increase of \$2,045 for the new position of intermediate stenographer-clerk required due to increase in work load as shown above.

EQUIPMENT: Total requested \$536 includes \$365 for equipment for the new stenographer-clerk, an additional file in amount of \$121, and the balance for small miscellaneous items.

STATE CONTROLLER

The State Controller is the accounting and disbursing officer for the State and is responsible for legality of all payments and for the receipt of moneys due the State. He supervises the assessment and collection of state inheritance and gift taxes, collects the motor vehicle fuel tax, petroleum and gasoline assessments and motor transportation license taxes, assists county and city officials in maintaining required accounting and budgetary records and prepares reports of their financial transactions, makes refunds of motor vehicle fuel taxes, leases lands deeded to the State for nonpayment of taxes, and audits expenditures made by local governments under the Local Postwar Public Works, Plans and Sites Law, Local Postwar Construction Law, State School Building Loan Act, and the Collier-Burns Act.

14							
15	ACCOUNTING DIVISION						
16							
17	Analysis						
18							
19	The principal function of this division is to maintain a central control of all state appropriations on a cash basis. Except for the addi-						
20	tion of the duties required by Chapter 1389, Statutes of 1949, no significant change in this function is anticipated.						
21	The total decrease for the division below 1950-51 is \$15,934, categorically as follows:						
22							
23	SALARIES AND WAGES: The \$9,680 increase represents a 2 position decrease in vacant positions at a cost of \$5,000, and the fol-						
24	lowing 2 new positions at \$4,680:						
25	1 Bookkeeping machine operator to post the Public School Building Loan Fund accounts required by Chapter 1389-49.						
26	1 Intermediate typist-clerk is needed for both the State Treasury System and the Public School Building Loan Fund program.						
27							
28	OPERATING EXPENSES: The \$23,078 decrease represents the elimination of light, heat, and power and rental expense for 1951-52						
29	due to the move to the new Capitol Annex.						
30							
31	EQUIPMENT: A total of \$6,254 is proposed, which is a decrease of \$2,536 below 1950-51. The \$6,254 represents: \$3,495 in additional						
32	equipment, including a \$3,086 bookkeeping machine for the proposed new positions; \$2,305 for additional files and miscellaneous						
33	items required for the normal increase in unclaimed property records and for the new school building program; and \$454 for replace-						
34	ment of an obsolete and worn-out adding machine and typewriter.						
35

38	AUDITS DIVISION						
39							
40	Analysis						
41							
42	The Audits Division reviews and determines legality of all claims submitted for payment by state and local government agencies.						
43	The total increase in this function over 1950-51 is \$9,787, categorically as follows:						
44							
45	SALARIES AND WAGES: The \$6,146 increase represents an anticipated 1.5 decrease in vacant positions at a cost of \$4,106, and						
46	one new junior clerk for the claim audit unit at \$2,040, to relieve the claim auditors of minor clerical duties in order that they may						
47	devote more time to the technical phases of their work.						
48							
49	OPERATING EXPENSES: The \$5,257 decrease is primarily the result of the elimination of rental expense by moving to the new						
50	Capitol Annex.						
51							
52	EQUIPMENT: The total of \$2,545 requested represents an \$852 decrease below 1950-51. Of the proposed amount \$137 is to equip the						
53	new position, \$906 is for three portable adding machines needed by the field staff, \$954 is for necessary files and miscellaneous equip						
54	ment items, and \$548 is for the replacement of a worn out adding machine and a typewriter.						
55	The remaining \$9,750 increase represents a decrease in reimbursements previously received by special appropriation from the						
56	General Fund. The same volume of work will be performed in 1951-52, however, the payment for the service will be made directly						
57	from the Public School Building Loan Fund and not as a reimbursement.						
58

21	DISBURSEMENTS DIVISION						
22							
23	Analysis						
24							
25	This division performs the State Controller's duties in regard to the disbursement of state funds.						
26	During 1949-50 a new centralized pay roll program was placed in operation in the Disbursements Division. In the current year 17 more						
27	positions were added, which increased the total authorized position strength for this purpose to 66. The 17 positions are required to						
28	maintain a personnel control procedure which is a necessary part of the existing system. The program, as augmented, is now under						
29	study by a committee made up of representatives of the Legislative Auditor's staff, the State Controller's office, the State Personnel						
30	Board, and the Department of Finance.						
31	The total decrease for this function is \$3,388. Other than an anticipated decrease in vacant positions at a cost of \$11,400, and an offset						
32	ting decrease in light, heat and power and rent of \$14,543 due to the move to the new Capitol Annex, no significant changes are						
33	reflected.						
34

22	INHERITANCE AND GIFT TAX DIVISION						
23	Analysis						
24	The Inheritance and Gift Tax Division assesses and collects inheritance and gift taxes, and administers inheritance and gift tax laws.						
25	No change in program is proposed for 1951-52. Under Equipment, the total of \$9,661 proposed for 1951-52 is a decrease of \$2,307 from						
26	1950-51, and includes \$548 in desks, chairs, and tables for personnel transferred to the Los Angeles office, \$3,259 for normal expansion						
27	of filing space, \$1,091 in dictograph equipment for necessary improvement in service, \$2,070 for necessary legal books and mis-						
28	cellaneous equipment, and \$2,693 for replacement of old and obsolete equipment.

TAX COLLECTION DIVISION						
Analysis						
This division collects motor vehicle transportation license taxes, fuel taxes, insurance company taxes, and petroleum and gas taxes. No change in program is proposed for 1951-52. The increase of \$4,968 over 1950-51 consists entirely of equipment requests. Under equipment, a total of \$6,942 is proposed of which \$5,302 is for replacement of two bookkeeping machines that are inadequate for the present work load. \$870 is for necessary additional desks, chairs, and miscellaneous equipment, and \$770 is for the replacement of one automobile estimated to reach 100,000 miles in 1951-52.

Motor Vehicle Fuel Tax Refund Division

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	Motor Vehicle Fuel Fund						
2	Analysis						
3	The Motor Vehicle Fuel Tax Refund Division refunds motor vehicle fuel taxes after auditing and investigating refund claims.						
4	The program for 1951-52 is based upon an 8 percent increase in work load per year as follows:						
5	Refund claims received-----		1947-48	1948-49	1949-50	1950-51	1951-52
6			70,341	79,742	86,258	93,159	100,612
7	The total increase over 1950-51 is \$6,622, categorically as follows:						
8	SALARIES AND WAGES: The increase of \$5,747 is made up of:						
9	(a) One senior account clerk and one intermediate typist-clerk-----						\$5,052
10	On the basis of a calculation in which the estimated number of claims received in 1951-52 are divided by						
11	a given rate of production, we find that two additional positions are required to handle the increased work						
12	load in 1951-52.						
13	(b) Temporary help to handle increased work load-----						\$695
14	OPERATING EXPENSES: The decrease of \$1,069 is based on the elimination of janitor service because of the move into the						
15	Capitol Annex.						
16	EQUIPMENT: The total of \$4,294 proposed for 1951-52 is an increase of \$1,944 over 1950-51, and is made up of:						
17	(a) Typewriter, adding machine, desks, and chairs for the two new positions-----						\$809
18	(b) Adding machines and files for work load and necessary improvements-----						1,076
19	(c) Replacement of old and obsolete equipment-----						569
20	(d) Replacement of two automobiles that will reach 100,000 miles in 1951-52-----						1,540
21	SALARIES AND WAGES						
22	Chief-----	1	1	1	\$436-530	\$5,820	\$6,110

Tax-deeded Lands Division

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	Redemption Tax Fund						
2							
3	Analysis						
4							
5	The Tax-deeded Lands Division administers the general procedures for tax sales, tax deeds, and redemptions of lands deeded to the State						
6	for nonpayment of taxes; enters into leases for the rental of tax-deeded property; advises county officials regarding the levying and						
7	collection of taxes on real property; and renders service to the counties by setting up an abstract and index of tax-deeded lands.						
8	The program for 1951-52 will remain substantially the same as for 1950-51 and actual 1949-50. For this reason two positions budgeted in						
9	1949-50 but not used have been abolished during the current year. Under equipment, money has been budgeted for the replacement of						
10	one automobile and for the purchase of an additional automobile. The latter item is for assignment to an employee who travels						
11	approximately 10,000 miles a year by private automobile, and is partially offset by a decrease in mileage expenses. Reimbursements						
12	for the current and budget years will increase slightly as a result of expanded service rendered to counties in setting up an abstract						
13	and index of tax-deeded lands.						
14

BOARD OF EQUALIZATION—Continued

General Activities

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51		
1	GENERAL ANALYSIS						
2							
3							
4	Number of positions -----	2,587.4	2,676.8	2,766.4	89.6		
5							
6	Other than the program required by Section 1831 of Revenue and Taxation Code, under which the Board of Equalization is to compile						
7	sales data and sample appraisals of property throughout the State, the Board's total program for 1951-52 will be substantially the						
8	same as that provided for in 1950-51.						
9	The total increase in this budget over 1950-51 is \$409,874, categorically as follows:						
10							
11	SALARIES AND WAGES: The additional \$242,039 is proposed for the following purposes:						
12							
13							
14	Division of Assessment Standards:			NUMBER OF POSITIONS	AMOUNT		
15	1. Existing activities -----			1	\$4,980		
16	2. Section 1831 of Revenue and Taxation Code -----			33	72,832		
17	Retail Sales Tax Division -----			13	36,732		
18	Alcoholic Beverage Control Division -----			2	4,440		
19	Motor Transportation License Tax Division -----			1	3,216		
20	Motor Vehicle Fuel Tax Division -----			4	9,336		
21	Decrease in vacant positions -----			35.6	120,454		
22							
23	OPERATING EXPENSES: This category increases \$153,375, caused by numerous factors which are discussed in detail under each						
24	separate division.						
25							
26	EQUIPMENT: The increase is \$18,445, the total request being \$130,940. The major items are mentioned in each function.						
27							
28	SUPPORT EXPENDITURES	NO. OF POSITIONS					
29	DETAIL	49-50	50-51	51-52			
30		(Filled)	(Auth.)	(Auth.)			
31		ACTUAL	ESTIMATED	PROPOSED			
32		1949-50	1950-51	1951-52			
33							
34	GENERAL FUND						
35	GENERAL ADMINISTRATION						
36							
37	Analysis						
38							
39	The \$11,480 increase for the general administration function provides \$3,170 for an anticipated decrease in vacant positions and						
40	\$13,473 in operating expenses for the biennial printing of the revenue laws of California and increased membership dues for						
41	the Federation of Tax Administrators. These increases are offset by a \$5,163 decrease in the equipment category.						
42	The \$8,235 for equipment provides for the replacement of four automobiles at a cost of \$4,555 and \$1,094 for the replacement of						
43	worn-out and obsolete office equipment. Included also is provision for additional office equipment costing \$2,586 which includes						
44	\$540 for a check signer for the accounting office, \$634 to equip members of the legal staff, and \$1,412 in miscellaneous items to						
45	remedy deficiencies in existing equipment and provide for a continuing growth in personnel and accounting records.						
46

27	DIVISION OF ASSESSMENT STANDARDS						
30	Analysis						
32	The Division of Assessment Standards is concerned with the administrative responsibility of equalizing the assessment of local property						
33	between counties. To fulfill this responsibility the division is required to issue cost and other appraisal data to the county assessors,						
34	to prepare maps for county use, and in general to assist the county assessors in the performance of their duties. The existing pro-						
35	gram has been augmented by the requirements of Section 1831 of Revenue and Taxation Code, under which the board is to annually						
36	determine the relationship between the assessed value and market value of property in each county.						
37	The total budgeted increase for this function over 1950-51 is \$153,086 which consists of \$139,389 for carrying out the provisions of						
38	Section 1831 of Revenue and Taxation Code and \$13,699 in augmentation of the existing activities. Of the latter amount, \$6,010						
39	provides for one new position of Associate Estimator of Building Construction at \$4,980 to prepare and issue building cost data						
40	to county assessors, and \$1,530 for an anticipated decrease in vacant positions.						
41	For operating expenses, an \$11,032 increase, principally for printing, traveling, and automobile operation, is proposed. The Board pro-						
42	poses the additional printing funds for an Appraisal Manual, and increased volume for county surveys, the Assessors' News Letter,						
43	and miscellaneous forms. The additional travel funds are to be used for a more extensive field program.						
44	The \$2,733 increase in the equipment category provides for the replacement of one light automobile at a cost of \$1,285, for replacement						
45	of worn-out and obsolete office equipment costing \$305, and \$1,143 in miscellaneous additional office equipment.						
47	SALARIES AND WAGES

28	VALUATION DIVISION						
29	Analysis						
30	This division administers the assessment of the public utility properties in the State. As indicated by the total increase of \$4,974, which provides for an expected decrease in the number of vacant positions and for price increases, there is no significant change in the Valuation Division's 1951-52 program.

33							
34	RETAIL SALES TAX DIVISION						
35							
36	Analysis						
37							
38	This division is concerned with the assessment and collection of the retail sales and use taxes. In 1949 the Legislature added 20 positions						
39	to the division for the purpose of carrying on a Motor Vehicle Use Tax Audit Program. Other than an augmentation of the use tax						
40	function, by the proposed addition of eight more positions, there is no significant change in the division's total program for 1951-52.						
41	The total increase proposed for this division over 1950-51 is \$184,500, categorically as follows:						
42							
43	SALARIES AND WAGES: The total increase in this category is \$116,502, which provides for the following:						
44	20.5 fewer vacant positions.						
45	8 positions, five auditors and three clerks, for the Motor Vehicle Use Tax Audit, based on additional revenue which will						
46	more than offset the added cost.						
47	3 clerical positions for the headquarters collection unit to process an increasing volume of accounts receivable.						
48	1 clerk for the purpose of establishing a subdistrict office in Monterey.						
49	1 janitor position for changes in lease terms.						
50							
51	OPERATING EXPENSES: An increase of \$67,089 is proposed. Of this amount \$61,102 is for additional space required by a growing						
52	sales tax staff and increased rental rates. The remainder provides for price increases and for a decrease in vacant positions.						
53							
54	EQUIPMENT: The total of \$57,254 provides for additional equipment required to equip the 13 proposed new positions, the new office						
55	at Monterey, and three new subdistrict offices in the Los Angeles area. This amount also includes \$15,372 for the replacement of						
56	worn out and obsolete office equipment and furniture.						
57							
58	SALARIES AND WAGES

39	ALCOHOLIC BEVERAGE CONTROL DIVISION						
40	Analysis						
41	It is the function of this division to administer and enforce the Alcoholic Beverage Control Act, and to assess and collect the alcoholic beverage taxes. In general, the program for 1951-52 is expected to be substantially the same.						
42	The total budgeted increase for 1951-52 over 1950-51 is \$33,563, categorically as follows:						
43	SALARIES AND WAGES: The \$21,365 increase in this category is for the following purposes:						
44	6 Vacant positions less in 1951-52.						
45	2 New clerical positions for the Bakersfield and Richmond offices.						
46	OPERATING EXPENSES: The additional \$19,950 is required principally for price changes and for rental rate increases.						
47	EQUIPMENT: The \$19,775 proposed for equipment provides \$7,542 for the replacement of eight light automobiles. It further provides \$12,233 to equip the proposed new positions, to remedy deficiencies in existing furniture and equipment, and to replace obsolete and worn-out equipment.

BOARD OF EQUALIZATION—Continued

Motor Transportation License Tax Division

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	MOTOR VEHICLE TRANSPORTATION TAX FUND						
2	HEADQUARTERS						
3	Analysis						
4	This division of the board administers the Motor Transportation License Tax Act. Other than a proposal to intensify the enforcement						
5	of this act by the addition of one field representative for Tulare County, there is no significant change in program anticipated for						
6	1951-52.						
7	A total increase of \$8,346 over 1950-51 is proposed for 1951-52. This amount consists of the proposed new field representative at a yearly						
8	salary of \$3,216, a 2.5 man-year decrease in the number of vacant positions at a cost of \$7,160, and a \$4,546 increase in the various						
9	operating expense items—offset by a \$6,576 decrease in equipment. The \$3,215 for equipment provides \$1,743 for necessary addi-						
10	tional items, \$187 for the replacement of a worn out typewriter and other minor items, and \$1,285 for the replacement of a light auto-						
11	mobile which now exceeds 90,000 miles.

Motor Vehicle Fuel Tax Division

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	MOTOR VEHICLE FUEL FUND						
2	HEADQUARTERS						
3	Analysis						
4	This division is concerned with the assessment and collection of taxes from approximately 110 motor vehicle fuel taxpayers, from						
5	4,000 use fuel taxpayers, and since October 1, 1949 from 220 distributors of liquified petroleum gas. The proposed budget for						
6	1950-51 was based on 3,300 estimated use fuel taxpayers. However, based on a current load of 4,177 active permits the following						
7	estimate of active permits is projected for the current and budget years:						
8	ACTUAL	ACTUAL	ACTUAL	ACTUAL	ACTUAL	ESTIMATED	ESTIMATED
9	1945-46	1946-47	1947-48	1948-49	1949-50	1950-51	1951-52
10	1,876	2,343	2,581	3,101	3,865	4,638	5,566
11	The total increase for this division over 1950-51 is \$11,238, categorically as follows:						
12	SALARIES AND WAGES: The additional \$11,476 represents an anticipated 0.9 decrease in the number of vacant positions at a cost						
13	of \$2,140, and the following four proposed positions costing \$9,336:						
14	1 Accountant-auditor, grade 1.						
15	1 Junior clerk.						
16	2 Junior typist-clerks.						
17	These positions augment an existing staff of 80 authorized positions, and are required by the Motor Vehicle Fuel Tax Division						
18	to process the increasing work load explained above.						
19	OPERATING EXPENSES: The increase of \$1,357 provides for price increases, the anticipated decrease in vacant positions, and the						
20	proposed new positions.						
21	EQUIPMENT: The \$3,565 proposed for equipment is \$1,595 less than the 1950-51 amount, and is required for the following purposes:						
22	Additional for the new positions						\$636
23	Additional files, etc., for work load increases and necessary improvement						2,399
24	Replacement of worn out and obsolete equipment						530
25	SALARIES AND WAGES

DEPARTMENT OF FINANCE

maintains general supervision over all matters concerning the financial and business problems of the State. Many of the divisions of the department furnish a variety of services on a centralized basis to other state and local agencies.

Office at Sacramento

67					

^a Expenses of this function are met by charges to other agencies.

^b Supported from income appropriated by Chapter 18, Statutes of 1944 (Fourth Extraordinary Session). No further appropriation required.

^c In accordance with the provisions of Sections 13163, 13164, and 13165 of the Government Code, all expenditures of the Buildings and Grounds Division are paid from the Service Revolving Fund. Collections from special fund agencies for janitor and maintenance service, and from agencies requesting other special services, are deposited in the Service Revolving Fund. After the cost of services rendered and charged to other agencies has been deducted, the remaining expenditures are charged to the support appropriation of the Buildings and Grounds Division. The "Net Total Expenditures for Support" represent such remaining expenditures.

10								
11	General supervision of the department, supervision of leases and contracts of the State, investment of surplus funds, review of the agricultural policies of state agencies, fidelity bonds and insurance, construction activities, review of use of state-owned automotive equipment, and the operation of traffic management are the principal functions of this division.							
12	The Automotive Management Section and the Traffic Management Section became operative during the current fiscal year. The continuation of these sections for a full year as compared to only part of the current fiscal year contributes to the over-all increase.							
13								
14	SALARIES AND WAGES: The increase of \$46,474 is mainly attributable to the following:							
15								
16	Transfer of 11 permanent positions from the Buildings and Grounds Division, Automotive Section-----							
17	\$37,487							
18	4 Inspectors of automotive equipment-----							
19	\$20,267							
20	7 Garage attendants-----							
21	17,220							
22	Two proposed new positions-----							
23	\$6,144							
24	1 Intermediate stenographer-clerk-----							
25	2,772							
26	1 Transportation rate clerk-----							
27	3,372							
28	There are three clerical positions now assigned to the administrative advisor's office to assist six technical positions.							
29	The accepted clerical ratio for this type of office is two clerical to three technical positions. The existing clerical staff cannot perform the clerical work properly.							
30	The two existing transportation rate clerks are not able to do more than review freight bills. The additional position is required to furnish routing and rate information and to process claims for loss and damage against the carriers.							
31								
32	OPERATING EXPENSES: The net increase of \$4,177 consists of increases for traveling, automobile mileage, and services of laundry consultants largely offset by decreases in rent of building space and advisory services of communication engineers and technicians.							
33	The increased amounts for traveling and automobile operation are required by the inspectors of automotive equipment transferred to this function.							
34	It is proposed that contractual services of special consultants or survey firms be obtained to make studies in such fields as laundry management and group feeding in the various state institutions, prisons, and resident schools and homes. The results of these studies will be used in current operations as well as in future planning.							
35								
36	EQUIPMENT: The amount budgeted provides equipment for one additional position, \$182; three additional files, \$321; and technical and legal books, \$700.							
37

40	ACCOUNTS AND DISBURSEMENTS DIVISION						
41	Analysis						
42	Maintains the accounting, personnel, and property records of the department.						
43	SALARIES AND WAGES: The decrease of \$4,896 is the net amount estimated to be realized from the mechanization of the accounting system.						
44	OPERATING EXPENSES: The increase of \$4,200 consists of the cost of additional office space for a full year as compared to three months for the current year and other small increases and decreases.						
45	EQUIPMENT: The amount budgeted is to provide for the following:						
46	Replacement of obsolete and worn-out typewriters and chairs						\$616
47	Additional files for increased personnel and accounting records and additional calculators and adding machines for increased work and for which the office is not now properly equipped						3,107
48	Annual payment on purchase of tabulating equipment						7,497

47	AUDITS DIVISION						
50	Analysis						
51	Regular detailed examination of the books and records of all state agencies, and such other studies and special audits as are requested						
52	are the primary functions of this division.						
53	The expenditures of the division show a decrease of \$23,028. This decrease is attributable to the discontinuance of the seven positions						
54	authorized in 1949-50 to meet the increased work load caused by the adoption of Article XXV of the Constitution. The repeal of						
55	this article has reduced the audit requirements for the Department of Social Welfare.						
56	The budget provides the following equipment:						
57	Replacement of three adding machines and twelve brief cases ----- \$1,120						
58	Four additional files, books, etc. ----- 734						
59	Replacement of one light automobile ----- 945

25	DIVISION OF BUDGETS AND ACCOUNTS						
26	Analysis						
27	This division prepares and presents the Governor's Budget; reviews and approves fiscal year working budgets for each state agency; admin-						
28	isters budgetary control, allocates the Emergency Fund and other lump sum appropriations; does research and analysis of economic						
29	conditions, revenue yields; expenditure trends and other developments affecting over-all state financial affairs and fiscal policies						
30	designs, installs and supervises accounting systems of all state agencies; and surveys, analyzes and recommends improvements o						
31	the administrative structure and procedures of state agencies.						
32	The expenditures of this division remain at the same level as during the current year. The decrease of \$1,227 represents a reduction in						
33	equipment partially offset by an increase of \$494 in operating expenses. The amount budgeted for equipment consists of \$462 for th						
34	replacement of worn equipment and \$800 for the purchase of a map file and legal and technical books.						
35	SALARIES AND WAGES

1							
2	PURCHASING DIVISION						
3							
4	Analysis						
5							
6	The division acts as the central purchasing agent for the State. In addition the division maintains storerooms in Sacramento, San Fran-						
7	cisco and Los Angeles, the expenditures for which are not included in the budget of this division.						
8	The increase of \$17,431 included in the budget is to strengthen the central buying agency. This increase will effectuate savings to the						
9	State in excess of the amount budgeted. The current shortages of many materials has increased the difficulty of procurement.						
10							
11	SALARIES AND WAGES: The increase of \$15,210 is attributable primarily to the following new positions:						
12	2 Junior buyers						\$7,080
13	1 Purchasing specification analyst						4,740
14	1 Intermediate stenographer-clerk						2,400
15	The junior buyers are to assist the existing senior buyers who are assigned too great a work load for proper						
16	buying, and to be trained as replacements for the senior buyers approaching the retirement age.						
17	The purchasing specification analyst will act as head of a committee looking toward standardization of an						
18	enlarged number of items used by the State in quantity, will revise and develop specifications to						
19	meet changing conditions, supervise the testing of materials offered to the State in fulfillment of						
20	orders and will do research and investigation on new materials and products offered to the State.						
21	The intermediate stenographer-clerk is required to furnish clerical assistance to the purchasing specification						
22	analyst.						
23							
24	OPERATING EXPENSES: The increase of \$1,300 consists of \$200 for office, \$500 for traveling, and \$600 for laboratory. These						
25	increases result from the proposed positions and provides for making additional tests of materials received by the State.						
26							
27	EQUIPMENT: The amount budgeted will provide the following:						
28	Replacement of office furniture and equipment no longer useable						\$3,493
29	Equipment for new employees						1,787
30

34	Net Totals, Parcel Post Delivery Service-----				\$211	-	-
35	PUBLIC WORKS AND ACQUISITION DIVISION						
36	Analysis						
37	The work of the division is estimated to continue at the same level as during the current year. The increase is all attributable to price increases and fuller employment of presently authorized positions. The amount budgeted for equipment is to replace obsolete equipment amounting to \$202 and the purchase of one additional file and one table.						
38	SALARIES AND WAGES						
39					SALARY RANGE

21	LIQUIDATION OF SURPLUS EQUIPMENT AND LEASES, DEPARTMENT OF SOCIAL WELFARE						
22	Analysis						
23	The work of liquidating the leases and equipment acquired by the Department of Social Welfare for the administration of Article XXV						
24	of the Constitution was assigned to this unit. It is estimated that most of the equipment will be disposed of by June 30, 1951; how-						
25	ever, the State will be required to pay rent in many cases but will receive reimbursement for the major portion of the payments. The						
26	decrease in the gross expenditures reflects the curtailment of the program which is offset by decreased reimbursements expected to						
27	be received from sale of equipment.

DEPARTMENT OF FINANCE

Buildings and Grounds Division

This division maintains state-owned and leased buildings and grounds in Sacramento, San Francisco, and Los Angeles. Its staff reviews for approval all leases of real property for use by state agencies.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS				
2					
3					
4	Number of positions-----	576.2	712.2	744	31.8
5					
6	The largest portion of the \$278,509 increase is attributable to the cost of maintaining the State Capitol Annex on a full year basis as				
7	compared to only a part of the 1950-51 Fiscal Year, and the cost of maintaining the annex to the Public Works Building for a part				
8	of the budget year. It is estimated that the annex to the Public Works Building will be ready for occupancy by February 1, 1952.				
9					
10	SALARIES AND WAGES: The increase of \$136,866 is attributable to the following:				
11	(a) 35 New positions for maintaining and operating the annex to the Public Works Building-----				\$33,660
12	2 Positions for heating and air conditioning-----				\$2,620
13	27 Positions for cleaning the building-----				25,085
14	3 Positions for operating the elevators-----				2,700
15	3 Positions for maintaining building and grounds-----				3,255
16	(b) 13 New positions required as a result of greater work load-----				\$47,432
17	Administration:				
18	1 Administrative officer-----				\$6,060
19	1 Rental property manager-----				6,672
20	1 Intermediate stenographer-clerk-----				2,400
21	The administrative officer is required for the supervision of office procedures involving internal budgeting,				
22	cost analysis, personnel procedures, management and reporting. Exercising control over the 751 permanent posi-				
23	tions authorized, and the responsibility for maintenance and operation of more than 3,000,000 square feet of				
24	space in state-owned and leased buildings, is too great a work load for the chief and deputy chief of the division.				
25	The office buildings now authorized for construction will require additional time from the staff in planning for				
26	their operation and maintenance.				
27	The position of rental property manager is required to assist the deputy chief in the processing of leases, investigat-				
28	ing complaints, locating space, assigning space, and determining compliance with leases. Since 1940 there has				
29	been an increase of 151 percent in the number of leases in effect. This increase has necessarily reduced the time				
30	that the deputy chief can spend on supervision of leased property.				
31	The intermediate stenographer-clerk is required to furnish clerical assistance to these positions as well as to meet				
32	the over-all work increase of the division.				
33	Sacramento Buildings:				
34	1 Intermediate clerk-----				\$ 2,280
35	1 Electrician-----				5,200
36	1 Plumber-----				5,200
37	1 Flower gardener-----				2,772
38	1 Furniture refinisher-----				3,720
39	1 Venetian blind repairman-----				3,372
40	1 Office equipment repairman-----				2,916
41	The intermediate clerk will augment the staff of the interdepartmental mail service. The work of the unit is such that it is				
42	unable to perform this service without overtime. Most of the overtime is not compensated for in cash and the granting of time				
43	off further complicates the mail service.				
44	The three positions of electrician, plumber, and flower gardener are required for the annex to the State Capitol. These positions				
45	were not previously budgeted because it was felt that the responsibility of the builder would cover the requirements of the				
46	building for the first few months of operation. The increased space in the annex cannot be properly serviced by the existing				
47	maintenance employees.				
48	The furniture refinisher is to meet a growing demand for this service. The savings to be effected by refinishing furniture rather				
49	than replacing furniture will more than offset the cost of this position.				
50	The position of venetian blind repairman is to provide a specialist in this work to meet the need for more preventive repair				
51	work as well as to service the increased number of blinds in the offices in Sacramento. At present there are numerous blinds				
52	inoperative because of lack of repairs. The cost of replacing these blinds would exceed the salary of the position.				
53	The office equipment repairman is required for the typewriter shop. It has been found that the state shop can do this repair				
54	work more economically than the commercial shops. The existing staff cannot meet the work requests and the practice of				
55	having repairs made by commercial shops has necessarily been approved.				
56	San Francisco Buildings:				
57	1 Telephone operator-----				\$2,160
58	The work of the Central Telephone Exchange requires one additional person to maintain the service. A survey made by the				
59	Division of Communications has determined the need for this position.				
60					
61	Los Angeles Buildings:				
62	1 Intermediate stenographer-clerk-----				\$2,400
63	1 Telephone operator-----				2,280
64	The intermediate stenographer-clerk is required to furnish clerical assistance to the Building Manager and his staff.				
65	The present clerical employee is not sufficient to meet the work of this office.				
66	The telephone operator is required by the increased work placed on the Central Telephone Exchange. A survey				
67	made by the Division of Communications has determined the need for this position.				
68	The remaining amount of increase in this category represents additional amounts required by the full year operation				
69	of the annex to the State Capitol partially offset by the transfer of 11 positions to the Administration Division				
70	and the transfer of three positions to the Purchasing Revolving Fund.				
71					
72	OPERATING EXPENSES: The increase of \$141,665 represents the additional cost of full year operation of the annex to the				
73	Capitol Building amounting to \$44,180 as compared to four months during the current year, operation of the annex to the				
74	Public Works Building amounting to \$14,120 for five months of the budget year, and increased costs of the Central Telephone				
75	Exchanges. The remainder of the increase is to provide for price increases and small increases and decreases in the many				
76	sub-objects.

1	GENERAL ANALYSIS—Continued				
2					
3					
4	EQUIPMENT: The amount of \$26,854 comprises the major classes of equipment, as follows:				
5	Replacement Equipment:				
6	Office furniture and equipment in poor condition				\$940
7	Scrubbing machines, vacuum cleaners, lawn mowers, etc., for maintenance purposes				7,826
8	1 light automobile operated by State Police				945
9	Additional Equipment:				
10	Equipment for new employees				1,014
11	3 Safes and 1 file for State Police offices				1,065
12	Equipment required by increased work, consisting of files, time clock, etc.				1,406
13	Hall cleaning machine, vacuum cleaners, tools, etc., for building maintenance				8,258
14	1 Dump truck and 2 pick-up trucks for use of maintenance personnel				5,400

DEPARTMENT OF FINANCE

Local Allocations Division

This division is responsible for the administration of programs involving the allocation of funds to local agencies. These include allocations from the General Fund, the Postwar Unemployment and Construction Fund, and the Public School Building Loan Fund. In addition, the division is responsible for the supervision of the management phase of the Emergency Veterans' Housing Program.

EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
--------------	-------------------	----------------------	---------------------	------------------------

GENERAL ANALYSIS

Number of positions ----- 62.4 67.1 67 -0.1

The activities of the Local Allocations Division are expected to continue at a level equal to that of the current year. Work load attributable to the various programs has changed considerably, however, and the public school building loan program will constitute 60 percent of the division's total work load in the current year, as well as in 1951-52. Programs supported from the General Fund will constitute 20 percent of the division's total work load, and the same is true of programs supported from the Postwar Unemployment and Construction Fund. This shift of work load necessitated a revision of the 1950-51 financing since appropriations were made from the three funds on the basis of a different estimate. The following table shows the change:

	FINAL 1950-51 BUDGET	REVISED 1950-51 BUDGET
General Fund -----	35%	20%
Postwar Unemployment and Construction Fund -----	45%	20%
Public School Building Loan Fund -----	20%	60%

This revision necessitates a deficiency appropriation of \$122,338 from the Public School Building Loan Fund to complete the current year. Reversions of \$48,836, and \$83,131, will occur in the General Fund and the Postwar Unemployment and Construction Fund, respectively.

An analysis by object of the \$8,554 increase in expenditures for support in 1951-52 follows:

SALARIES AND WAGES: The increase of \$5,511 is attributable to estimated full-year occupancy of positions which were not filled for the entire 1950-51 Fiscal Year.

OPERATING EXPENSES: The increase of \$1,550 is attributable almost entirely to the services of an administrative advisor for the full 1951-52 year, as compared to eight months during 1950-51.

EQUIPMENT: The amount of \$2,961 provides for the following: additional office equipment including six files, \$534; one calculator, \$569; and miscellaneous, \$200; replacement of six typewriters ranging in age from 10 to 18 years, \$768, and replacement of two obsolete adding machines, \$890.

GENERAL ANALYSIS

Number of positions----- 11.2 11.8 12.8 1

More than 50 percent of the \$14,499 increase over 1950-51 is attributable to direct expenditures to be incurred in connection with a proposed new engineering position.

The 1949 Session of the Legislature increased the cost of individual projects which can be constructed by the district agricultural associations, in place of construction by the Division of Architecture, from \$10,000 to \$35,000. This has increased the size and number of units being constructed by the associations. It has become apparent that more technical engineering assistance is necessary in connection with budgetary control, contract assistance, and review functions in this program. The maintenance supervision function of this division, concerned with the maintenance of property and equipment valued at approximately \$35,000,000, is also in need of additional engineering attention.

An analysis of the increase by object follows:

SALARIES AND WAGES: Of the \$6,313 increase, \$4,092 is for the new position, and the balance is the result of anticipated fewer vacant positions.

OPERATING EXPENSES: Of the \$5,159 increase, \$2,098 is for the new position, and the balance is attributable primarily to the major overhaul of three automobiles, \$1,200, and increased costs involved in moving to offices in the Capitol Annex.

EQUIPMENT: Of the \$3,435 requested, \$1,625 is for a new light automobile for the additional position. The balance is for the replacement of two automobiles, \$1,620, which will exceed 100,000 miles prior to July 1, 1951, and additional office equipment in amount of \$190.

47					
48					
49	GENERAL ANALYSIS				
50					
51	Number of positions -----	79	75.5	74.5	—1
52					
53	Provision is made for the same expenditure level as authorized during the current year; however, the proposed expenditures for 1951-52				
54	will exceed the estimated revenue by \$702,334. It is proposed that this deficiency be financed from: Available surplus in the				
55	amount of \$47,334; transfers from the Fair and Exposition Fund under the provisions of existing law amounting to \$140,000;				
56	and an additional transfer of \$515,000 from the Fair and Exposition Fund.				
57					
58	SALARIES AND WAGES: A further reduction has been made in the permanent staff. A part of this saving has been offset by small				
59	increases in temporary help.				
60					
61	OPERATING EXPENSES: The increase of \$21,337 is attributable to the higher percentage of premiums offered being paid amount-				
62	ing to \$3,943, \$5,000 for a special attraction to increase the attendance at the Horse Show, and increased racing purses amount-				
63	ing to \$14,786. Increased revenue more than offsets the amount budgeted for the special attraction at the Horse Show.				
64					
65	EQUIPMENT: The amount of \$30,465 includes \$17,996 for replacing office furniture and equipment, tools, canvas, show cases, one				
66	pick-up truck and one 1½ ton truck. \$12,469 has been provided to purchase additional files, exhibit tables, music stands, circulat-				
67	ing blowers, fire extinguishers, portable scaffold, ticket boxes, and miscellaneous equipment.

GENERAL ANALYSIS				
Number of positions-----	17.1	12.3	13.3	1
The over-all increase in expenditures for support, \$4,304, is attributable primarily to the transfer of one position of supervisor of exhibit installation from capital outlay to the support budget.				
This budget provides for an anticipated attendance of 800,000 as compared to an estimate of 700,000 for the current year.

ADMINISTRATION

Analysis

Executive and clerical requirements of the exposition are handled by the employees in this function. One position of supervisor of exhibit installation, \$4,512, to be transferred from capital outlay to this function in order to handle over-all exhibit planning. The cost of this position, partially offset by decreases in operating expenses and equipment, accounts for the increase of \$2,758 in administration.

56	MAINTENANCE AND OPERATION OF BUILDING							
57								
58	Analysis							
59								
60	The increase of \$1,546 for this function is accounted for primarily by the following changes:							
61	The contract with the Buildings and Grounds Division for general maintenance has been increased by \$500 to provide for repairs to							
62	the building. A new item of exhibit expense, \$1,000, has been added as a result of closing out the exhibit function, and provides for							
63	five special exhibits.

GENERAL ANALYSIS

Support

Number of positions----- 60.5 61.2 63.2 2

The increase in gross expenditures for 1951-52 over 1950-51 is \$18,032, an increase of 6%, with a minimum work load increase of 10%. Increase in estimated reimbursements of \$36,000 for administration of tideland mineral leases accounts for difference in decreased costs indicated by comparative total expenditures for support. An analysis of the increase by object follows:

SALARIES AND WAGES: Increase in the amount of \$9,829 is distributed as follows: Temporary help, \$1,608; two new positions, \$6,432. New positions requested are accountant auditor, grade 1, to audit lease royalties, which has not been done in sufficient volume in the past to prevent loss, and junior real property agent to investigate purprestures on state lands, and assist in processing leases which have increased due to the surveying activities of the division.

OPERATING EXPENSES: Major portion of the increase of \$9,717 is attributable to: Increased rent of \$3,232 to continue existing space assignments for full year; indexing of Los Angeles office engineering and mineral leasing files, a one-time project, \$4,000. Minor increases are requested for general office, engineering supplies and services, and other objects of expenditure.

Department of Finance

DIVISION OF STATE LANDS—Continued

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS—Continued				
2	Support—Continued				
3	EQUIPMENT: A decrease of \$1,514 from 1950-51. The amount requested provides for:				
4	(a) Replacement of worn, inaccurate drafting machine.....				\$270
5	(b) Additional office machines to increase efficiency, and files, cabinets, chairs, bookcases, and map filing units to provide normal facilities and for housing of records.....				\$3,949
6	(c) Replacement of oil heater bath for laboratory use, and replacement of worn surveying rods.....				\$535
7	(d) Additional laboratory equipment for testing oil and gas samples, a plain table, alidade, and other surveying equipment to cut time and save on field engineering costs.....				\$1,510
8	Other Current Expenses				
9	Expenditures for these projects are anticipated at the same level as in 1950-51.

Department of Finance

NAPA STATE FARM

The farm is under the control of the Department of Finance. Through cooperation with the state institutions, it may be utilized for agricultural or horticultural purposes or as a stock or dairy farm and may distribute to state institutions the products of the farm or the livestock. The Rector Canyon Dam is located on the farm and is the water supply for the Veterans' Home of California

16	GENERAL ANALYSIS				
17					
18					
19	Number of positions-----	4	4	4	-
20					
21	The decrease in the budget is attributable to a reduction of \$3,035 in equipment partially offset by a \$1,440 increase in salaries and				
22	wages and a \$725 increase in operating expenses. The increase in salaries and wages is to provide funds for additional temporary				
23	employees to irrigate and harvest crops on the additional land recently placed under cultivation. The increased operating expenses				
24	are to provide for minor repairs and maintenance of structures and fences as well as an increase of \$200 for planting and harvest-				
25	ing the increased acreage.

FRANCHISE TAX BOARD

This agency administers the Bank and Corporation Franchise Tax Act, the Corporation Income Tax Act, and the Personal Income Tax Law. Members of the board are the State Controller, Director of Finance, and Chairman of the State Board of Equalization. Direction of the agency's affairs is assigned to the Executive Officer of the Franchise Tax Board.

Headquarters Office in Sacramento

16	TOTAL EXPENDITURES	\$2,217,898	\$2,497,343	\$2,827,465	
17	GENERAL ANALYSIS				
18	Number of positions	509.6	558.2	638	79.8
19	In general, the additional \$330,122 represents major changes in existing program resulting from a larger volume of income and franchise tax returns, and the addition of a new special investigation staff.				
20	SALARIES AND WAGES: The \$259,525 increase in this category is caused by the following factors:				
21	1. Work Load Increase:				
22	(a) Permanent positions added			62	\$187,140
23	(b) Temporary help increased			(9.1)	19,680
24	2. Special investigation program			5	20,448
25	3. Decrease in vacant positions			12.8	32,257
26	OPERATING EXPENSES: The additional \$51,424 for Operating Expenses provides for a general increase in most items because of work load and the proposed special investigation program.				
27	EQUIPMENT: A total of \$56,143 is proposed, which is an increase of \$19,173 over 1950-51. The total amount for 1951-52 is required for the following purposes:				
28	1. Proposed new positions				\$14,533
29	2. Work load and necessary improvements				12,809
30	3. New statistical installation				20,398
31	4. Replacement of worn out and obsolete items				6,739
32	SUPPORT EXPENDITURES				
33	DETAIL				
34		NO. OF POSITIONS

37		ACTUAL	ESTIMATED	PROPOSED	
38		1949-50	1950-51	1951-52	
39	ADMINISTRATION				
40	Analysis				
41	In addition to the general administration of the state income and franchise tax programs, this division includes the agency's accounting, statistical, collection and legal functions.				
42	Restoration in 1949 of lower personal income tax exemptions, a growing state population, and increasing business activity have resulted in a much greater volume of personal and corporation income and franchise tax returns. These increases consequently have a direct effect on the general administration of the income and franchise tax programs.				
43	In addition to assuming these work load increases, the Franchise Tax Board proposes to establish a staff of three special agents and an attorney, with clerical assistance, for the purpose of investigating and preparing for prosecution those cases that involve the submission of fraudulent tax returns.				
44	The total increase for this function over 1950-51 is \$75,241, categorically as follows:				
45	SALARIES AND WAGES: The increase of \$43,916 represents an increase of 13 positions, at a cost of \$43,368, consisting of:				
46	(a) Two intermediate typist-clerks to augment an existing personnel unit staff of 1.8 positions. These positions are to process an increasing volume of personnel transactions resulting from a growing permanent and temporary help staff.				
47	(b) One semi-senior accountant for the accounting section to handle the increased amount of technical accounting detail that has resulted from the agency's increased work load. This will permit the accounting officer to more properly carry out his responsibility for budgetary and administrative analysis and control.				

FRANCHISE TAX BOARD—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)				
1								
2	ADMINISTRATION—Continued							
3								
4	Analysis—Continued							
5								
6	(c) Three field representatives, one senior account clerk, and one junior typist-clerk required for the collection section. Since 1948 the							
7	number of collection accounts received by this section will have increased as follows:							
8								
9					ACTUAL	ACTUAL	ESTIMATED	ESTIMATED
10					1948	1949	1950	1951
11	Collection accounts				17,248	20,428	25,535	30,642
12	During the same period the collection staff has consisted of 8 field representatives with no increase in staff, while the clerical staff							31,663
13	has only increased from 24.4 to 27.							
14	(d) One associate tax counsel, three special agents, and one intermediate stenographer-clerk required for the special investigation pro-							
15	gram discussed previously.							
16								
17	OPERATING EXPENSES: The \$12,131 increase in this category consists of \$9,540 for traveling and \$4,300 for automobile mileage,							
18	offset by a net decrease in other items. Most of the increase for traveling and mileage are for the proposed field representatives and							
19	the special investigation staff.							
20								
21	EQUIPMENT: The \$29,271 proposed for this function is for the following principal reasons:							
22	(a) Desks, chairs, typewriters, etc., for the 13 new positions							\$2,667
23	(b) Letter opener, mail scale, calculator, and files, because of increased work load							4,040
24	(c) Tabulating equipment for the statistical section							20,398
25	At the present time the statistical section is expending approximately \$5,000 annually on the rental of tabulating equipment. With							
26	the purchase of these machines, all but \$445 of the rental expense will be eliminated for 1951-52. Rental cost of comparable equip-							
27	ment would amortize this purchase price in six years. Since no changes in the statistical reporting are contemplated which							
28	would require a change in the equipment, considerable savings will accrue through continued use over a long period of time.							
29	(d) Replacement of worn out and obsolete office furniture and equipment							\$1,317
30

FRANCHISE TAX DIVISION

Analysis

This division administers the Bank and Corporation Franchise Tax Act and the Corporation Income Tax Act. The program for 1951-52 is based upon a steady increase in the number of franchise and corporation income tax returns which have to be processed and audited. The increase in work load is shown as follows:

	ACTUAL 1946	ACTUAL 1947	ACTUAL 1948	ACTUAL 1949	ACTUAL 1950	ESTIMATED 1951	ESTIMATED 1952
Tax Returns -----	30,374	34,641	38,856	39,376	40,870	41,550	42,298

During the same years, the staff has not been increased correspondingly, with the result that a large backlog of unaudited returns now exists. The age of the backlog is such that audits of the older returns are barely completed before the four-year statute of limitations takes effect.

1	FRANCHISE TAX DIVISION—Continued						
2	Analysis—Continued						
3	Based on a test audit that was made in 1949-50, which developed a potential recovery of \$25 for each dollar of cost, an Allocation Audit						
4	Program has been budgeted for 1950-51, on a year to year basis, for the purpose of auditing the accounts of corporations in which						
5	the allocation of income between California and other states is a factor in determining the California tax. This program was estab-						
6	lished with the understanding that a yearly progress report would be submitted with each proposed budget.						
7	Until recently the Franchise Tax Board has been unable to recruit capable tax technicians, who were willing to work in the eastern states.						
8	Therefore, sufficient information on which to base a re-estimate of potential additional recovery is not available at this time.						
9	It is proposed to continue this program in the budget for 1951-52, and to submit a report of the program's accomplishment with the						
10	1952-53 budget.						
11	The total increase proposed for this function over 1950-51 is \$34,109, categorically as follows:						
12	SALARIES AND WAGES: The \$27,241 increase is made up of:						
13	5 permanent positions proposed to handle the increased work load and to prevent an increase in the size and age of						
14	the backlog:						
15	Sacramento Office:						
16	1 Franchise tax auditor, grade 2					\$3,900	
17	1 Calculating machine operator					2,280	
18	Los Angeles Office:						
19	1 Franchise tax auditor, grade 3					4,740	
20	1 Intermediate stenographer-clerk					2,400	
21	San Francisco Office:						
22	1 Franchise tax auditor, grade 3					4,740	
23	Total					\$18,060	
24	An anticipated fewer number of vacant positions results in an increase of 2.6 man years to cost						
25	Total					9,181	
26							\$27,241
27	OPERATING EXPENSES: The \$9,422 increase consists primarily of \$5,470 for the printing of Bank and Corporation Franchise Tax						
28	and Corporation Income Tax regulations and pamphlets, which is done every other year and \$3,000 for the first full year of traveling						
29	out of state under the Eastern Allocation Audit program.						
30	EQUIPMENT: A total of \$2,806 is proposed, which is a decrease of \$2,554 from 1950-51, and represents additional equipment of \$1,626						
31	related to proposed new positions and \$1,180 for work load and necessary improvement.

53							
54	PERSONAL INCOME TAX DIVISION						
55	Analysis						
56	This division administers the Personal Income Tax Act.						
57	In 1949 lower personal income tax exemptions were restored. As a result, it was estimated in 1949 that the number of 1949 personal						
58	income tax returns received during 1950 would be 1,350,000. However, as of November 1, 1950, 1,540,000 returns were received.						
59	It is now estimated that 1,700,000 income tax returns for 1950 will be received in 1951, for processing in 1951-52.						
60	The total increase for this function over 1950-51 is \$220,772, categorically as follows:						
61							
62	SALARIES AND WAGES: Proposed new positions of \$146,116, consisting of: headquarters office: 11 technical positions and 13						
63	clerical positions; area offices: 17 technical positions and 8 clerical positions.						
64	The 13 clerical positions required for the headquarters office are based on the increase in returns from the original estimate of 1,350,000						
65	for 1950-51 to 1,700,000 returns estimated for 1951-52. A calculation of ratios of returns per clerk shows that in 1949-50 each						
66	clerk handled 6,540 returns, whereas in 1951-52 with the new positions it is expected that each clerk will handle 7,200 returns.						
67	At the present time the personal income tax examiner staff is completing the examination of each year's returns only six months prior						
68	to the expiration of the statute of limitations. Addition of the proposed 28 examiner and accountant positions in 1951-52 will enable						
69	this staff to reduce the backlog so that the returns will be completed from nine months to a year prior to the expiration of the statute

GENERAL ANALYSIS

Number of positions 36.8 41 45 4

In general, the State Treasurer's program for 1951-52 will be affected by the following work load increases in existing functions:

The State's bonded debt activity for 1951-52 is expected to be approximately 125 percent greater than that for 1949-50. This increase will result principally from issues of veterans and school building bonds during the current and budget years.

A growing surplus of state funds available for investment, and changes in investment policies requiring the purchase of shorter term securities are causing a significant increase in the State's investment activity.

The State Treasury System will have completely absorbed all state trust funds, bringing the work load up to an estimated 50,000 checks per month from the beginning of the system in January 1950.

The Warrant Operation Section will have absorbed about three-fourths of the State's pay roll under the central pay roll system. This, together with the increase in Trust Fund warrants, will provide an estimated monthly warrant load of 200,000 during 1951-52, as compared to an actual of 113,350 for June 1950.

a Trust and agency funds are not included in the over-all budget totals. See Schedule 3 for statement of balances in other treasury funds.

STATE TREASURER—Continued

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS—Continued				
2					
3					
4	The total budget increase for 1951-52 over 1950-51 is \$17,676, categorically as follows:				
5					
6	SALARIES AND WAGES: The \$10,440 increase in salaries and wages consists of:				
7	Proposed new senior clerks			2	\$5,280
8	One is required by the Bond Servicing Section (bonded debt), and one by the Treasury Vault Section (investments) to process the increased number of securities that will require issuance, interest computation, redemption, custody, etc. The proposed positions will augment an existing staff of four employees.				
9	Additional temporary help			0.3	\$600
10	For the anticipated increase in work load.				
11	Decrease in vacant positions			2	\$4,560
12					
13	OPERATING EXPENSES: The \$11,650 increase in total operating expenses represents an additional \$7,100 in collection expenses and \$4,000 in fiscal agency fees, both of which reflect the growing activity in the bonded debt and investment functions.				
14					
15	EQUIPMENT: The \$4,984 required for 1951-52 is a decrease of \$4,414 from 1950-51. The proposed amount includes additional mobile bus files, an adding machine, correspondence files, tables, etc., at a cost of \$4,067, for increased work load. An amount of \$917 is for the replacement of obsolete and worn out equipment.

37	GENERAL ANALYSIS				
38					
39	<i>Number of positions</i>	<i>1,711.6</i>	<i>1,796.5</i>	<i>1,932.5</i>	<i>136</i>
40					
41	Provision is made for the addition of 10 sergeants and 100 traffic officers, to give greater patrol coverage on the highways and 10 lieutenants for more adequate supervision. In addition, positions directly related to this augmented enforcement staff, and building maintenance, radio dispatching, and administrative assistance are included.				
42	Six positions concerned with the suspension and revocation of drivers' licenses ("Brief Service") have been deleted, as this function will be transferred to the Department of Motor Vehicles.				
43	Provision is made for the compilation of statistics and information on the relationship between citations issued and court actions.				
44					
45					
46					
47					
48					
49	ADMINISTRATION				
50					
51	Analysis				
52					
53	This function includes the office of the commissioner and the following staff sections: general administration, accounting, personnel, office services, shops and stores, and mechanical analysis.				
54	One position has been added to provide assistance to the administrative service officer. Patrol functions and related activities have been increased in prior years without added assistance to this section. This, coupled with the proposed augmentation, makes this additional position essential.				
55	Additional positions in the fiscal, personnel, office services, and shops and stores sections are required for the added work load resulting from an enlarged patrol staff in the current year plus the requested increases.				
56	Two additional key punch operator positions are recommended in the mechanical analysis section to compile statistics and information on the relationship between citations issued and their disposition by the respective courts. Although these positions will produce only approximately a 40 percent sampling, it is believed the results will provide valuable information as to the final disposition by the courts of violations cited by the patrol.				
57	One position of supervising equipment clerk is recommended for the Los Angeles garage to relieve one patrolman who will be returned to enforcement duties. One position of automotive equipment inspector is recommended for the central control of automotive units as an understudy to a state traffic inspector who is expected to retire during the 1951-52 fiscal year. This inspector position will be abolished upon the retirement of the incumbent.				
58	The increased provisions for operating expenses and equipment relate to the above positions and the augmented enforcement staff.

58	ENFORCEMENT						
59	Analysis						
60							
61	This function includes all field personnel, field office operations and the Los Angeles headquarters.						
62	A total of 100 additional traffic officers are provided to allow a greater patrol coverage of the highways. A greater degree of supervision is						
63	provided also by the addition of 10 sergeants and 14 lieutenants.						
64	A more complete coverage of radio communication is allowed by the addition of seven dispatcher clerks. This will provide twenty-four-						
65	hour, seven-day-a-week operation on the heavily traveled highways of the State.						
66	Three custodial positions are provided to properly staff the new Los Angeles headquarters office.						
67	Six investigators have been deleted and are to be transferred with their equipment, including automobiles, to the Department of Motor						
68	Vehicles. This transfer is necessary as the Department of Motor Vehicles will assume the service of notices of suspension and revo-						
69	cation of drivers' licenses.						
70	Major items of increase in operating expenses include the following:						
71	1 Automobile operation to provide for 24,276,000 miles, an addition of 2,776,000 miles over 1950-51, at a cost of 3.52 cents per						
72	mile based upon 1949-50 actual costs.						
73	2 Radio maintenance for an added number of units and a completely modernized radio system.						
74	3 Increases due to the requested additional patrolmen and related personnel.						
75	The equipment proposed is to provide the necessary vehicles and other operating equipment at the same level of service as in prior years,						
76	however additional equipment is provided for the added personnel.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51		
1	GENERAL ANALYSIS						
2							
3							
4	Number of positions-----	757.9	757.7	773.2	15.		
5							
6	No program changes are reflected in this budget except in the Division of Housing and Industrial Safety. All other increases are due to increased work load.						
7							
8							
9							
10	SUPPORT EXPENDITURES	NO. OF POSITIONS					
11	DETAIL	49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
12		ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52			
13							
14	DEPARTMENTAL ADMINISTRATION						
15							
16	Analysis						
17							
18	The Division of Departmental Administration is composed of the director's office, the office of the Supervisor of Industrial Accidents and Insurance Plans, and the accounting office. There are no major program changes contemplated during the 1951-52 Fiscal Year.						
19	The net increase in this budget is due to the addition of one position and to increases in rental costs. The proposed new position required because of additional work load in the accounting office.						
20

36	DIVISION OF APPRENTICESHIP STANDARDS						
37	Analysis						
38	The establishment and functioning of the Division of Apprenticeship Standards is provided for by the Shelley-Maloney Apprenticeship Labor Standards Act of 1939. This act creates an Apprenticeship Council, which includes the Director of Industrial Relations as an ex-officio officer, and provides that the council will establish standards for minimum wages, maximum hours, working conditions for apprenticeship agreements and shall foster, promote, and develop the welfare of the apprentice in industry, improve the working conditions of apprentices, and advance their opportunities for profitable employment. The Division of Apprenticeship Standards is the administrative body created to effectuate the purposes of this act, under the direction of the Director of Industrial Relations.						
39	While no changes in program are requested in this budget, it does reflect a shift from federal to state support in the amount of \$54,841, resulting from a decline in federal grants-in-aid for supervision of establishments engaged in on-the-job training of veterans. The state work load has not declined in accordance with the reduction of these funds since many of the veterans must be transferred to the state program prior to the completion of their apprenticeship because of the expiration of their veteran's benefits. The proposed budget for the 1951-52 year is based upon contemplated work load, and reflects the same services as authorized in 1950-51.

41	DIVISION OF HOUSING						
43	Analysis						
45	The work of this division includes the administration and enforcement of laws relating to hotels, apartment houses, dwellings, auto						
46	courts, resorts, motels and labor and trailer camps. The division disseminates information regarding housing and construction to						
47	owners, architects, builders, and the general public. The division also encourages creation of planning commissions, and investi-						
48	gates reports of substandard housing conditions throughout the State.						
49	This budget reflects an expansion of the program of the division in the field of farm labor camp inspections. Three housing inspectors are						
50	requested in order to more adequately enforce the labor camp laws in the San Joaquin Valley.						
51	A deputy chief is requested in order to provide the chief with adequate administrative and technical assistance.						
52	One intermediate stenographer-clerk is required because of the addition of the above positions.

61	DIVISION OF INDUSTRIAL ACCIDENTS						
62							
63	Analysis						
64							
65							
66	Administers the workmen's compensation laws. The division includes the Industrial Accident Commission, a medical bureau, a legal						
67	bureau, and a permanent disability rating bureau.						
68	The Industrial Accident Commission, in its judicial function, is a court of limited jurisdiction, responsible for the adjudication of cases						
69	arising under the Workmen's Compensation Law. The commission is divided into two panels—Panel One at San Francisco, and						
70	Panel Two at Los Angeles.						
71	The Medical Bureau renders technical assistance to the referees and the commission in the adjudication of claims.						
72	The Legal Bureau renders legal advice to the commission and represents it in court cases involving the commission's jurisdiction.						
73	The Permanent Disability Rating Bureau determines the degree of permanent disability, in accordance with a rating schedule, for all						
74	compensation cases involving permanent disability.						
75	There are no major program changes contemplated for the 1951-52 year. The net increase of \$49,041 is due to the addition of two referees,						
76	one hearing reporter, and two clerks to handle increased industrial accident cases, and two assistant permanent disability rating						
77	specialists and one clerk to adequately staff the Permanent Disability Rating Bureau, in accordance with a study of the work load						
78	of this organization. One limited term permanent disability rating specialist is recommended for permanent extension. Operating						
79	expenses have been increased in accordance with the requirements of the proposed new positions, and the necessary complement						
80	of equipment has been provided.

1	DIVISION OF INDUSTRIAL SAFETY						
2							
3							
4	Analysis						
5							
6	The Division of Industrial Safety is vested with supervisory and jurisdictional responsibilities necessary for the protection of employees						
7	from injuries connected with or arising out of their employment. The division administers laws pertaining to safety, issues safety						
8	orders, investigates and studies causes of industrial injuries, prepares and distributes information on prevention of accidents, and						
9	makes inspections of places of employment for compliance with minimum standards for safety.						
10	The division is requesting an expansion in services to meet the demand of labor and management for stricter enforcement of safety						
11	orders. Seven safety engineers have been added for expansion of services in the industrial and construction fields. Their expansion						
12	will make possible a more adequate inspection of 72,000 industrial establishments and 10,755 construction jobs each year. A part						
13	time tabulating machine operator and a part time key punch operator have been added to complete the establishment of punch card						
14	records for elevator inspection. \$500 in temporary help is requested to handle clerical work connected with the Governor's Safety						
15	Conference. Operating expenses have been increased in accordance with the above personnel increases, and the necessary comple-						
16	ment of equipment has been provided.						
17

33	DIVISION OF INDUSTRIAL WELFARE						
34							
35	Analysis						
36							
37	The Division of Industrial Welfare is responsible for the administration and enforcement of laws and the issuance of orders relating						
38	to minimum wages, the Eight Hour Law for Women, the Weight Lifting and Seating Law for Women, the Industrial Homework						
39	Act, etc. The work program consists of making inspection of establishments employing women and minors, issuing citations and						
40	holding hearings on disputed or controversial cases, and referring cases of wilful and persistent violators for prosecution.						
41	No program changes are contemplated. One clerical position has been added because of increased work load in the Los Angeles area.

9	DIVISION OF LABOR LAW ENFORCEMENT						
10	Analysis						
11	Responsible for the administration and enforcement of labor laws not specifically under the jurisdiction of other state agencies. Among						
12	these are laws relating to payment of wages, child labor laws, laws regulating private employment agencies, laws relating to ventila-						
13	tion and sanitary conditions of places of employment, weekly day of rest law, public works law, etc.						
14	The major increases in the budget are due to the addition of three special investigators and three clerical positions. The special investiga-						
15	tors are required in order to adequately control the activities of farm labor contractors. Two junior stenographer-clerks are requested						
16	for assignment in the Fresno and Long Beach office because of increased work load. One account clerk is requested for the Los Angeles						
17	office because of the increased complaint load in that area. Operating expenses have been increased in accordance with the above						
18	personnel increases, and the necessary complement of equipment has been provided.						
19	SALARIES AND WAGES

		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	DIVISION OF LABOR STATISTICS AND RESEARCH						
2	Analysis						
3	Collects and compiles facts and statistics relative to the condition of labor in the State. The division publishes monthly statistics						
4	employment and, in cooperation with the Department of Employment, prepares monthly estimates and forecasts on civilian emplo						
5	ment and unemployment within the State. It works in conjunction with other state agencies and the U. S. Bureau of Labor Statisti						
6	in the collection and presentation of this data. The division also makes other studies and investigations in the field of industrial rel						
7	tions as may be required.						
8	No major program changes are requested in this budget. One intermediate account clerk is requested because of increased work loa						
9	connected with the analysis of union labor contracts. The number of these contracts to be analyzed has increased from 1,241						
10	1948 to 1,694 in 1950, an increase of more than 36 percent. A part time supervising tabulating machine operator is requested						
11	more fully utilize tabulating equipment and thereby eliminate existing bottlenecks and backlog. One intermediate typist-clerk						
12	requested because of increased typing work throughout the division.

GENERAL ANALYSIS

26					
27					
28	Number of positions	44.3	44.4	44.7	0.3
29					
30					
31	This budget contemplates no change in program. The changes in the expenditure categories are not major, those of any significance follow:				
32					
33					
34	SALARIES AND WAGES: The increase of \$1,209 is due to anticipated fuller employment in existing positions.				
35					
36	OPERATING EXPENSES: The decrease of \$895 is accounted for principally by a decrease of \$1,005 in printing as stock on hand will last through budgeted year.				
37					
38					
39	EQUIPMENT: The amount of \$4,369 is due primarily to:				
40	(a) Additional office (\$199) and laboratory additional (\$225) equipment for technical and fire testing.				
41	(b) Replacement, office equipment (\$200) for fire prevention films and (\$450) for motion picture projector and speaker to replace machine 12 years old.				
42	(c) Replacement of three automobiles (\$3,295) which will attain 100,000 miles in 1951-52.				
43					
44					

The following is a functional analysis of the agency's expenditures for comparative years:

45	Private mental hospital inspections	\$3,144	\$3,146	\$3,181	\$35
46	Welfare institution inspections	18,864	18,876	19,084	208
47	Private hospital inspections	29,989	30,008	30,340	332
48	Places of public assemblage and night club inspections	25,394	25,410	25,691	281
49	Dry cleaning plant inspections	42,808	42,834	43,307	473
50	Dry cleaning shop inspections	8,949	8,954	9,053	99
51	Public and private school inspections	31,441	31,460	31,808	348
52	State institution and building inspections	25,152	25,168	25,446	278

GENERAL ANALYSIS

Number of positions ----- 33.5 36.7 40.8 4.1

Provision is made for continuation of the existing level of service with the additional provision for expanding the present examination program to include examinations of private trust business in accordance with Section 1583 of the Banking Code as enacted by the Legislature in 1949.

SALARIES AND WAGES: The increase of \$17,769 results primarily from the provision for (a) three additional bank examiner positions at a cost of \$14,556 for the examination of private trusts, and (b) fuller employment in existing positions during the 1951-52 Fiscal Year as compared with the 1950-51 Fiscal Year.

OPERATING EXPENSES: The increase of \$9,007 is due principally to the provision for examination of private trusts. Price increases are responsible for minor increases and additional printing expense is due to the publication of a supplement to the Banking Code and the biennial list of 10-year unclaimed deposits.

EQUIPMENT: The amount of \$4,508 provides for replacement of worn-out and obsolete equipment in the amount of \$1,911; furniture and typewriter for one stenographer who is currently using borrowed equipment in the amount of \$317; legal and technical books at a cost of \$250; other miscellaneous equipment items in the amount of \$405; and an additional automobile at a cost of \$1,625 to provide transportation for the three additional bank examiners.

23	Number of positions	20.4	21.9	22.7	0.8
24					
25	Provision is made for continuation of the existing level of service with minor increases resulting from anticipated fuller employment.				
26	The following data indicates that estimated work load in 1951-52 will be at approximately the same level as was experienced during the				
27	1949-50 Fiscal Year.				
28		ACTUAL	ACTUAL	ACTUAL	ESTIMATED
29		1948	1949	1950	1951
30	Work Load:				ESTIMATED
31	Number of associations at June 30	109	110	113	115
32	Number of real estate loans (calendar year)	32,773	38,771	42,649	38,384
33					117
34	SALARIES AND WAGES: The increase of \$1,992 is due primarily to the anticipation of fuller employment in the examination division.				
35					
36	OPERATING EXPENSES: The increase of \$1,386 is due principally to the additional traveling required for a full staff of field men,				
37	plus an increase in office expense resulting from the cost of three-year premiums on surety bonds.				
38					
39	EQUIPMENT: The amount of \$913 provides for replacement of worn-out furniture and equipment plus provision for additional miscellaneous items of equipment.				
40

GENERAL ANALYSIS

11	Number of positions	121.7	125.9	127.5	1.6
12	Provision is made for continuation of the existing level of service with minor increases due to increased work load.				
13	SALARIES AND WAGES: The increase of \$5,586 is due primarily to the provision for the following new positions:				
14	1 Accountant auditor, grade 1, which is required because of increases in the number of licensees whose records must				
15	must be examined.				
16	Additional temporary help in the administration division to assist during periods of peak load in the processing of securities				
17	held in escrow by the Commissioner of Corporations.				
18	OPERATING EXPENSES: The increase of \$2,970 is primarily due to increased work load. The increase of \$730 in printing is due				
19	to increased prices and reprinting of laws pertaining to this division in which changes are anticipated.				
20	EQUIPMENT: The amount of \$8,726 includes provision for replacement of worn-out furniture and equipment in the amount of \$2,979;				
21	furniture for the new position at a cost of \$132; filing equipment for expansion at a cost of \$3,749; legal and reference books and				
22	bookcases in the amount of \$551; replacement of one automobile in the amount of \$945; and other items of equipment in the amount				
23	of \$370.

DEPARTMENT OF INSURANCE

Administers and enforces the insurance laws of the State, which involves regulating and licensing both company operations and individuals who sell insurance; admits insurers to operate in California; grants permits to issue securities and make changes in capital structure; approves certain types of policy forms; approves workmen's compensation insurance rates and regulates fire and casualty rates; examines financial condition and procedures of insurers through field audits and analysis of financial statements for the purpose of determining solvency; computes gross insurance premiums as a basis for the tax paid into the General Fund; takes over the California affairs of insurers in financial difficulty, operates those that can be conserved, and liquidates those which cannot be rehabilitated.

18					
19	GENERAL ANALYSIS				
20					
21	Number of positions-----	177	183	184.5	1.5
22					
23	Provision is made for continuation of the existing level of service with increases resulting from additional work load.				
24	The principal increases are due to three proposed new positions required because of increased work load in the Compliance and Legal				
25	Division. These increases are partially offset by the elimination of four part-year positions in the Conservation and Liquidation				
26	Division plus reductions in temporary help.

DEPARTMENT OF INSURANCE—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	COMPLIANCE AND LEGAL DIVISION						
2							
3							
4	Analysis						
5							
6	This division renders legal advice to other divisions of the department, prepares all legal documents for formal hearings, acts as prosecutor, reviews and approves policy forms, grants authority to companies to practice insurance in this State, and makes investigations of licensees to assure compliance with the law.						
7							
8							
9							
10	SALARIES AND WAGES: The increase is due to the three proposed new positions. The two investigator positions are required for increased work load. Despite an increase of about 33 percent in the number of investigations completed in the 1949-50 Fiscal Year over the 1948-49 Fiscal Year the backlog of pending cases nearly doubled by June 30, 1950. These two positions are required to prevent this backlog from increasing further. The counsel position is required to handle the increased legal activity in the Los Angeles area. During the period from 1945 to 1949 there were no criminal prosecutions or referrals issued from the Los Angeles office, while during the 1949-50 Fiscal Year there have been three grand theft convictions on cases referred from that office. The cases resulting from the two new investigator positions also will cause additional disciplinary work in the Los Angeles office.						
11							
12							
13							
14							
15							
16							
17							
18	OPERATING EXPENSES: The increase is due to additional automobile mileage for the two investigator positions and price increases.						
19							
20	EQUIPMENT: The major item amounting to \$889 consists of additional volumes and miscellaneous books which are necessary to keep the law library current.						
21							
22

70							
71							
72	LICENSES DIVISION						
73							
74	Analysis						
75							
76	This division reviews applications for licenses of insurance brokers, agents and salesmen; processes examinations for licenses; issues licenses and maintains the records pertaining thereto.						
77							
78	The principal increases result from additional printing and price increases. The increased printing requirements are due to the reissuance of three-year licenses in the 1951-52 Fiscal Year. The amount of \$660 is requested for replacement of typewriters with more than 14 years use and old furniture in poor condition. \$340 is requested to provide for additional transfer cases needed for storage purposes and miscellaneous items of equipment.

EXAMINATIONS AND FINANCIAL ANALYSIS DIVISION

Analysis

This division examines the records and procedures of insurance companies and makes analyses of their financial policies, practices and procedures for the purpose of determining their solvency. The division is divided into two bureaus—the examinations bureau and the bureau of financial analysis. Additional costs reflected in operating expenses are due to price increases. The major item of equipment amounting to \$482 provides for an additional adding machine for use by the accountant-auditors and account clerks.

Examinations Bureau

62							
63							
64	CONSERVATION AND LIQUIDATION DIVISION						
65							
66	Analysis						
67							
68	This division administers the affairs of insolvent insurance companies until they have become financially sound or until their assets						
69	have been liquidated.						
70	The cost of operating this division is recovered from the assets of the companies being administered to the extent of the availability						
71	of such assets. Past experience indicates that the recovery of expenditures should exceed 90 percent during the 1951-52 Fiscal						
72	Year.						
73	The reduction in this division is due to the elimination of four half-year positions which resulted from completion of the liquidation of						
74	some large accounts.						
75

12					(6.2%)
13	GENERAL ANALYSIS				
14	Number of positions-----	93.1	97.5	98.5	1
15	Provision is made for continuation of the intensified enforcement program which was started in the 1949-50 Fiscal Year with the				
16	authorization of two additional deputy real estate commissioner positions for one year. These positions were authorized for con-				
17	tinuation into the 1950-51 Fiscal Year and five more deputy positions have been provided to begin January 1, 1951. The intensi-				
18	fied enforcement program pertains especially to the prevention of fraud and misrepresentations, and stricter supervision of sub-				
19	divisions.				
20	Provision is made also for the establishment of a position to administer an educational program for the benefit of the licensees. This				
21	position will be concerned with assembling and preparing material for educational purposes, publication of bulletins, circulars, the				
22	directory, and the reference book and guide. This position would also serve as a coordinator between the Division and the				
23	Institute of Real Estate, University of California. The proposed educational program provides for expanding the present bi-monthly				
24	four-page bulletin to a monthly issue with a 12-page issue once a year, and the additional provision for four special one-page				
25	circulars to be distributed to all licensees.

22	EDUCATION							
23								
24	Analysis							
25								
26	The purpose of this function is to administer an educational program for the benefit of the licensees and to coordinate activities between							
27	the Division and the Real Estate Institute, University of California. Certain related publications which are currently being issued							
28	by the Division have been incorporated into this function. The total amount provided for this function represents an increase of							
29	\$23,640 over the existing activities. This increase is due to the following items: the proposed new position, \$4,740; traveling for							
30	the new position, \$750; cost of printing additional bulletins and circulars, \$7,050; additional postage for bulletins and circulars							
31	\$8,600; additional cost of printing the directory, \$2,000; and additional cost of printing the reference book and guide, \$500.

DEPARTMENT OF JUSTICE

Under the direction of the Attorney General, the chief law officer of the State, the Department of Justice operates the state teletype system, compiles statistics pertaining to crime, interprets laws and renders opinions, represents the State and its officers in civil litigation and on appeal from trial courts in criminal cases, maintains central fingerprint and modus operandi files, assists peace officers in both criminal and civil investigations and enforces the State Narcotic Act.

Headquarters Office at Sacramento

The General Fund finances the major portion of the activities of this department.

The Motor Vehicle Fund finances a portion of the expenditures for the teletype system.

GENERAL ANALYSIS

61					
62					
63					
64	Number of positions	403.4	425.3	461.7	36.4
65					
66	No new functions are recommended; however, expanded services include the following:				
67	1. Increased facilities for teletype service in the Los Angeles office.				
68	2. Expanded reporting of county juvenile probation statistics from 19 to 56 counties.				
69	3. Two new offices for Division of Narcotic Enforcement (San Diego and Fresno).				
70	4. Additional positions in the Bureau of Criminal Identification to process an estimated increase in work in the modus operandi,				
71	fingerprint sections and in the criminal laboratory.				
72					

^a Expenditures for the above projects are reflected in the budget of the Division of State Lands. The amounts to be expended through the Department of Justice for legal services has not been determined for the 1951-52 Fiscal Year.

2	DIVISION OF GENERAL ADMINISTRATION						
3							
4	Analysis						
5							
6	Includes office of the Attorney General, accounting section, stenographic pool, teletype section and the Bureau of Statistics.						
7	Two new positions are recommended for the teletype center in Los Angeles to handle an estimated increase in messages made possible						
8	by the modernizing of the state teletype system.						
9	Three additional positions are recommended for the Bureau of Statistics as follows:						
10	1. One junior research technician and one clerk for county juvenile probation reporting statistics, for the Youth Authority, to						
11	increase the number of counties reporting from 19 to 56.						
12	2. One clerk for an increased volume of work for the Department of Corrections due in part to an increase in the number of inmates						
13	and in part to an offset by the transfer of a one-half time clerk formerly furnished by the Department of Corrections.						
14	Provision for operating expenses and equipment remain at approximately the current level except for costs incidental to the above-added						
15	positions.

26								
27	DIVISION OF CRIMINAL IDENTIFICATION AND INVESTIGATION							
28								
29	Bureau of Criminal Identification							
30								
31	Analysis							
32								
33	Maintains central files of fingerprints, modus operandi, crime records of felons, registration of sex offenders and furnishes reports of							
34	criminal records to law enforcement agencies.							
35	To process an estimated increase in work load for the various sections of the bureau, additional positions are recommended. No provision							
36	is made for any increase which would result from war-time activities.							
37	Modus Operandi Section:							
38	Nineteen positions are recommended to process an increased number of crime reports, firearm registrations, pawned and stolen property							
39	records, and photographs of known criminals. In order that more record searches can be accomplished by mechanical means, it is							
40	proposed that four of the recommended positions be key punch operators for operation of mechanical tabulating equipment.							
41	Fingerprint Section:							
42	This section is estimated to process an increase of 100,000 fingerprints; however, additional positions are not necessary due to increased							
43	efficiency and improved method if positions loaned to other sections are returned. Twelve positions were loaned during the current							
44	year to the Record Section to keep work current and can be returned when the recommended positions for the Record Section are							
45	established.							
46	Record Section:							
47	This section performs the preliminary processing of material for the fingerprint and modus operandi sections. To keep work current							
48	resulting from these two sections, 12 additional positions are recommended. As mentioned above, this section has had the benefit							
49	from positions budgeted for the fingerprint section which must be returned in order to process the estimated increase in fingerprints.							
50	Laboratory:							
51	One position of criminologist is recommended to conduct an increasing number of investigations and analyses. This laboratory also per-							
52	forms analyses of substances suspected of being narcotic for the Division of Narcotic Enforcement.							
53	The Bureau of Criminal Identification is scheduled to be moved into new quarters away from the department's central teletype instal-							
54	lation. This will require a teletype installation in the bureau and one teletype operator position is recommended. It is proposed that							
55	relief and night shift operations will be handled by clerical employees on duty.							
56	Increases in operating expenses and equipment in addition to provision for additional employees are due primarily to the following:							
57	1. Additional rent due to moving to new quarters away from the State Building.							
58	2. Items of equipment for the Criminal Laboratory.							
59

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1							
2	DIVISION OF NARCOTIC ENFORCEMENT						
3							
4	Analysis						
5							
6	Enforces the provisions of Division 10, Health and Safety Code (State Narcotic Act).						
7	The establishment of narcotic enforcement offices in Fresno and San Diego on a minimum basis with two inspectors at each location is						
8	recommended. Increased population, results obtained from staffing other centers of population and requests from local law enforce-						
9	ment agencies for assistance in the control of narcotics traffic appears to justify the added expenditure of these two offices.						
10	The control of prescriptions and the issuance of narcotic drugs in legitimate trade is, to a large extent, accomplished by the use of tabu-						
11	lating equipment. The increase in the number of prescriptions and the need to include more types of drugs, all narcotic, on tabulating						
12	cards in order to assist in enforcement, requires the one recommended additional card punch operator position.						
13	In addition to providing the necessary operating expenses and equipment for the above added positions, the following is recommended:						
14	1. An increase of 100 percent in informers' fee and evidence purchase or \$6,000 and \$2,500, respectively, is recommended in order to						
15	provide the enforcement officers sufficient funds for their effective use.						
16	2. Three wire recorders for use in taking statements and depositions. The use of this type of equipment is considered of high priority						
17	in law enforcement.						
18	3. Replacement of three light automobiles rather than the customary procedure of using only confiscated vehicles. Depending on						
19	confiscated vehicles has, in the past, forced this division to continue the use of high mileage uneconomical automobiles pending						
20	the availability of confiscated vehicles. Automobiles will be purchased for replacement only if confiscated vehicles are not						
21	available.

16	Analysis						
17	To defend the State's position, in a pending suit filed by the banks, with respect to the present method of taxing banks under the provision of Section 4a, Bank and Corporation Franchise Tax Act.						
18	It is recommended that this function be carried at the level of 1950-51 to provide a minimum staff if the case is brought to trial in 1951-52.

GENERAL ANALYSIS

The Department of Mental Hygiene's 1951-52 Fiscal Year budget for support operations provides a program for improved level of care in the mental hospitals and mental defective homes, and includes the opening of a receiving and treatment building at Camarillo State Hospital, an expanded family care program, increased outpatient clinic activities, establishment of two information centers for mental defectives, improvement in the social service program, continuation of the pilot studies for an additional six months, and the establishment of two sex psychopath units.

DEPARTMENTAL ADMINISTRATION, LANGLEY PORTER CLINIC, OUTPATIENT CLINICS, AND ATASCADERO STATE HOSPITAL

The analysis and expenditures for these agencies will be found under their respective budgets.

STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT

In this group are included the following:
Seven state hospitals for the care of mental patients: Agnews, Camarillo, Mendocino, Napa, Norwalk, Patton, and Stockton.
Two institutions for the care of mentally defective patients: Pacific Colony and Sonoma.
Two hospitals for the care of both the mentally ill and mentally defective patients: DeWitt and Modesto.

These hospitals and homes provide hospitalization for the mentally ill, mentally defective, alcoholics, narcotic addicts, sexual psychopaths, and defective and psychopathic delinquents, with the emphasis being on treatment centers rather than merely custodial institutions.

The 1951-52 program of improved level of care in the hospitals and homes consists primarily of increased physician, nursing, therapist, social worker, and supervisory nursing personnel, increased food and clothing rations, and additional equipment.

POPULATION AND UNIT COSTS	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
Average population-----	37,328	38,861	39,621	760 (2%)
Average per capita costs-----	\$836	\$923	\$1,012	\$89 (9.6%)

In general, the total increase of \$4,233,260 (11.9%) over 1950-51 is the result of the following factors:

- a. Population changes
- b. Standards of allowances for proposed additional positions:
 - 1. Population and work load increases,
 - 2. Staff for the new receiving and treatment building at Camarillo,
 - 3. Program changes for increased level of service, primarily in treatment through additional physician, nursing, therapy, and technician personnel,
 - 4. Two new sex psychopath units.
- c. Price changes
- d. Increased allotments for patients' food and clothing.
- e. In-service training programs for nurses and social workers
- f. Need for replacement equipment and acquisition of additional equipment.

a Both mentally ill and mentally defective patients cared for in these hospitals.

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT—Continued

The following requests are common to all institution budgets and are, therefore, discussed in groups rather than individually under each institution.

SALARIES AND WAGES: The increase of \$2,697,811 provides for the following 1,078.7 new positions at an annual cost of \$2,831,980:

Attendant and Nursing Personnel

592 Hospital Attendants	
487 Mental hospitals	\$1,054,800
105 Mentally defective home	226,800
Total	\$1,281,600

The attendant (nursing) personnel plan provides additional positions to staff 87 percent of the standard complement on a ward assignment basis and includes:

- (a) 109 to staff wards at the present authorized level of 85 percent at a cost of \$235,440.
- (b) 179 to increase wards from 85 percent to 87 percent of the nursing requirements at a cost of \$386,640.
- (c) 304 to staff the new receiving and treatment building at Camarillo at 87 percent of the nursing requirements at a cost of \$659,520.

145 Supervisory nursing personnel at a cost of ----- \$456,180

The top supervisory position of nursing personnel is the superintendent of nurses.

- (a) Twenty supervisors of hospital attendant positions are required to supplement staffs at the 11 institutions to provide one assistant on a 24-hour basis at a cost of \$67,440.
- (b) The institutions are divided into supervisory areas according to size and type of treatment required. This third level of supervision includes a supervising psychiatric nurse on a 24-hour basis for receiving, intensive treatment, and medical wards staffed principally by nurses and requires 55 positions at a cost of \$194,700.
- (c) The remaining wards, staffed principally by attendant personnel, will require supervision on an area basis. Seventy additional assistant supervising hospital attendant positions will supplement authorized staffs and provide 24-hour coverage at three or four areas at each of the 11 institutions at a cost of \$194,040.
- (d) Consideration is being given to the establishment of a new class of charge hospital attendant, grade 1. The duties of this new class will include supervision of the wards during the afternoon and night shifts. Also under consideration is a proposal to establish a new entrance class of hospital attendant trainee at a salary step below that of the hospital attendant. Full staffing of all hospitals with charge attendants, grade 1, requires approximately 1,048 reclassifications of hospital attendant at an annual cost of \$125,760. However, it is proposed to finance the full cost of such upward reclassifications as turnover permits by recruiting new employees in the proposed lower classification of hospital attendant trainee.

Medical and Dental

19 Senior physician and surgeon	\$133,152
Seven positions are required to maintain the authorized level of service and 12 additional are provided to reduce the patient physician ratio from 1 per 213 to 1 per 195, or to 58 percent of the Department of Mental Hygiene's staffing pattern.	
(11) Pathologist, replacing 11 senior physician and surgeon	\$7,920
To provide a trained pathologist on the staff of each hospital in lieu of the limited benefit now received from the Langley Porter Clinic and consultant services. This position is included within the physician-patient ratio.	
3 Senior clinical psychologist	\$14,220
These positions are required for work load increase based on the ratio of 1 per 900 annual admissions in the mental hospitals and 1 per 700 resident population in the homes for the mentally defective.	
1 Senior dentist	\$6,672
1 Dental assistant	\$2,280
The dentist position is required to maintain the authorized dentist-patient ratio of 1 per 1,250 and the dental assistant is required to assist the new dentist.	

Other Professional and Special Groups

10 Recreational therapist	\$24,120
2 Music therapist	\$6,432
2 Occupational therapist	\$3,645
Six therapist positions are required for work load increases and eight are provided to improve the level of service by reducing the therapist-patient ratio from 1 per 410 to 1 per 365. This is 28 percent of the Department of Mental Hygiene staffing pattern of 1 per 100 patients.	
2 Senior librarian	\$6,744
These positions will provide a librarian at Pacific Colony and Sonoma as previously authorized for the other hospitals for the maintenance of the professional books and school library, and also the establishment, coordination, and supervision of a rotating library for patients in the wards.	
11 Medical record librarian	\$33,660
A medical record librarian is required for each of the hospitals and homes for the coordination, preparation, and supervision of the medical records of patients in residence at the institution as well as those on leave of absence.	
37 Intramural psychiatric social worker	\$144,300
Three positions are required for work load increase and 34 to increase service by reducing the ratio of 1 position per 362 admissions to 1 per 200. This level of service is 50 percent of the Department of Mental Hygiene goal of 1 per 100 admissions. It is the responsibility of these positions to get information for medical use from relatives, help patients solve family problems, and working closely with the doctor, to survey the institutional population looking for possible placement material.	

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT—Continued

Other Professional and Special Groups—Continued

11	Dining room supervisor	\$29,040
	A position at each of the 11 institutions will be used to standardize food service procedures, integrate food service activities on the ward dining rooms and congregate dining rooms with food preparation in the kitchen, and be responsible for inspection and maintenance of sanitary conditions in the food department, as the food administrator's duties are so many that an inadequate amount of time is available for these services.	
3	Diet cook	\$8,316
	Two diet cooks are required to provide for the preparation and portioning of special diets in the new receiving and treatment building at Camarillo for two shifts per day. The third position is required for relief on a seven-day basis.	
3	Dietitian	\$8,748
	A position is required at Camarillo and Stockton State Hospital for supervision of diets and service of food in the receiving and treatment building, and the third position is required for the new tubercular unit at Patton State Hospital.	
15	Cook	\$41,580
	Post assignment review of the following hospitals' cook requirements revealed the following needs: Agnews 2, Camarillo 6, Napa 3, Stockton 3, Pacific Colony 1.	
28	Kitchen helper	\$60,480
	New facilities at the following hospitals require additional personnel as revealed by post assignment review: Agnews 6, Camarillo 9, Mendocino 7, Napa 6.	
5	Executive housekeeper	\$24,540
	To establish institution-wide linen control, maintenance of linen complements and replacement thereof, supervision of mending room, and full charge of all housekeeping and janitorial services. This will provide the service at those institutions presently without the staff to perform this important service.	
9	Stationary engineer	\$31,548
	To provide proper maintenance for the new laundry equipment as recommended by a recently completed laundry survey. Preventive maintenance amounting to 25 to 30 hours per week will minimize breakdowns resulting in expensive repairs and delays in processing patients' laundry.	
6	Building trades foreman and 5 replacements of carpenters	\$24,060
	To provide supervision and responsibility of all building trades personnel such as carpenters, painters, building maintenance men, etc., and reduce the number of persons reporting to the business manager.	
7	Leading stationary engineer and 4 replacements of stationary engineer	\$25,452
	At the present time, the chief of institution maintenance has charge of the boiler plants and the mechanic personnel. It is necessary to have one person to supervise the operation of the boiler plant including the fireman and machinists, and also to supervise the stationary engineers and steam fitters who are involved in the maintenance of all steam and water lines.	
(9)	Farm manager replacing 9 head farmers	\$2,448
	The farm manager, under the new plan will have supervision over all farm activities including the dairy, poultry ranch, hog ranch, vegetable garden, etc., and reduce the number of personnel reporting to the business manager. The qualifications will be similar to those of a graduate of an agricultural school and should place the farming activities on a more efficient basis.	
12	Sex psychopath units (12 positions)	\$52,704
	Under the Sections 5500 to 5518 of the Welfare and Institutions Code, it is necessary for the courts to send patients to the Department of Mental Hygiene for 90 days' observation, treatment and study before they can be given an indeterminate commitment to a state hospital as sex psychopaths. Special units will be established in the north at Mendocino and in the south at Norwalk consisting of a psychiatrist, senior physician, occupational therapist, senior psychiatric social worker and two stenographer-clerks to handle the problem that will be passed on to the Department of Mental Hygiene by the courts.	

Administrative and Clerical Personnel

11	Intermediate clerk	\$25,080
	Work load increases in the personnel and pay roll sections of the hospitals at a ratio of 1 clerk per 250 employees require these positions.	
8	Credit agent	\$24,768
5	Intermediate stenographer-clerk	\$12,000
	To provide a credit agent trained to handle collection type work to supervise the patient board account and veteran investigation section in the hospitals in order to assure proper application of good collection procedures. All rates, including those of non-pay cases, should be reviewed yearly for the State to receive proper reimbursement for care and treatment. It is proposed to raise the maximum board rates on January 1, 1951, from \$60 per month to \$90 per month, which will increase the need for proper staffing. Approximately \$400,000 additional revenue for the General Fund can be obtained by providing adequate staff for institution credit work plus the three additional area agents and clerk required for the necessary field work which is included in the Department of Mental Hygiene's headquarter budget for 1951-52.	
22	Intermediate stenographer-clerk	\$52,800
	These positions are required for the doctors' stenographic pool work load increase at the authorized ratio of 1 to 3.	
11	Intermediate typist-clerk	\$26,400
	Required to handle the clerical duties for the institution food administrator which will give the food administrator more time for supervision and direction of the food department.	
11	Intermediate account clerk	\$25,080
	Required to handle the increasing work load of the accounting office.	
4	Intermediate account clerk	\$9,120
	Required for increased work load on property records at Camarillo, Napa, and Stockton.	
6	Storekeeper, grade 1	\$16,632
	The additional storekeeper positions are required for institutions where warehouse space will be available for central control of engineering and maintenance supplies. Proper control eliminates the possibility of loss of materials and supplies, increases efficiency of maintenance personnel by proper stocking of required items, reduces overstocking and permits proper inventory of items.	

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT—Continued

Administrative and Clerical Personnel—Continued

5.9 Temporary help -----	\$12,920
To microfilm inactive records and release storage space required for other purposes. It is planned to do a portion each year until such time as the old records are placed on film.	
70.8 Miscellaneous positions -----	\$197,339
The miscellaneous positions are individually explained after each hospital's analysis.	

Salary Savings

The increased expenditure for Salaries and Wages due to new positions will be offset in part by the following amount, \$134,169, because the estimated increase in salary savings will be greater than the increased cost of authorized positions for merit salary adjustments.

OPERATING EXPENSES: An increase of \$1,401,842 is explained within the analysis of each hospital. Explanation of the program changes common to all hospitals follows:

Food Ration Increase ----- \$800,000

The ration increase proposed by the Department of Mental Hygiene amounting to \$2,126,000 has received consideration with a view toward granting a substantial increase subject to a complete survey of all state ward rations prior to the 1952-53 Governor's budget.

It has been determined to increase the Department of Mental Hygiene general patient ration to the cost level of the Department of Corrections, based on July, 1950, prices provided by the Bureau of Purchases, at a cost of \$800,000 for the 1951-52 Fiscal Year. The enriched ration will provide a \$20, or 10 percent increase, and should materially improve the quality of the patient ration to be served pending the completion of the state-wide ration survey.

Clothing Ration Augmentation ----- \$396,210

To provide an allowance of \$25 per year for mental patients and \$30 per year for mental defective patients in an effort to improve the general dress of the patients in the institutions which, at present, is below standard, and will constitute approximately a \$10 increase per patient, per year.

Medical Consultant Service Increase ----- \$13,000

To include within the budget an additional allowance to bring medical specialists for consultations with members of the staff and to take care of serious medical and surgical problems covering specialties such as neurosurgery, radiology and roentgenology, cardiology, tuberculosis consultant and diagnostician, urology, gynecology, anesthesiology, etc.

Travel Allotment for Social Workers In-service Training ----- \$16,800

A travel allotment is provided to permit the rotation of intramural psychiatric social workers for 12 weeks' field training on extramural care and outpatient work in order to integrate the staff into a more effective team with better employee understanding of the job, stimulate an alert and progressive attitude on the part of the social service staff, and raise the efficiency and morale of the employees, which should ultimately be reflected in an improved social worker program for the patients.

Travel Allotment for Graduate Nurse In-service Training at Langley Porter Clinic ----- \$27,720

A travel allotment is provided to send three graduate nurses from each of 11 institutions to the Langley Porter Clinic for 12 weeks for psychiatric nurse training under teaching supervision. It is necessary to inaugurate supplemental sources for training psychiatric nurses due to the shortage of supply and the recruiting difficulties experienced to date.

General Population, Price and Other Work Load Changes ----- \$148,112

EQUIPMENT: Equipment items totaling \$1,206,911 are explained within the analysis for each hospital and represents replacement equipment of \$548,514 and additional equipment of \$658,397, and represents an increase of \$253,607 over 1950-51. The additional equipment requests in the several institutions include additional office equipment for new personnel; additional feeding equipment for greater population, and to improve conditions where there is insufficient equipment to meet existing needs; additional medical equipment to improve the level of medical care and treatment of patients and to make possible better application of modern techniques and treatment methods; additional maintenance equipment to provide improved and more maintenance work on the many buildings and facilities, and certain farming equipment necessary in the operation of the institutional farms.

REIMBURSEMENTS: The increase of \$120,000 is due primarily to sales of meals to employees.

DEPARTMENT OF MENTAL HYGIENE—Continued

Under the administration function, the department carries on the activities of general direction of the hospitals, homes, clinics, and special programs; fiscal accounting and budget control, collection activities, deportations and transfers, guardianships, statistics, personnel services, food administration, nursing service, veterinary service, maintenance service, community services, and private institution inspections.

6					
7	Total -----	175.7	232.3	274.7	42.4
8					
9	Programs to be further developed in 1951-52 will include the establishment of (1) an information center in Los Angeles and San Francisco for relatives of mentally defective children and (2) the expansion of an educational program in the field of preventive mental hygiene through the distribution of pamphlets, films, radio transcriptions, and records.				
10	Under the extramural care function, the field supervision of patients on leave of absence, industrial leave, and family care cases are carried on. This program is being expanded in 1951-52 to permit an improvement in level of service by lowering the field workers active case load to 82 which is 72.5 percent of the proposed goal of 69 active cases per worker. This would reduce the ratio of active assigned cases to all extramural social workers (exclusive of headquarters supervision) from 81 in 1950-51 to 69 in 1951-52.

40					
41					
42	GENERAL ANALYSIS				
43					
44					
45	Number of positions-----	60.5	74.1	92.8	18.7
46					
47	The increased expenditure program for 1951-52 results from the expansion of service in existing facilities, primarily in the San Diego and				
48	Los Angeles area, and the full year operation of the Riverside and Marysville clinics in 1951-52 as contrasted with partial year opera-				
49	tion during 1950-51.				
50					
51	SALARIES AND WAGES: The increase of \$91,617 is accounted for as follows:				
52	9 New positions at a cost of \$35,268.				
53	Los Angeles Clinic:				
54	1 Senior psychiatric social worker for the purpose of establishing a traveling service in the Antelope Valley area.				
55	San Diego Clinic:				
56	1 Psychiatrist.				
57	1 Senior clinical psychologist.				
58	2 Senior psychiatric social workers.				
59	2 Intermediate stenographer-clerks.				
60	These positions will expand the activities of the clinic to provide service outside the City of San Diego at Oceanside and				
61	Escondido.				
62	Sacramento Clinic:				
63	1 Senior psychiatric social worker to assist in handling the increased load of the clinic.				
64	Administration:				
65	1 Intermediate stenographer-clerk provided for the mental health consultant from National Mental Health Act funds.				
66	In addition, increased cost of merit salary adjustments account for \$15,032 and a decrease of \$35,268 in estimated salary savings due to				
67	full year operation in 1951-52 of all clinics and improved recruitment in the professional staffs, accounts for the balance.				
68					
69	OPERATING EXPENSES: An increase of \$18,195 is primarily attributable to expanded services as follows:				
70	\$10,000 to conduct a mental health institute financed from funds provided by the National Mental Health Act.				
71	\$2,845 for increased cost of the expanded staff at the San Diego clinic covering additional rent at Oceanside and Escondido, and other				
72	items of expense.				
73	\$3,425 increase due to a full year's operation of the Riverside clinic in 1951-52, as compared with costs for approximately seven				
74	months' operation in 1950-51.				
75	\$1,735 increase due to a full year's operation of the Marysville traveling clinic in 1951-52, as compared with costs for approximately				
76	eight months' operation in 1950-51.				
77					
78	EQUIPMENT: An amount of \$11,778 is provided, a decrease of \$12,497 from 1950-51.				
79	The equipment provided includes an automobile for the new social worker in the Los Angeles clinic, office equipment for the new posi-				
80	tions, and other necessary items for the operation of the clinics.				
81					
82

Total expenditures for support in 1951-52 amount to \$768,107, an increase of \$16,999 or 2.3 percent over 1950-51 estimates.

SALARIES AND WAGES: The increase of \$35,753 is principally accounted for by following new positions:

- 1 Intermediate typist-clerk for the superintendent of nurses and the assistant superintendent of nurses to relieve them of clerical duties and permit more time for supervision and direction of the nursing staff.
- 1 Intermediate stock clerk to assist the storekeeper in receiving, issuing, and controlling supplies and also in maintaining property and equipment records.
- 1 Janitor for the opening of the surgical ward on the third floor and the office space in the new butler-type building.
- 2 Psychiatrist to train and instruct the state mental hospital staffs in the latest treatment techniques, to review current methods of treatment in hospitals, and to conduct seminars at each hospital.
- 1 Medical record librarian for the coordination, preparation, and supervision of the medical records of patients in residence at the hospital, as well as patients on leave of absence.

OPERATING EXPENSES: An increase of \$500 is attributable to an estimated increase in cost for steam heat.

EQUIPMENT: A total of \$9,881 is requested for 1951-52, a decrease of \$18,201 from 1950-51. Replacement items total \$4,517 or 2.3 percent of the equipment investment. Additional items total \$5,367 and include \$946 office equipment for new positions, \$1,462 in medical equipment, and \$800 in professional and patients' books, and \$1,040 in maintenance tools and equipment.

^a Represents actual count of patients in hospital at midnight, each day.

^b Represents the average number of cases under consideration.

^c Costs have been allocated between inpatient and outpatient departments on the basis of time distribution of all employees and a proportional allocation of operating expenses.

13	GENERAL ANALYSIS				
14	Number of positions.....	710.8	899.6	929.4	29.8
15	POPULATION AND UNIT COSTS				
16	Average population.....	3,534	4,006	4,318	312
17	Per capita cost.....	\$842	\$924	\$961	\$37 (4%)
18	Total expenditures for support in 1951-52 amount to \$4,148,495, an increase of \$445,917, or 12 percent over 1950-51. The increase in average population in 1951-52 is 4 percent over 1950-51.				
19	SALARIES AND WAGES: The increase of \$239,753 is accounted for as follows:				
20	46.7 New positions at a cost of \$144,488. Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary, and the three miscellaneous positions are individually explained below:				
21	1 Assistant seamstress is required to assist in the manufacturing and mending of clothing and linens and the supervision of groups of working patients. At the present time the institution has one employee in this work.				
22	2 Groundsman and flower gardener are required for the maintenance of the grounds, including the 15 additional acres of landscape added to the present grounds with the new ward buildings.				
23	The balance of the increase in salaries and wages amounting to \$95,265, approximately \$80,000 of which is due to the 139 positions added for new facilities at Agnews in 1950-51 for approximately nine months' operation as compared with a full year's operation in 1951-52.				
24	OPERATING EXPENSES: The increase of \$193,987 is accounted for as follows:				
25	The enriched food ration for the estimated population in 1951-52 accounts for \$123,212. The augmented clothing ration for the estimated population in 1951-52 accounts for \$39,968. The increased cost of light, heat, and power accounts for \$9,936. Other factors of change, primarily due to population and price increase, account for the balance of \$20,871.				
26	EQUIPMENT: The amount of \$129,515 provides \$51,590 for replacement and \$77,925 for additional equipment. The replacement equipment amounts to 5.2 percent of the equipment investment on June 30, 1950. The following are significant additional items: office equipment for new positions, \$7,563; three trucks and two cars, \$11,510; oven, \$1,738; electrosurgical unit, \$1,114; fire truck and pumper, \$11,000.				
27	REIMBURSEMENTS: A total of \$100,471 is estimated for 1951-52, an increase of \$9,023 over 1950-51, primarily from meal sales to employees.

11	Unexpended balance, estimated savings-----	-149,032	-28,543		
12	TOTAL EXPENDITURES FOR SUPPORT-----	\$3,799,664	\$4,259,112	\$5,761,783	\$1,502,671
13					(35.3%)
14	GENERAL ANALYSIS				
15	Number of positions-----	951.3	1,020.6	1,458.5	437.9
16	POPULATION AND UNIT COSTS				
17	Average population-----	4,960	5,140	5,853	713
18	Per capita cost-----	\$766	\$829	\$984	\$155
19	Total expenditures for support in 1951-52 amount to \$5,761,783, an increase of \$1,502,671 or 35.3 percent over 1950-51. The increase in average population in 1951-52 is 13.9 percent over 1950-51.				
20	SALARIES AND WAGES: The increase of \$1,118,648 is accounted for as follows:				
21	524.7 New positions at a cost of \$1,248,770.				
22	Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary and the 18 miscellaneous positions are individually explained below.				
23	2 Automotive equipment operators are required to transport food over a 12-hour period daily from the main kitchen to the new receiving and treatment building and six new wards.				
24	1 Baker required in order to produce the bread and bakery goods required for the increased population.				
25	1 Meat cutter is required for the large increase in patient population at the institution.				
26	2 Psychiatric resident positions are provided for future assignment of residents on a rotation basis by the medical schools in Southern California for the purpose of developing more trained physicians.				
27	1 Surgical nurse, 1 X-ray technician, and 1 pharmacist are required for the large increase in population and the proper staffing of the new receiving and treatment building.				
28	1 Electrician, 1 carpenter, 1 painter, 1 plumber, 2 building maintenance men are required for the maintenance of buildings for approximately 1,400 additional capacity including the new receiving and treatment building.				
29	3 Groundsmen and flower gardeners to maintain the additional area around the new ward buildings, and receiving and treatment buildings.				
30	The increased expenditure for salaries and wages due to new positions will be partially offset by \$130,122, because of the estimated increase in salary savings.				
31	OPERATING EXPENSES: The increase of \$375,686 is accounted for as follows:				
32	The augmented food ration for the increased population in 1951-52 accounts for \$249,190.				
33	The augmented clothing ration for the increased population in 1951-52 accounts for \$49,099.				
34	The light, heat, and power increase for additional capacity accounts for \$26,131.				
35	The increased maintenance of structure allotment for increased annual painting requirements to eliminate future deferred maintenance accounts for \$10,000.				
36	The increase in population is primarily responsible for the balance of \$41,266.				
37	EQUIPMENT: The amount of \$161,445 is requested, an increase of \$44,439 from 1950-51. \$74,209 is for replacement and \$87,236 is for additional equipment and includes the following significant items: office equipment for new positions, \$14,475; accounting machine, \$1,500; 1 car and 3 trucks for hauling purposes, \$9,853; dairy cows \$10,000; homogenizer, \$4,000; feeder pigs, \$5,000.				
38	REIMBURSEMENTS: The total of \$147,230 is estimated for 1951-52, an increase of \$36,102 over 1950-51, and is attributable to the estimated increase in meal sales from the new employees.

26	TOTAL EXPENDITURES	\$2,502,205	\$2,743,225	\$2,964,173	\$220,948		
27					(8.1%)		
28							
29	GENERAL ANALYSIS						
30							
31	Number of positions	656.2	656.6	680.3	23.7		
32							
33	POPULATION AND UNIT COSTS						
34	Average population	2,875	2,937	3,000	63		
35	Per capita cost	\$869	\$934	\$988	\$54		
36					(5.8%)		
37							
38	Total expenditures for support in 1951-52 amount to \$2,964,173, an increase of \$220,948 or 8.1 percent over 1950-51. The increase in						
39	average population in 1951-52 is 2.2 percent over 1950-51.						
40							
41	SALARIES AND WAGES: The increase of \$123,276 is accounted for as follows:						
42	47 New positions at a cost of \$122,292 account for virtually the entire increase. Complement positions affecting all hospitals						
43	are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary, and						
44	the two miscellaneous positions are individually explained below.						
45	1 Clinical laboratory technician required to assist the present technician with the large volume of tests to be processed for						
46	proper diagnoses. This institution has a large number of tubercular cases which increases the load.						
47	1 Groundsman and flower gardener required to augment the staff of four as there are practically no working type patients						
48	with sufficient strength to perform heavy ground duty.						
49							
50	OPERATING EXPENSES: The increase of \$120,458 is accounted for as follows: The augmented food ration for the increased						
51	population in 1951-52 accounts for \$76,535. The augmented clothing ration for the increased population in 1951-52 accounts for						
52	\$29,449. Increased traveling allotment for in-service training of employees accounts for \$3,360. Increased cost of light, heat, and						
53	power accounts for \$6,857. Other factors of change account for the balance of \$4,257.						
54							
55	EQUIPMENT: The amount of \$51,426 includes \$22,372 for replacement and additional equipment of \$29,054. The following are						
56	significant additional items: Equipment for new positions \$4,179, a bread wrapper and sealer \$4,410, sewing machines \$2,160, two						
57	air compressors for laundry to comply with California Code \$2,000.						
58							
59	REIMBURSEMENTS: A total of \$94,227 is estimated for 1951-52, an increase of \$9,543 over 1950-51, for services to employees.

GENERAL ANALYSIS

Number of positions ----- 563.5 597.5 609.1 11.6

POPULATION AND UNIT COSTS

Average population ----- 2,727 2,609 2,465 144
 Per capita cost ----- \$816 \$954 \$1,053 \$99
 (10.4%)

Total expenditures for support in 1951-52 amount to \$2,596,676, an increase of \$108,775 or 4.4 percent over 1950-51. The average population in 1951-52 is 5.5 percent below 1950-51.

SALARIES AND WAGES: The increase of \$75,233 is accounted for entirely by:

34.7 New positions at a cost of \$110,528. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary, and the one miscellaneous position is explained below.

The meat cutter is necessary to provide the butcher shop with a second employee to assist with the slaughtering of hogs and meat cutting to serve approximately 2,400 patients.

OPERATING EXPENSES: The increase of \$37,829 is accounted for as follows: The enriched food ration for the estimated population in 1951-52 accounts for \$17,586. The augmented clothing ration for the estimated population in 1951-52 accounts for \$17,350. Light, heat, and power cost for new facilities accounts for \$2,648. Travel costs of the accelerated in-service training program account for \$4,200. Decreases in various other items partially offset the above increases.

EQUIPMENT: The amount of \$73,530 includes \$32,492 for replacement and \$41,038 for additional equipment. The following are significant additional items of equipment: office equipment for new employees, \$6,030; accounting machine, \$1,500; truck lift, \$2,500; food conveyors, \$2,680; floor polishers, \$1,680; coffee urns, \$2,400; bedside cabinets, \$1,200; medical books, \$1,000.

REIMBURSEMENTS: A total of \$92,014 is estimated for 1951-52, an increase of \$2,810 over 1950-51 primarily from increased reimbursements from meals served to employees.

18					
19					
20	GENERAL ANALYSIS				
21					
22					
23	Number of positions-----	718.8	735.2	748.8	13.6
24					
25	POPULATION AND UNIT COSTS				
26	Average population-----	2,890	2,983	3,000	17 (0.6%)
27					
28	Per capita cost-----	\$906	\$986	\$1,064	\$78 (7.9%)
29					
30					
31	Total expenditures for support in 1951-52 amount to \$3,191,040, an increase of \$249,667 or 8.5 percent over 1950-51. The increase in average population in 1951-52 is 0.6 percent over 1950-51.				
32					
33					
34	SALARIES AND WAGES: Increase of \$99,809 is accounted for as follows:				
35	43 New positions at a cost of-----				\$112,596
36	Complement positions affecting all hospitals are explained under "State Hospitals and Homes for the Mentally Defi- cient" following the departmental summary and the three miscellaneous positions are individually explained below.				
37	1 Additional automotive equipment operator required to transport food to the wards.				
38	1 Additional seamstress required for the mending room to prolong the life of linens and clothing.				
39	1 Clinical laboratory technician required for proper diagnosis as the load of the laboratory has grown beyond the capacity of the one present technician.				
40					
41	OPERATING EXPENSES: An increase of \$129,105 is accounted for as follows:				
42	The augmented food ration for the increased population in 1951-52 accounts for \$66,564.				
43	The augmented clothing ration for the increased population in 1951-52 accounts for \$26,728.				
44	An increased travel allotment for in-service training of employees accounts for \$3,360.				
45	The increased cost of light, heat, and power accounts for \$8,420.				
46	The increased allotment for maintenance of structures in the amount of \$10,000 for painting and \$10,000 for electric, steam and water lines for increased normal in lieu of deferred maintenance accounts for the increase over 1950-51.				
47	Other adjustments account for the balance of increase amounting to \$4,033.				
48					
49	EQUIPMENT: The amount of \$95,464 represents \$35,945 for replacement equipment and additional equipment in the amounts of \$59,519. The following are significant additional items: equipment for new positions, accounting machine, bread slicer and wrapper electronarcosis apparatus, electrocardiograph, phoropter unit, autoclave for T. B. unit, etc.				
50					
51	REIMBURSEMENTS: A total of \$104,754 is estimated for 1951-52, an increase of \$9,679 over 1950-51 for services to employees.

Department of Mental Hygiene

NAPA STATE HOSPITAL

A hospital for mental patients, located at Imola, Napa County.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
2	General Fund				
3	SUPPORT				
4	Budget Act appropriation	\$3,218,952	\$3,551,229	\$4,050,295	
5	Transfer from Stockton State Hospital Budget Act appropriation	38,038	-	-	
6	Allocations from Emergency Fund	5,250	193,715	-	
7	Allocations from Salary Increase Fund	124,491	42,180	-	
8	Total Available	\$3,386,731	\$3,787,124	\$4,050,295	
9	Net change in stores inventory	45,453	-	-	
10	Unexpended balance, estimated savings	-109,236	-29,834	-	
11	TOTAL EXPENDITURES FOR SUPPORT	\$3,322,948	\$3,757,290	\$4,050,295	\$293,005 (7.8%)
12	GENERAL ANALYSIS				
13	Number of positions	846.6	893.4	914.1	20.7
14	POPULATION AND UNIT COSTS				
15	Average population	4,093	4,420	4,589	169
16	Per capita cost	\$812	\$850	\$883	\$33 (3.9%)
17	Total expenditures for support in 1951-52 amount to \$4,050,295, an increase of \$293,005, or 7.8 percent over 1950-51. The increase in average population in 1951-52 is 3.8 percent over 1950-51.				
18	Effective September 15, 1950, hog ranch operations were terminated as a result of the Joint Legislative Interim Committee on Agriculture and Livestock's recommendations reflecting decreases for the remainder of 1950-51 and 1952 in hog ranch expenditures (two hog ranch operators eliminated), and local production. Surplus products sales were increased in 1950-51 by the sale of hogs.				
19	SALARIES AND WAGES: The increase of \$123,582 is accounted for as follows:				
20	50.7 New positions at a cost of \$150,224. Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary, and seven miscellaneous positions are explained below.				
21	1 X-ray technician position is required to assist the present employee serve the population needs. Approximately 250 tuberculosis patients have been added to the load of the X-ray department.				
22	1 Clinical laboratory technician is needed for work load with some increase due to the tuberculosis unit plus laboratory work required for the medical consultants.				
23	1 Electrician and two maintenance men are required for the maintenance of the new "T" unit group of buildings housing 1,800 patients which contain many mechanical features that require daily attention.				
24	2 Groundsmen and flower gardeners are required for the addition of the new buildings which have added 25 acres of grounds under landscaping. These positions will supervise working patients assigned to the maintenance of the large new areas.				
25	OPERATING EXPENSES: The increase of \$173,991 is accounted for as follows:				
26	The enriched food ratio for the increased population in 1951-52, \$108,368. The augmented clothing ratio for the increased population in 1951-52, \$39,718. The increased light, heat, and power costs, \$2,813. Increased cost for required water and sewerage facilities, \$9,450. Other factors of change account for the balance of \$13,642.				
27	EQUIPMENT: The amount of \$87,718 includes \$53,922 for replacement and \$33,796 for additional equipment. The following are significant items of additional equipment: office equipment for new employees, \$7,476; accounting machine, \$1,500; floor polishers, \$1,440; laundry compressor, \$1,400; professional books, \$1,000.				
28	REIMBURSEMENTS: A total of \$130,779 is estimated for 1951-52, a decrease of \$3,962 from 1950-51, due primarily to excess sales in 1950-51 caused by discontinuance of the hog ranch, partially offset by an increase in meal sales to employees.

SUMMARY AND
RECONCILIATION WITH APPROPRIATIONS

General Fund

SUPPORT

Budget Act appropriation	\$2,137,717	\$2,277,788	\$2,607,184	
Allocations from Emergency Fund	11,508	104,272	-	
Allocations from Salary Increase Fund	87,292	32,244	-	
Total Available	\$2,236,517	\$2,414,304	\$2,607,184	
Net change in stores inventory	75,357	-	-	
Unexpended balance, estimated savings	-83,152	-	-	

TOTAL EXPENDITURES FOR SUPPORT	\$2,228,722	\$2,414,304	\$2,607,184	\$192,880 (8%)
--------------------------------	-------------	-------------	-------------	-------------------

GENERAL ANALYSIS

Number of positions	573.6	583.1	620.9	37.8
---------------------	-------	-------	-------	------

POPULATION AND UNIT COSTS

Average population	2,430	2,340	2,020	-320
Per capita cost	\$917	\$1,032	\$1,291	\$259 (25.1%)

Total expenditures for support in 1951-52 amount to \$2,607,184, an increase of \$192,880 or 8 percent over 1950-51. The decrease in average population in 1951-52 is 13.7 percent over 1950-51.

SALARIES AND WAGES: The increase of \$155,906 is accounted for as follows:

48.7 New positions at a cost of \$157,496 accounts for the increase.

Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary, and the five miscellaneous positions are explained below:

- 1 Butcher. Institution butcher shop now understaffed and a second position is required to furnish necessary help to slaughter locally-grown hogs and cattle and prepare meat for main patients' kitchen.
- 2 Psychiatric resident. These positions are requested for the purpose of securing psychiatric residents from the medical schools in Southern California. This is a method of securing more trained men in this field.
- 1 Psychiatric nursing instructor to supervise the affiliate nurse training program to be instituted in order to secure affiliation with several of the nurses training schools in Southern California. This constitutes an opportunity to train more nurses in the psychiatric field.
- 1 Groundsman and flower gardener to assist with the upkeep of the extensive grounds area as the four present employees are insufficient for proper maintenance.

OPERATING EXPENSES: The decrease of \$12,163 is accounted for as follows:

The enriched food ration for 320 less patients accounts for a decrease of \$19,756. The requirements for the dairy were reduced 15 percent and this accounts for a decrease of \$6,500. The augmented clothing ration for the estimated population accounts for an increase of \$10,790. The increased cost of light, heat, and power accounts for an increase of \$2,519. Other factors of change account for the balance of \$784.

EQUIPMENT: The amount of \$148,796 is \$78,256 for replacement and \$70,540 for additional equipment. The following are significant items: office equipment for new employees, \$8,600; accounting machine, \$1,500; two trucks, \$3,300; steam table and dishwasher for new female dining room, \$5,300; laundry washer, \$2,000.

REIMBURSEMENTS: A total of \$90,076 is estimated for 1951-52, an increase of \$7,802 over 1950-51 for meal sales to employees.

Department of Mental Hygiene

PATTON STATE HOSPITAL

A hospital for mental patients, located at Patton, San Bernardino County.

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51		
1	SUMMARY AND						
2	RECONCILIATION WITH APPROPRIATIONS						
3	General Fund						
4	SUPPORT						
5	Budget Act appropriation-----	\$3,135,696	\$3,361,010	\$4,008,891			
6	Transfers from other institutions-----	34,829	-	-			
7	Allocations from Salary Increase Fund-----	123,489	39,332	-			
8	Allocations from Emergency Fund-----	-	199,655	-			
9	Total Available-----	\$3,294,014	\$3,599,997	\$4,008,891			
10	Net charge in stores inventory-----	39,352	-	-			
11	Unexpended balance, estimated savings-----	-42,786	-1,593	-			
12	TOTAL EXPENDITURES-----	\$3,290,580	\$3,598,404	\$4,008,891	\$410,487 (11.4%)		
13	GENERAL ANALYSIS						
14	Number of positions-----	822.5	908	946.4	38.4		
15	POPULATION AND UNIT COSTS						
16	Average population-----	4,000	4,100	4,010	-90		
17	Per capita cost-----	\$823	\$877	\$1,000	\$123 (14%)		
18	Total expenditures for support in 1951-52 amount to \$4,008,891, an increase of \$410,487 or 11.4 percent over 1950-51. The decrease in average population in 1951-52 is 2.2 percent from 1950-51.						
19	SALARIES AND WAGES: The increase of \$269,867 is accounted for as follows:						
20	49.9 new positions at a cost of \$153,071.						
21	Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary and the 5.2 miscellaneous positions are explained below.						
22	1 Automotive equipment operator is required for the delivery of food by truck from the main kitchen to the new tubercular unit consisting of 500 beds.						
23	1 Assistant seamstress is required to augment the present staff of two employees for an increase in amount of mending work. The sewing room manufactures clothing as well as mending and uses as many working patients as can be secured from the wards in this work to prolong the useful life of clothing and linens.						
24	0.2 Chiropodist position increase to full time is due to the urgent need for the performance of this work and the recruitment difficulties encountered on a part time basis.						
25	1 X-ray technician is required for the added load that will be caused by the opening of the new T. B. unit.						
26	1 Machinist is requested to perform the work presently being partially performed by one of the auto mechanics to expedite the maintenance work in this institution.						
27	1 Groundsman and flower gardener is required for an additional 17 acres of landscaped areas around the new 500 bed T. B. hospital and the new patients' ward building.						
28	The balance of the increase in salaries and wages, amounting to \$116,796, is accounted for by the increased cost of 63 positions in the 1950-51 Fiscal Year for approximately four months as compared with their full year cost in 1951-52.						
29	OPERATING EXPENSES: The increase of \$97,910 is accounted for as follows:						
30	The enriched food ration for the estimated population in 1951-52 accounts for \$43,123.						
31	The augmented clothing ration for the estimated population in 1951-52 accounts for \$30,673.						
32	Increased light, heat, and power costs account for \$17,924.						
33	Other factors of change account for the balance of \$6,190.						
34	EQUIPMENT: The amount of \$142,393 includes \$84,980 for replacement and \$57,413 additional equipment. The following are significant additional equipment items: Office equipment for new employees, \$9,522; accounting machine, \$1,500; pickup truck, \$1,325; food mixer and 2 dish washing machines, \$5,000; patients' ward furniture, \$6,000; farm tractor, \$1,500; vegetable washing equipment, \$1,100.						
35	REIMBURSEMENTS: A total of \$86,644 is estimated for 1951-52, an increase of \$8,781 from meal sales to employees.

GENERAL ANALYSIS

Number of positions 973.5 1,120.5 1,131.1 10.1

POPULATION AND UNIT COSTS

Average population 4,620 4,776 4,816 40
Per capita cost \$782 \$921 \$942 \$21
(2.3%)

Total expenditures for support in 1951-52 amount to \$4,537,151, an increase of \$136,885 or 3.1 percent over 1950-51. The increase in average population in 1951-52 is 0.8 percent over 1950-51.

SALARIES AND WAGES: The increase of \$23,242 is accounted for as follows:

48.7 New positions at a cost of \$155,372.

Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT," following the departmental summary, and the 10 miscellaneous positions are explained below.

2 Housekeeper positions to assist the one employee authorized to take care of janitorial services in the new auditorium, and to service the administration building, corridors, and visitation rooms in employees quarters which is now performed by patient help in an unsatisfactory manner.

1 Surgical nurse required for the increased volume of operations performed at the hospital by the medical staff and specialists.

2 Chaplain positions were authorized for Camarillo, Napa, and Sonoma in 1950-51, as properly trained chaplains are of great assistance to the psychiatrist. This hospital is in a position to secure and use to advantage two chaplains, and in line with the recommendations of the Governor's Committee on Institutional Religion, the positions are included.

1 X-ray technician is required to assist the present authorized technician to take care of the work load in view of the accelerated X-ray and medical program.

2 Building maintenance men for servicing the two additional large buildings opened about a year ago. These modern buildings (1,000-bed capacity) contain a great deal of mechanical equipment which requires daily servicing.

2 Groundsman and flower gardeners are required for the proper care of the additional acres of lawn and shrubs around the new buildings.

The decreased cost of positions now authorized amounts to \$27,273, and is attributable to:

(a) Pilot study expenditures over the full 1950-51 Fiscal Year as compared with six months in 1951-52, with a decrease of \$120,984 for the 87.5 positions involved.

(b) Seven laundry helper positions eliminated in 1951-52 as a result of the laundry operations survey recently completed, results in a decrease of \$6,480.

OPERATING EXPENSES: The increase of \$109,872 is accounted for as follows:

The enriched food ration for the estimated average population in 1951-52 accounts for \$70,872.

The augmented clothing ration for the estimated average population in 1951-52 accounts for \$39,351.

Other factors of change account for the net difference of \$351.

EQUIPMENT: The amount of \$118,989 includes \$43,504 for replacement and \$75,485 additional equipment. Significant additions in equipment items follow: office equipment for new positions, \$7,955; bookkeeping machine, \$1,500; fork lift, \$2,500; ambulance, \$4,000; dishwashing machine for T. B. ward, \$1,600; electroencephalograph, \$3,600; X-ray vertical roentgenoscope and tub, \$1,055; dairy livestock, \$2,000; boar and gilts, \$1,800; pullets, \$4,640.

REIMBURSEMENTS: A total of \$143,075 is estimated for 1951-52, an increase of \$20,540 over 1950-51, primarily due to meal sales to employees, and increased surplus products sales derived from sale of excess dairy stock.

8	Total Available	\$1,850,162	\$2,109,206	\$2,403,775	
9	Net change in stores inventory	67,845	-	-	
10	Unexpended balance, estimated savings	-62,326	-5,737	-	
11	TOTAL EXPENDITURES FOR SUPPORT	\$1,855,681	\$2,103,469	\$2,403,775	\$300,306 (14.3%)

1	GENERAL ANALYSIS				
2	<i>Number of positions</i>	<i>457.5</i>	<i>517</i>	<i>578.9</i>	<i>61.9</i>
3	POPULATION AND UNIT COSTS				
4	Average population	1,922	2,050	2,050	-
5	Per capita cost	\$965	\$1,026	\$1,173	\$147 (14.3%)
6	Total expenditures for support in 1951-52 amount to \$2,403,775, an increase of \$300,306, or 14.3 percent over 1950-51. No change in average population in 1951-52 is anticipated.				

SALARIES AND WAGES: The increase of \$201,760 is accounted for as follows:

78.5 New positions at a cost of \$204,691 account for the entire increase. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for the Mentally Deficient" following the departmental summary, and the 10.2 miscellaneous positions are explained below.

2 Automotive equipment operator positions are required for the delivery of food to the wards and the collection of garbage for seven-day-week service.

1 Housekeeper position is required for janitorial work for two new employee buildings, addition to administration building, and temporary office and patients clinic building.

1 Meat cutter is necessary to provide the butcher shop with a second employee for cutting and processing meat to serve approximately 2,000 patients.

0.2 Chiropodist position is increased to full time due to the many problems of the feet found with mentally defective children.

2 Educational interne positions are necessary to provide the universities in Southern California a place for specialized work with field experience in training teachers for the mentally deficient and the cerebral palsied. This is considered a worthwhile project in combination with the State Department of Education and will be of assistance to Pacific Colony.

1 Elementary teacher is required to take over the class work now being carried by the principal in order to relieve the principal for administrative work.

1 Speech correction teacher is necessary to help the most urgent of 400 cerebral palsied patients in addition to other mentally defective patients that have speech difficulties and speech deficiencies, either of an organic nature or functional basis.

1 Steamfitter is requested to augment the present staff due to the addition of two new ward buildings and two employee buildings together with the other steam line work.

1 Groundsman and flower gardener is necessary to service the additional landscape area added by the completion of the two new ward buildings and the two employees' buildings. The two authorized groundsman employees are unable to keep up with the present work.

OPERATING EXPENSES: The increase of \$80,279 is accounted for as follows:

The enriched food ration for the estimated population in 1951-52 accounts for \$42,680.

The augmented clothing ration for the estimated population in 1951-52 accounts for \$20,500.

Increased light, heat, and power costs account for \$8,230.

Increased travel allotment for in-service training, \$4,200.

Other factors of change account for the balance of \$4,669.

EQUIPMENT: The amount of \$95,485 includes \$26,452 replacement equipment and \$69,033 additional equipment. The following are significant items of additional equipment: office equipment for new employees, \$5,948; accounting machine, \$1,500; power lift, \$2,633; fire engine, \$8,200; food truck, \$2,785; pick-up truck, \$1,325; food conveyors, \$3,467; play pens, \$2,125; electroencephalograph channels, \$1,000; hospital beds, \$1,586.

REIMBURSEMENTS: A total of \$67,275 is estimated for 1951-52, an increase of \$11,112 which is primarily from meal sales to employees.
